*Shakespeare as Literary Dramatist* Lukas Erne, 2003-03-13 In this 2003 study Lukas Erne argues that Shakespeare apart from being a playwright who wrote theatrical texts for the stage was also a literary dramatist who produced reading texts for the page The usual distinction that has been set up between Ben Jonson on the one hand carefully preparing his manuscripts for publication and Shakespeare the man of the theatre writing for his actors and audience indifferent to his plays as literature is questioned in this book Examining the evidence from early published playbooks Erne argues that Shakespeare wrote many of his plays with a readership in mind and that these literary texts would have been abridged for the stage because they were too long for performance The variant early texts of *Romeo and Juliet* *Henry V* and *Hamlet* are shown to reveal important insights into the different media for which Shakespeare designed his plays

performances as they do Part III addresses the ways in which technology has revolutionized our access to Shakespeare both through the mediums of film and sound recording and through digitalization Part IV grapples with global Shakespeare considering matters of cultural appropriation in productions played for international audiences Together these groundbreaking essays attest to the richness and diversity of Shakespearean performance criticism as it is practiced today

*Musical Works and Performances* Stephen Davies, 2001-06-07 What are musical works Are they discovered or created Of what elements are they comprised How are they specified by notations What makes a performance of one piece and not another Is it possible to perform old music authentically Can ethnic music influenced by foreign sources and presented to tourists genuinely reflect the culture's musical and wider values Can recordings substitute faithfully for live performances These are the questions considered in *Musical Works and Performances* Part One outlines the nature of musical works their relation to performances and their notational specification Works for performance differ from ones that are merely for playback and pieces for live rendition are unlike those for studio performance Pieces vary in the number and kind of their constitutive properties The identity of musical works goes beyond their sonic profile and depends on their music historical context To be of a given work a performance must match its contents by following instructions traceable to its creation Some pieces are indicated via exemplars but many are specified notationally Scores must be interpreted in light of notational conventions and performance practices they assume Part Two considers authenticity in performance musical traditions and recordings A performance should follow the composer's instructions Departures from the ideal are tolerable but faithfulness is central to the enterprise of work performance not merely an interpretative option When musical cultures interact assimilation from within differs from destruction from without Even music subject to foreign influences can genuinely reflect the musical traditions and social values of a culture however Finally while most works are for live performance most performances are experienced via recordings which have their own distinctive characteristics This comprehensive and original analysis of musical ontology discusses many kinds of music and applies its conclusions to issues as diverse as the authentic performance movement the cultural integrity of ethnic music and the implications of the dominance of recorded over live music
