*Shakespeare and the Geography of Difference* John Gillies, 1994-05-12 In this engaging book John Gillies explores Shakespeare's geographic imagination and discovers an intimate relationship between Renaissance geography and theatre arising from their shared dependence on the opposing impulses of taboo laden closure and hubristic expansiveness Dr Gillies shows that Shakespeare's images of the exotic the barbarous outlandish or strange are grounded in concrete historical fact to be marginalised was not just a matter of social status but of belonging quite literally to the margins of contemporary maps Through an examination of the icons and emblems of contemporary cartography Dr Gillies challenges the map makers overt intentions and the attitudes and assumptions that remained below the level of consciousness His study of map and metaphor raises profound questions about the nature of a map and of the connections between the semiology of a map and that of the theatre

*Shakespeare's Representation of Weather, Climate and Environment* Sophie Chiari, 2018-10-30 The first comprehensive history of Byzantine warfare in the tenth century

**Shakespeare's Ruins and Myth of Rome** Maria Del Sapio Garbero, 2021-12-30 Rome was tantamount to its ruins a dismembered body to the eyes of those Italians and foreigners who visited the city in the years prior to or encompassing the lengthy span of the Renaissance Drawing on the double movement of archaeological exploration and creative reconstruction entailed in the humanist endeavour to resurrect the past ruins are seen as taking precedence over myth in Shakespeare's Rome They are assigned the role of a heuristic model and discovered in all their epistemic relevance in Shakespeare's dramatic vision of history and his negotiation of modernity This is the first book of its kind to address Shakespeare's relationship with Rome's authoritative myth archaeologically by taking as a point of departure a chronological reversal namely the vision of the eternal city as a ruinous scenario and hence the ways in which such a layered silent and aporetic scenario allows for an archaeo-anatomical approach to Shakespeare's Roman works

**A Companion to Shakespeare's Works, Volume III** Richard Dutton, Jean E. Howard, 2008-04-15 This four volume Companion to Shakespeare's Works compiled as a single entity offers a uniquely comprehensive snapshot of current Shakespeare criticism Brings together new essays from a mixture of younger and more established scholars from around the world Australia Canada France New Zealand the United Kingdom and the United States Examines each of Shakespeare's plays and major poems using all the resources of contemporary criticism from performance studies to feminist historicist and textual analysis Volumes are organized in relation to generic categories namely the histories the tragedies the romantic comedies and the late plays problem plays and poems Each volume contains individual essays on all texts in the relevant category as well as more general essays looking at critical issues and approaches more widely relevant to the genre Offers a provocative roadmap to Shakespeare studies at the dawning of the twenty first century This companion to Shakespeare's comedies contains original essays on every comedy from *The Two Gentlemen of Verona* to *Twelfth Night* as well as twelve additional articles on such topics as the humoral body in Shakespearean comedy Shakespeare's comedies on

film Shakespeare's relation to other comic writers of his time Shakespeare's cross dressing comedies and the geographies of Shakespearean comedy

*Intellectual and Imaginative Cartographies in Early Modern England* Patrick Murray, 2022-08-05 Taking as its focus an age of transformational development in cartographic history namely the two centuries between Columbus's arrival in the New World and the emergence of the Scientific Revolution this study examines how maps were employed as physical and symbolic objects by thinkers writers and artists It surveys how early modern people used the map as an object whether for enjoyment or political campaigning colonial invasion or teaching in the classroom Exploring a wide range of literature from

