**Shakespeare** Derek Traversi, 1963 A Stanford University Press classic **Shakespeare on Screen : The Roman Plays**, Is there a specificity to adapting a Roman play to the screen This volume interrogates the ways directors and actors have filmed and performed the Shakespearean works known as the Roman plays which are in chronological order of writing Titus Andronicus Julius Caesar Antony and Cleopatra and Coriolanus In the variety of plays and story lines common questions nevertheless arise Is there such a thing as filmic Romanness By exploring the different ways in which the Roman plays are re interpreted in the light of Roman history film history and the Shakespearean tradition the papers in this volume all take part in the ceaseless investigation of what the plays keep saying not only about our vision of the past but also about our perception of the present **Shakespeare's Roman Plays and Their Background** Sir Mungo William MacCallum, 1925

quotation beautifully encapsulates the simplicity of any theatre performance while it oversimplifies the complicated processes of bringing a play to life in the same breath. The empty space which Brook defines in his work is not realistic. It rather symbolizes his personal need to liberate his artistic talent from the fixed and institutionalized British theatre venues of the 1960s. In fact, for the majority of modern theatre performances, it is the theatre building which provides the space for all three basic parts. Although it is true that no more than an empty space is needed for staging a play during the last centuries, the majority of performances have been sheltered by purpose-built theatres. Most theatres provide a stage in the form of a proscenium stage, thrust stage, or stage in the round. How a spectator looks at the actors performing on this stage differs depending on the characteristics of each theatre venue. A space in the theatre, whether it be empty or filled, connects the two most important parts of any theatrical event: the audience and the actors. Space in the theatre is therefore crucial for every performance. The Elizabethan times mark the most influential period for modern theatre. Closely intertwined with the world's most famous playwright, William Shakespeare, it is in this time that the first modern theatres were erected. Therefore, Shakespeare's times and works are always closely connected with practices of today's theatre. The aim of this study is to research the relationship between the performance space of specific theatres and production of Shakespeare's Roman plays in Great Britain in 2006. It will be discovered to what extent performance space can influence production of Shakespeare's Roman plays. Likewise, it will be examined how different productions make use of performance space. The question of which performance space works best for staging Shakespeare's Roman plays in 2006 forms the basis of this case study.

**Roman Women in Shakespeare and His Contemporaries** Domenico Lovascio, 2020-04-06. *Roman Women in Shakespeare and His Contemporaries* explores the crucial role of Roman female characters in the plays of Shakespeare and his contemporaries. While much has been written on male characters in the Roman plays as well as on non-Roman women in early modern English drama, very little attention has been paid to the issues of what makes Roman women Roman and what their role in those plays is beyond their supposed function as supporting characters for the male protagonists. Through the exploration of a broad array of works produced by such diverse playwrights as Samuel Beckett, William Shakespeare, Matthew Gwynne, Ben Jonson, John Fletcher, Philip Massinger, Thomas May, and Nathaniel Richards under three such different monarchs as Elizabeth I, James I, and Charles I, *Roman Women in Shakespeare and His Contemporaries* contributes to a more precise assessment of the practices through which female identities were discussed in literature in the specific context of Roman drama and a more nuanced understanding of the ways in which accounts of Roman women were appropriated, manipulated, and recreated in early modern England.
