Shakespeare On Management Wise Business Counsel From The Bard:

Shakespeare On Management Jay M. Shafritz, Publishing Carol, 1999-09-08 Long before the Harvard Business School there was William Shakespeare William Shakespeare's vast and important contributions to literature have long been acknowledged but his shrewd insights into business and management have been all but ignored until now A pithy book of wise business musings from the bard Shakespeare On Management captures entertaining and uncannily accurate reflections on fifty six of the most popular topics in business today from mergers and acquisitions to office politics power lunches to public relations Think of Hamlet the poignant case of too sensitive young executive who fails to move up the corporate ladder because of his inability to make decisions Or Julius Caesar which at its heart is nothing of not an attempt at a hostile takeover by disgruntled stockholders Or consider King Lear a warning to all executives of family businesses the perils of divestiture and early retirement Smart thought provoking and astonishingly contemporary Shakespeare On Management is truly a time tested classic that belongs on every well read executive's bookshelf

Shakespeare and Modern Culture Marjorie Garber, 2009-12-01 From one of the world's premier Shakespeare scholars comes a magisterial new study whose premise is that Shakespeare makes modern culture and that modern culture makes Shakespeare Shakespeare has determined many of the ideas that we think of as naturally true ideas about human character individuality and selfhood government leadership love and jealousy men and women youth and age Marjorie Garber delves into ten plays to explore the interrelationships between Shakespeare and contemporary culture from James Joyce's Ulysses to George W Bush's reading list From the persistence of difference in Othello to the matter of character in Hamlet to the untimeliness of youth in Romeo and Juliet Garber discusses how these ideas have been re imagined in modern fiction theater film and the news and in the literature of psychology sociology political theory business medicine and law Shakespeare and Modern Culture is a brilliant recasting of our own mental and emotional landscape as refracted through the prism of the protean Shakespeare [The SAGE](#)

Merchants, Barons, Sellers and Suits Christa Mahalik, 2010-08-11 Merchants Barons Sellers and Suits The Changing Images of the Businessman through Literature originally began as a conversation about a hybrid course at Quinnipiac University Its purpose was to take an online English course for non traditional business majors and create a theme that would be relevant to the business world Being given the task to create this course from the ground up was exciting and intriguing There turned out to be a lot more material that could be used for this theme than previously thought To gauge the temperature of the topic a panel was set up with the theme of businessmen or women and their changing image through literature At the 2009 NeMLA Northeast Modern Language Association conference in Boston the panel was held and many ideas such as some of the ones presented in this book were discussed A secondary theme evolved out of the construction of the first Participants discussed the environment as a catalyst in the change of what a person actually thinks a businessman or woman looks like Many of these images were formed based upon pop culture such as the traveling salesman in the Looney Tunes cartoons who sells brushes door to door and hails from Walla Walla Washington Others were based on the images read about in books such as Willy Loman from Death of a Salesman The essays included in this volume presented by doctoral candidates and scholars from across a range of geographical regions and disciplines result in a collection that investigates the idea of the changing image of the businessman throughout literature both in America and in Europe The arrangement of the collection is a comparative timeline allowing the changing images of business to evolve with each essay *The SAGE Handbook of New Approaches in Management and Organization* Daved Barry, Hans Hansen, 2008-04-30 Ten years ago critical theory and postmodernism were considered new and emerging theories in business and management What will be the next new important theories to shape the field In one edited volume Daved Barry and Hans Hansen have commissioned new chapters that will allow readers to stay one step ahead of the latest thinking Contributors draw on research and practice to

introduce ideas that are considered fringe and controversial today but may be key theoretical contributions tomorrow Each chapter sets these ideas in their historical context lays out the key theoretical positions taken by each new approach and makes it clear why these approaches are different to more mainstream concepts Throughout contributors refer to existing studies that show how these developing themes will change the business and management arena Researchers teachers and advanced students who are interested in the future of Business and Management scholarship will want to read this Handbook

