Shakespeare's Tempest and Capitalism Helen Scott, 2019-09-12

In this forceful study Helen C Scott situates The Tempest within Marxist analyses of the primitive accumulation of capital which she suggests help explain the play's continued and particular resonance The storm of the title refers both to Shakespeare's Tempest hurtling through time and to Walter Benjamin's concept of history as a succession of violent catastrophes Scott begins with an account of the global processes of dispossession of the peasantry and indigenous populations accompanying the emergence of capitalism which generated new class relationships new understandings of human subjectivity and new forms of oppression around race gender and disability Developing a detailed reading of the play at its moment of production in the business of theatre in 1611 Scott then moves gracefully through the global reception history showing how its central thematic concerns and figurative patterns bespeak the upheavals and dispossessions of successive stages of capitalist development Paying particular attention to moments of social crisis and unearthing a radical political tradition Scott follows the play from its hostile takeover in the Restoration through its revival by the Romantics and consolidation and contestation in the nineteenth century In the twentieth century transatlantic modernism generated an acutely dystopic Tempest then during the global transformations of the 1960s postcolonial writers permanently associated it with decolonization At century's end the play became a vehicle for exploring intersectional oppression and the remarkable Sycorax school featured

iconoclastic readings by writers such as Abena Busia May Joseph and Sylvia Wynter Turning to both popular culture and high profile stage productions in the twenty first century Scott explores the ramifications and figurative potential of Shakespeare's Tempest for global social and ecological crises today Sensitive to the play's original concerns and informed by recent scholarship on performance and reception history as well as disability studies Scott's moving analysis impels readers towards a fresh understanding of sea change and metamorphosis as potent symbols for the literal and figurative tempests of capitalism's old age now threatening the great globe itself

Worlds Elsewhere Andrew Dickson, 2016-04-05 A book about how Shakespeare became fascinated with the world and how the world became fascinated with Shakespeare Ranging ambitiously across four continents and four hundred years Worlds Elsewhere is an eye opening account of how Shakespeare went global Seizing inspiration from the playwright's own fascination with travel foreignness and distant worlds worlds Shakespeare never himself explored Andrew Dickson takes us on an extraordinary journey from Hamlet performed by English actors tramping through the Baltic states in the early sixteen hundreds to the skyscrapers of twenty first century Beijing and Shanghai where Shashibiya survived Mao's Cultural Revolution to become a revered Chinese author En route Dickson traces Nazi Germany's strange love affair with and attempted nationalization of the Bard and delves deep into the history of Bollywood where Shakespearean stories helped give birth to Indian cinema In Johannesburg we discover how Shakespeare was enlisted in the fight to end apartheid In nineteenth century California we encounter shoestring performances of Richard III and Othello in the dusty mining camps and saloon bars of the Gold Rush No other writer's work has been performed translated adapted and altered in such a remarkable variety of cultures and languages Both a cultural history and a literary travelogue Worlds Elsewhere is an attempt to understand how Shakespeare has become the international phenomenon he is and why

Blacks and Blackness in European Art of the Long Nineteenth Century Adrienne L. Childs, 2017-07-05 Compelling and troubling colorful and dark black figures served as the quintessential image of difference in nineteenth century European art the essays in this volume further the investigation of constructions of blackness during this period This collection marks a phase in the scholarship on images of blacks that moves beyond undifferentiated binaries like negative and positive that fail to reveal complexities contradictions and ambiguities Essays that cover the late eighteenth through the early twentieth century explore the visibility of blackness in anti slavery imagery black women in Orientalist art race and beauty in fin de siècle photography the French brand of blackface minstrelsy and a set of little known images of an African model by Edvard Munch In spite of the difficulty of resurrecting black lives in nineteenth century Europe one essay chronicles the rare instance of an American artist of color in mid nineteenth century Europe With

analyses of works ranging from Gault's Raft of the Medusa to portraits of the American actor Ira Aldridge this volume provides new interpretations of nineteenth century representations of blacks *Black African Literature in English, 1997-1999* Bernth Lindfors, 2003 This volume lists the work produced on anglophone black African literature between 1997 and 1999 This bibliographic work is a continuation of the highly acclaimed earlier volumes compiled by Bernth Lindfors Containing about 10 000 entries some of which are annotated to identify the authors discussed it covers books periodical articles papers in edited collections and selective coverage of other relevant sources "The Tempest" and Its Travels Peter Hulme, William Howard Sherman, 2000 A casebook of the ways the Shakespeare play has been reinterpreted time and time again A Companion to Tragedy Rebecca Bushnell, 2009-03-30 A Companion to Tragedy is an essential resource for anyone interested in exploring the role of tragedy in Western history and culture Tells the story of the historical development of tragedy from classical Greece to modernity Features 28 essays by renowned scholars from multiple disciplines including classics English drama anthropology and philosophy Broad in its scope and ambition it considers interpretations of tragedy through religion philosophy and history Offers a fresh assessment of Ancient Greek tragedy and demonstrates how the practice of reading tragedy has changed radically in the past two decades **Caryl Phillips** Helen Thomas, 2006 This study presents a critical examination of Caryl Phillips fictional and non fictional explorations of the black diaspora **The Smell of Slavery** Andrew Kettler, 2020-05-28 In the Atlantic World different groups were aromatically classified in opposition to other ethnic gendered and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness The African subject was defined as a scented object appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul Fascinating informative and deeply researched The Smell of Slavery exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World