educational manifestoes to the plays of Marlowe and Shakespeare it suggests that the early modern map was as diverse and various as the rich culture from which it emerged and was imbued with a whole range of political social literary and personal impulses Intellectual and Imaginative Cartographies in Early Modern England 1550 1700 will appeal to all those interested in the History of Cartography     **Shakespeare's Webs** Arthur F. Kinney, 2012-12-06 In this book renowned Renaissance drama critic Arthur F Kinney argues that Shakespeare's method of composing plays through networks of meanings can be seen as a harbinger of today's information technology Drawing upon hypertext and cognitive theory areas that have for some time promised to take on more importance in the sphere of Shakespeare Studies as well as the central metaphor of the Routledge collection The Renaissance Computer Kinney looks in detail at four objects images in Shakespeare's plays mirrors maps clocks and books and explores the ways in which they make up networks of meaning within single plays and across the dramatist's body of work that anticipate in some ways the networks of meaning or information now possible in the computer age     **The Cambridge Companion to Shakespearean Tragedy** Claire McEachern, 2002 The Cambridge Companion to Shakespearean Tragedy acquaints the student reader with the forms contexts critical and theatrical lives of the ten plays considered to be Shakespeare's tragedies Shakespearean tragedy is a highly complex and demanding theatre genre but the thirteen essays written by leading scholars in Britain and North America are clear concise and informative They address the ways in which Shakespearean tragedy originated developed and diversified as well as how it has fared on stage as text and in criticism Topics covered include the literary precursors of Shakespearean tragedies medieval classical and contemporary cultural backgrounds political religious social and psychological and the subgenres of Shakespeare's tragedy love tragedy revenge tragedy and classical tragedy as well as the critical and theatrical receptions of the plays The book examines the four major tragedies and in addition Titus Andronicus Romeo and Juliet Julius Caesar Antony and Cleopatra Coriolanus and Timon of Athens     Identity, Otherness and Empire in Shakespeare's Rome Maria Del Sapio Garbero, 2016-12-14 Contributors to this collection delve into the relationship between Rome and Shakespeare They view the presence of Rome in Shakespeare's plays not simply as an unquestioned model of imperial culture or a routine chapter in the history of literary influence but rather as the problematic link with a distant and foreign ancestry which is both revered and ravaged in its translation into the terms of the Bard's own cultural moment During a time when England was engaged in constructing a rhetoric of imperial nationhood the contributors demonstrate that Englishmen used Roman history and the classical heritage to mediate a complex range of issues from notions of cultural identity and gender to the representation of systems of exchange with Otherness in the expanding ethnic space of the nation This volume addresses matters of concern not only for Shakespeare scholars but also for students interested in issues connected with gender postcolonialism and globalization Drawing implicitly or explicitly on recent criticism intertextual studies postcolonial theory Derrida's conceptualization of hospitality gender studies global studies the essayists explore how the Roman Shakespeare of an emerging early modern

empire asks questions of our present as well as of our past      *Shakespeare's Foreign Worlds* Carole Levin, John Watkins, 2012-06-15 In *Shakespeare's Foreign Worlds* Carole Levin and John Watkins focus on the relationship between the London based professional theater preeminently associated with William Shakespeare and an unprecedented European experience of geographic social and intellectual mobility Shakespeare's plays bear the marks of exile and exploration rural depopulation urban expansion and shifting mercantile and diplomatic configurations He fills his plays with characters testing the limits of personal identity foreigners usurpers outcasts outlaws scolds shrews witches mercenaries and cross dressers Through parallel discussions of *Henry VI* *The Taming of the Shrew* and *The Merchant of Venice* Levin and Watkins argue that Shakespeare's centrality to English national consciousness is inseparable from his creation of the foreign as a category asserting dangerous affinities between England's internal minorities and its competitors within an increasingly fraught European mercantile system As a women's historian Levin is particularly interested in Shakespeare's responses to marginalized sectors of English society As a scholar of English Italian Studies and Medieval Studies Watkins situates Shakespeare in the context of broadly European historical movements Together Levin and Watkins narrate the emergence of the foreign as portable category that might be applied both to strangers from other countries and to native born English men and women such as religious dissidents who resisted conformity to an increasingly narrow sense of English identity *Shakespeare's Foreign Worlds* will appeal to historians literary scholars theater specialists and anyone interested in Shakespeare and the Elizabethan Age      *The Oxford Handbook of Shakespearean Comedy* Heather Hirschfeld, 2018-09-06 *The Oxford Handbook of Shakespearean Comedy* offers critical and contemporary resources for studying Shakespeare's comic enterprises It engages with perennial yet still urgent questions raised by the comedies and looks at them from a range of new perspectives that represent the most recent methodological approaches to Shakespeare genre and early modern drama Several chapters take up firmly established topics of inquiry such as Shakespeare's source materials gender and sexuality hetero and homoerotic desire race and religion and they reformulate these topics in the materialist formalist phenomenological or revisionist terms of current scholarship and critical debate Others explore subjects that have only relatively recently become pressing concerns for sustained scholarly interrogation such as ecology cross species interaction and humor theory Some contributions informed by increasingly sophisticated approaches to the material conditions and embodied experience of theatrical practice speak to a resurgence of interest in performance from Shakespeare's period through the first decades of the twenty first century Others still investigate distinct sets of plays from unexpected and often polemical angles noting connections between the comedies under inventive unpredicted banners such as the theology of adultery early modern pedagogy global exploration or monarchical rule All the chapters offer contemporary perspectives on the plays even as they gesture to critical traditions and they illuminate as well as challenge some of our most cherished expectations about the ways in which Shakespearean comedy affects its audiences The Handbook situates these approaches

