What causes revolution What brought about the end of the last major monarchies of the modern period Were Louis XVI Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance or did their own actions help to bring about the revolutions that overthrew them This powerful and original book is the first comparative study of the revolutions in Bourbon France Romanov Russia and Pahlavi Iran Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them Revolutions and the Collapse of Monarchy argues provocatively that it is often the monarch s own personality that provides the vital spark which produces revolution This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution **Iran's Policy Towards the Gulf** Talat Parveen,2006 *Land Law in Middle Eastern Countries*

Ansari,2012-09-24 The first full length

study of Iranian nationalism in nearly five decades this sophisticated and challenging book by the distinguished historian Ali M Ansari explores the idea of nationalism in the creation of modern Iran It does so by considering the broader developments in national ideologies that took place following the emergence of the European Enlightenment and showing how these ideas were adopted by a non European state Ansari charts a course through twentieth century Iran analysing the growth of nationalistic ideas and their impact on the state and demonstrating the connections between historiographical and political developments In so doing he shows how Iran s different regimes manipulated ideologies of nationalism and collective historical memory to suit their own ends Drawing on hitherto untapped sources the book concludes that it was the revolutionary developments and changes that occurred during the first half of the twentieth century that paved the way for

later radicalisation **Concise Biographical Companion to Index Islamicus** Wolfgang Behn, 2006-03-01 This second of the three volume Who's Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his/her proper perspective A tremendous achievement and a true must for every library Ibss Poli Sci 29 1980 "International Committee For Social Sciences Documentation", 2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 **The Politics of Nationalism in Modern Iran** 'Ali Mīr'Anṣari, 2012

Modern Iran Ali Ansari, 2014-07-22 Today's Iran is rarely out of the headlines Labelled by George W Bush as a part of his axis of evil and perceived as a real nuclear threat by some Iran is increasingly seen as an enemy of the West And yet for many Iran remains shrouded in mystery and incomprehensible to Western analysis Modern Iran offers a comprehensive analysis and explanation of political social and economic developments in Iran during the 20th century Since it first published in 2003 Modern Iran has become a staple for students and lecturers wishing to gain a clear understanding of the history of this strategically important Middle Eastern Country The new edition will bring us up to date and will include an analysis of the successes and failures of the Khatami Presidency an examination of the effect of 9/11 the rise of the Reform Movement and the efforts to promote Islamic Democracy the resistance to democratisation among the hardline elites *Modern Iran since 1797* Ali Ansari, 2019-03-26 Modern Iran since 1797 offers a comprehensive analysis of political social and economic developments in Iran since the end of the eighteenth century Spanning two centuries the book provides historical context for Iran's international relationships and its internal struggle to reconcile itself and its traditions with the modern world The book presents an overview of this crucial period in Iran's history its emergence from the political turmoil of the eighteenth century through to its initial encounter with the industrial powers of Europe and its attempts to navigate the turbulent waters of European imperialism It assesses the impact of European ideas on the triumph and tragedy of the Constitutional Revolution which established the political template for the country going forward and against which all other political developments have been measured This new edition has been updated to incorporate new scholarship and research to make a rounded assessment of recent developments and bring the text fully up to date A substantive new prequel has also been added covering the long nineteenth century from 1797 through to 1921 including a fuller and more detailed treatment both

Times of Transition Sylvie Honigman,Christophe Nihan,Oded Lipschits,2021-03-15 This multidisciplinary study takes a fresh look at Judean history and biblical literature in the late fourth and third centuries BCE In a major reappraisal of this era the contributions to this volume depict it as one in which critical changes took place Until recently the period from Alexander s conquest in 332 BCE to the early years of Seleucid domination following Antiochus III s conquest in 198 BCE was reputed to be poorly documented in material evidence and textual production buttressing the view that the era from late Persian to Hasmonean times was one of seamless continuity Biblical scholars believed that no literary activity belonged to the Hellenistic age and archaeologists were unable to refine their understanding because of a lack of secure chronological markers However recent studies are revealing this period as one of major social changes and intense literary activity Historians have shed new light on the nature of the Hellenistic empires and the relationship between the central power and local entities in ancient imperial settings and the redating of several biblical texts to the third century BCE challenges the traditional periodization of Judean history Bringing together Hellenistic history the archaeology of Judea and biblical studies this volume appraises the early Hellenistic period anew as a time of great transition and change and situates Judea within its broader regional and transregional imperial contexts Iran, a Country Study American University (Washington, D.C.).