Shakespeare After Mass Media R. Burt, 2016-04-30 Shakespeare in mass media particularly film video and television is arguably the hottest fastest growing research agenda in Shakespeare studies Shakespeare after Mass Media provides students and scholars with the most comprehensive resource available on the market for studying the pop cultural afterlife of The Bard From marketing to electronic Shakespeare comics to romance novels Star Trek to Branagh radio and popular music to Bartlett's Quotations the volume explores the contemporary cultural significance of Shakespeare in an unprecedentedly broad array of mass media contexts With theoretical sophistication and accessible writing it will be the ideal text for courses on Shakespeare and mass media

Shakespeare, Cinema, Counter-Culture Ailsa Ferguson, 2016-06-23 Addressing for the first time Shakespeare's place in counter cultural cinema this book examines and theorizes counter hegemonic postmodern and post punk Shakespeare in late 20th and early 21st century film Drawing on a diverse range of case studies Grant Ferguson presents an interdisciplinary approach that offers new theories on the nature and application of Shakespearean appropriations in the light of postmodern modes of representation The book considers the nature of the Shakespearean inter text in subcultural political contexts concerning the politicized aesthetics of a Shakespearean body in pieces the carnivalesque and notions of Shakespeare as counter hegemonic weapon or source of empowerment Representative films use Shakespeare and his accompanying cultural capital to challenge notions of capitalist globalization dominant socio cultural ideologies and hegemonic modes of expression In response to a post modern culture saturated with logos and semiotic abbreviations many such films play with the emblematic imagery and references of Shakespeare's texts These curious appropriations have much to reveal about the elusive nature of intertextuality in late postmodern culture and the battle for cultural ownership of Shakespeare As there has yet to be a study that isolates and theorizes modes of Shakespearean production that specifically demonstrate resistance to the social political ideological aesthetic and cinematic norms of the Western world this book expands the dialogue around such texts and interprets their patterns of appropriation adaptation and representation of Shakespeare

The Value of Arts for Business Giovanni Schiuma, 2011-05-19 The traditional view of the relationship between business and the arts is very much a one way affair: organisations may endorse, fund or publicise the arts but the arts have nothing to offer from a business perspective. *The Value of Arts for Business* challenges this view by showing how the arts in the form of Arts based Initiatives (ABIs) can be used to enhance value creation capacity and boost business performance. The book introduces and explains three models that show how organisations can successfully implement and manage ABIs. Firstly, the Arts Value Matrix enables managers to see how organisational value drivers are affected by ABIs. Secondly, the Arts Benefits Constellation shows how to assess the benefits of using ABIs. Finally, the Arts Value Map shows how ABIs can be integrated and aligned with organisational strategy and operations. These models lay the foundations for a new research area exploring the links between arts and business.

Shakespeare, Education and Pedagogy Pamela Bickley, Jenny Stevens, 2023-03-31 This volume captures the diverse ways in which Shakespeare interacts with educational theory and practice. It explores the depiction of learning and education in the plays, the role of Shakespeare as pedagogue and ways in which the teaching of Shakespeare can facilitate discussion of some of the urgent questions of modern times. The book offers a wide range of perspectives: historical, theoretical, theatrical. The Renaissance humanist learning underpinning Shakespeare's own work is explored in essays that consider how the complexity of Shakespeare's drama challenges early modern pedagogical orthodoxies. From close analysis of individual solitary reflection on Shakespeare's writing, the book moves outward to engage with contemporary social issues around inclusivity, society and the planet, demonstrating the many educational contexts in which Shakespeare is currently appropriated. Engaging with current questions of the value of literary study, the book testifies to the potentialities of an empowering Shakespearean pedagogy. Bringing together voices from a variety of institutions and from a wide range of educational perspectives, this volume will be essential reading for academics, researchers and post graduate students of Shakespeare literature, in education, pedagogy and literary theory.

The Aesthetic Turn in Management Stella Minahan, 2017-11-30 Organization students and scholars are able to trace the rise of aesthetics in management studies through the papers presented in this volume. The papers are arranged for individual review or thematic explorations of aesthetic thinking, including review papers and articles that focus on fashion, narrative, theatre, music and craft. This volume is a major contribution for those seeking alternatives to rational and positivist perspectives on management and who are willing to explore those alternatives beyond the usual disciplinary bases.
