**The Shah Bano Controversy** Asghar Ali Engineer, 1987 Debate on the divorced Muslim woman's right to maintenance in India and implications of the Supreme Court judgment and subsequent governmental legislation collection of newspaper articles reports interviews speeches and petitions by individual scholars and associations **Religion, Federalism, and the Struggle for Public Life** William Johnson Everett, 1997-11-27 In the past decade the struggle for new forms of federal order and public life has exploded in central Europe the former Soviet Union and South Africa Religious traditions and organizations have played a crucial role in these revolutions and have also been critical to the establishment of constitutional orders in post colonial countries like India Moreover they continue to undergird and to challenge the understanding of public life in the United States whether in church state conflicts or Native American religious claims William Everett examines the role of religious traditions in the development of modern federal republicanism seeking answers to such questions as How have patterns of religious organization shaped federal republican orders How do different cultures weave together these political and religious threads into a living fabric that fits their own cultural heritage How are Western religious traditions of covenant and conciliarism relevant for understanding religion and constitutional developments in non Western cultures The author argues that a better comparative grasp of these dynamics is essential to our understanding of the establishment sustenance and development of federal republican governance He presents as a first step toward this goal a detailed and comparative study of these patterns in India Germany and the United States **The Claims of Culture** Seyla Benhabib, 2002 Analysing in detail the transformation of citizenship practices in European Union countries Benhabib concludes that flexible citizenship certain kinds of legal pluralism and models of institutional powersharing are quite compatible with deliberative democracy as long as they are in accord with egalitarian reciprocity voluntary self ascription and freedom of exit and association **Religion, Power and Violence** Ram Puniyani, 2005-07-21 In Indian context **Politics of the 'Other' in India and China** Lion Koenig, Bidisha Chaudhuri, 2016-02-22 The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist's understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of

adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies

**Whose News?** Ammu Joseph, Kalpana Sharma, 2006-08-04 *Whose News The Media and Women s Issues* 1994 quickly became an international classic which was widely used The decade that has passed since its publication has witnessed dramatic developments in the media environment across the world As a consequence the coverage of gender issues in the media today has to be viewed and evaluated against the background of globalization in general and media globalization in particular This is just what this new and updated edition of the pioneering book does In particular it addresses the set of questions that has arisen in recent years concerning women s access to the media and to information as users their participation in media and communication structures and their portrayal and perspectives in media content This new edition retains its unique gender analysis of media content and situates views and evaluates the coverage of gender issues in the media within the context of recent trends in both the economy and the media industry Employing a novel and nuanced methodology it offers a distinctive view of the history of both the media and the women s movement in India as the 20th century gave way to the 21st It also examines current media coverage of women s issues such as dowry related violence rape sex selection Muslim women s legal rights and the practice of sati

**Visualizing Secularism and Religion** Maha Yahya, 2012-05-22 Over the past two decades secular politics across the globe have witnessed an increasing turn to religion based political movements such as the rise of political Islam and Hindu nationalism which have been fueling new and alternative notions of nationhood and national ideologies The rise of such movements has initiated widespread debates over the meaning efficacy and normative worth of secularism *Visualizing Secularism and Religion* examines the constitutive role of religion in the formation of secular national public spheres in the Middle East and South Asia arguing that in order to establish secularism as the dominant national ideology of countries such as Turkey Lebanon and India the discourses practices and institutions of secular nation building include rather than exclude religion as a presence within the public sphere The contributors examine three fields urban space and architecture media and public rituals such as parades processions and commemorative festivals with a view to exploring how the relation between secularism religion and nationalism is displayed and performed This approach demands a reconceptualization of secularism as an array of contextually specific practices ideologies subjectivities and performances rather than as simply an abstract legal bundle of rights and policies

*Reclaiming the Nation* Vrinda Narain, 2008-01-01 Living in pluralist India has had critical consequences for Muslim women who are expected to follow a determined and strict code of conduct The impact of this contradiction is most evident in the continuing denial of gender equality within the family as state regulation of gender roles in the private sphere ultimately affects the status of women in the public sphere *Reclaiming the Nation* examines the relationship between gender and nation in post colonial India through the lens of marginalized Muslim women Drawing on

