Long Term Care For The Elderly A Factbook:

Long-term Care for the Elderly David Rabin, Patricia Stockton, 1987 A comprehensive concise reference source on all topics relating to long term care for the elderly this book provides basic information on issues and legislation together with a compilation of significant national and regional data It covers functional disability health care expenditures and utilization home health care and community based services The final chapter which deals with the problems of population aging on an international level points out how the concerns of elderly persons are central to every industrialized country and how their growing numbers create a unique problem in the provision planning and allocation of resources *ACLI Life Insurance Fact*

Book, 1999 **Autonomy and Long-term Care** George J. Agich, 1993 The realities and misconceptions of long term care and the challenges it presents for the ethics of autonomy are analyzed in this perceptive work While defending the concept of autonomy the author argues that the standard view of autonomy as non interference and independence has only a limited applicability for long term care He explains that autonomy should be understood as a comprehensiveness that defines the overall course of a person s life rather than as a way of responding to an isolated situation Agich distinguishes actual and ideal autonomy and argues that actual autonomy is better revealed in the everyday experiences of long term care than in dramatic conflict ridden paradigm situations such as decisions to institutionalize to initiate aggressive treatments or to withhold or to withdraw life sustaining treatments Through a phenomenological analysis of long term care he develops an ethical framework for it by showing how autonomy is actually manifest in certain structural features of the social world of long term care Throughout this timely work the rich sociological and anthropological literature on aging and long term care is referenced and the practical ethical questions of promoting and enhancing the exercise of autonomy are addressed