against the long history of criticism and provides a valuable overview of the most up to date work in the field

Supernatural Environments in Shakespeare's England Kristen Poole, 2011-06-30 Bringing together recent scholarship on religion and the spatial imagination Kristen Poole examines how changing religious beliefs and transforming conceptions of space were mutually informative in the decades around 1600 *Supernatural Environments in Shakespeare's England* explores a series of cultural spaces that focused attention on interactions between the human and the demonic or divine the deathbed purgatory demonic contracts and their spatial surround Reformation cosmologies and a landscape newly subject to cartographic surveying It examines the seemingly incongruous coexistence of traditional religious beliefs and new mathematical geometrical ways of perceiving the environment Arguing that the late sixteenth and early seventeenth century stage dramatized the phenomenological tension that resulted from this uneasy confluence this groundbreaking study considers the complex nature of supernatural environments in Marlowe's *Doctor Faustus* and Shakespeare's *Othello* *Hamlet* *Macbeth* and *The Tempest* *The Mirror of Confusion* Andrew M. Kirk, 2015-12-22 How did English dramatists portray the neighboring domain of France and its history in their plays The study examines a selection of Shakespearean and other history plays the French tragedies of George Chapman Christopher Marlowe's revealing historical tragedy *The Massacre at Paris* and several literary and nonliterary historical texts The result is a unique and timely contribution to our understanding of how cultural differences influenced the historical perspectives of English dramatists as well as how Renaissance plays shaped and were shaped by their historical material Drawing on the insights of cultural studies historiography and ethnography this study re-examines the historical representation of a neglected yet influential part of early modern Europe and the paradoxical relationship between English writers and their French subject matter Although information about France and French history was becoming increasingly available in England at the end of the sixteenth century for English writers France remained a distant land its history and people misunderstood and misrepresented Textual Formations and Reformations Laurie E. Maguire, Thomas L. Berger, 1998 This volume analyzes the development of textual theory and practice in the twentieth century questioning not just the assumptions and methodologies of textual study but the very genesis of textual study and current definitions of the field Each contributor tackles a specific theoretical or practical issue in essays that cover feminist practice editorial procedure political ideology practical dramaturgy and sixteenth and twentieth century history The result is a volume at once wide ranging and detailed of interest and value to cultural historians as well as to textual scholars The Return of Theory in Early Modern English Studies, Volume II P. Cefalu, G. Kuchar, B. Reynolds, 2014-10-14 This companion volume to *The Return of Theory in Early Modern English Studies* Tarrying with the Subjunctive exemplifies the new directions in which the field is going as well as the value of crossing disciplinary boundaries within and beyond the humanities Topics studied include posthumanism ecological studies and historical phenomenology