feminist legal theory postcolonial feminist theory and critical race theory Vrinda Narain explores the idea of citizenship as a potential vehicle for the emancipation of Muslim women Citizenship Narain argues opens the possibility for Indian women to reclaim a sense of selfhood free from imposed identities In promoting the hybridity of culture and the modernity of tradition Narain shows how oppositional categories such as public versus private Muslim versus feminist and Western versus Indian have been used to deny women equal rights A timely account of the struggle for liberation within a restrictive religious framework Reclaiming the Nation is an insightful look at gender nationhood and the power of self determination *Islamic Law and International Human Rights Law* Anver M. Emon, Mark Ellis, Benjamin Glahn, 2012-10-11 The relationship between Islamic law and international human rights law has been the subject of considerable and heated debate in recent years The usual starting point has been to test one system by the standards of the other asking is Islamic law compatible with international human rights standards or vice versa This approach quickly ends in acrimony and accusations of misunderstanding By overlaying one set of norms on another we overlook the deeply contextual nature of how legal rules operate in a society and meaningful comparison and discussion is impossible In this volume leading experts in Islamic law and international human rights law attempt to deepen the understanding of human rights and Islam paving the way for a more meaningful debate Focusing on central areas of controversy such as freedom of speech and religion gender equality and minority rights the authors examine the contextual nature of how Islamic law and international human rights law are legitimately formed interpreted and applied within a community They examine how these fundamental interests are recognized and protected within the law and what restrictions are placed on the freedoms associated with them By examining how each system recognizes and limits fundamental freedoms this volume clears the ground for exploring the relationship between Islamic law and international human rights law on a sounder footing In doing so it offers a challenging and distinctive contribution to the literature on the subject and will be an invaluable reference for students academics and policy makers engaged in the legal and religious debates surrounding Islam and the West **Gender, Culture and Human Rights** Siobhán Mullally, 2006-05-26 In recent years feminist theory has increasingly defined itself in opposition to universalism and to discourses of human rights Rejecting the troubled legacies of Enlightenment thinking feminists have questioned the very premises upon which the international human rights movement is based Rather than abandoning human rights discourse however this book argues that feminism should reclaim the universal and reconstruct the theory and practice of human rights Discourse ethics and its post metaphysical defence of universalism is offered as a key to this process of reconstruction The implications of discourse ethics and the possibility of reclaiming universalism are explored in the context of the reservations debate in international human rights law and further examined in debates on women s human rights arising in Ireland India and Pakistan Each of these states shares a common constitutional heritage and in each religious cultural claims intertwined with processes of nation building have constrained the pursuit of gender equality

Ultimately this book argues in favour of a dual track approach to cultural conflicts combining legal regulation with an ongoing moral political dialogue on the scope and content of human rights

**Grounding Security** Professor Carol Weisbrod, 2013-01-28 This book examines some of the mechanisms which are currently conceived as affording individual security The idea of security includes emotional and financial components These interconnect so that such common concepts as trust in someone and care taking include both ideas of emotional and financial support State policies on security rest on perceptions of two other institutions the family and insurance both of which are subject to change At one time the extended family was seen as a major security providing institution but the contemporary nuclear family is more fragile The concept of insurance originally entailed ideas of community and mutual aid however the institution has developed in its modern private form as a profit driven entity This book addresses various uses of state power in providing security for individuals and outlines different ways in which this can be done

*Introduction to the Study of Religion* Leroyce Miles, 2018-08-07 One thing is clear that fighting with other human beings in the name of religion is subhuman As a religious man we are fellow travellers in the direction of the realm of spirit Here the nomenclature of Hindus Muslims Christians etc ceases to be meaningful Of course we have to go very far and we have not made any beginning yet However at present the advaitic principle of difference less Brahman can serve the purpose of harmonizing all religions Here we have adopted this principle Secondly the key concepts of different religions have been shown to mingle into one another The book attempts to interrogate the categories used in western discourse in the study of religion In doing so the book outlines a broad overview of the discussions on issues relating to the methods and theories in the study of religion The book provides an insight into some of the key issues that need clarity in dealing with religions This scholarly presentation is a must read for students of religion culture and philosophy and for those involved with the struggles of the subaltern community

Nussbaum, 1999-02-04 What does it mean to respect the dignity of a human being What sort of support do human capacities demand from the world and how should we think about this support when we encounter differences of gender or sexuality How should we think about each other across divisions that a legacy of injustice has created In Sex and Social Justice Martha Nussbaum delves into these questions and emerges with a distinctive conception of feminism that links feminist inquiry closely to the important progress that has been made during the past few decades in articulating theories of both national and global justice Growing out of Nussbaum s years of work with an international development agency connected with the United Nations this collection charts a feminism that is deeply concerned with the urgent needs of women who live in hunger and illiteracy or under unequal legal systems Offering an internationalism informed by development economics and empirical detail many essays take their start from the experiences of women in developing countries Nussbaum argues for a universal account of human capacity and need while emphasizing the essential role of knowledge of local circumstance Further chapters take on the pursuit of social justice in the sexual sphere exploring the issue of equal rights for lesbians and gay men Nussbaum s arguments are shaped by her work on Aristotle and the Stoics and by the modern liberal thinkers Kant and Mill She contends that the liberal tradition of political thought holds rich resources for addressing violations of human dignity on the grounds of sex or sexuality provided the tradition transforms itself by responsiveness to arguments concerning the social shaping of preferences and desires She challenges liberalism to extend its tradition of equal concern to women always keeping both agency and choice as goals With great perception she combines her radical feminist critique of sex relations with an interest in the possibilities of trust sympathy and understanding Sex and Social Justice will interest a wide readership because of the public importance of the topics Nussbaum addresses and the generous insight she shows in dealing with these issues Brought together for this timely collection these essays extensively revised where previously published offer incisive political reflections by one of our most important living philosophers *Modern Indian Family Law* Werner Menski, 2013-12-16 This text presents an overview of the major issues and topics in current developments in Indian family law Indian law has produced a number of very important innovations in the past two decades which are also highly instructive for law reform debates in western and other jurisdictions Topics discussed are marriage divorce polygamy maintenance property and the Uniform Civil Code Affective
