Long Slow Distance The Humane Way To Train:

Long Slow Distance Joe Henderson, 2012-04-18 A revolutionary is where you find him wrote running's leading writer Dr George Sheehan as he reflected on the revolution charged 1960s He could be the guy next door Joe Henderson looks like a typical guy next door Out of Iowa he has the smile and style of the heartland of America But he has fallen for that old Socratic saw that the unexamined life is not worth living The first result was revolt rebellion and a booklet called Long Slow Distance The Humane Way to Train The LSD method of running that Henderson espouses is not new He has simply systematized it and in effect founded a new order a new sect that has bid pain suffering and sacrifice good bye Joe Henderson is a revolutionary not because his writings have produced a wave of faster runners but because he has spawned happier ones This slim volume published in 1969 chronicles the revolution in approaches and attitudes that helped spark the running boom of 1970s Long Slow Distance tells the stories of Henderson and five fellow revolutionaries Amby Burfoot Bob Deines Tom Osler Ed Winrow and Jeff Kroot who all revolted against the speed training in vogue at the time Independently they arrived at similar conclusions about their long distance training slowing and going longer The Kindle edition includes a new introduction and updates on the six runners

Getting Loose Sam Binkley, 2007-04-27 Examines the changing character of American consumer culture in the 1960s 70s and late 20th century generally driven by changing forms of identity notably a loosening of the self by which Binkley means to evoke a wide range of identity pr

The American Marathon Pamela Cooper, 1998-04-01 Boston established a footrace but New York City created a marathon culture that annually draws tens of thousands of runners to each of the major American events The American Marathon is the first in depth study of the marathon as a cultural performance that has as much power to unite communities across lines of race ethnicity class and gender as it does to empower individuals This book encompasses more than a century from the fledgling days of the footrace in the 1890s to the popular contemporary marathons that have become corporate sponsored institutions Run in New York City in 1896 and continued in Boston for the next ten years the marathon quickly became the event of the working class athletes particularly Irish Americans Other urban ethnic groups Italians Jews and African Americans who were

unwelcome into the elite WASP athletic clubs formed their own running organizations. Once emblematic of the immigrant experience, the marathon evolved to express middle class nationalism as these immigrants were being assimilated. During the 1930s, the Great Depression restricted footracing and anti-Semitism left important coaches and runners without access to team support. The New York Pioneer Club, begun in 1936 as an African American team, brought the tremendous energy of post-World War II Harlem to the American marathon of the 1950s. Besides examining the ethnic influence on marathoning, Cooper also explores the impact of the Cold War on this sport when fitness and endurance became matters of national pride. She shows how the Road Runners Club of America first brought women and large numbers of participant runners into long distance footraces and finally how corporate sponsorship and direct payments to athletes profoundly changed the nature of this once amateur sport.

Body Problems Ben Agger, 2012-08-06 This book addresses the relationship between the body and society in a fast food society. Agger focuses on issues of food, exercise, work, dieting, and eating disorders, fashion, bariatric and cosmetic surgery, and health. He addresses the dilemma that we have ample access to abundant calories but lead lifestyles and have jobs that for the most part do not enable us to expend those calories. He proposes solutions both individual and structural that involve re-orienting ourselves to exercise as play. The book can be used in introductory sociology, social problems, work, sociology of sport, gender, health, and illness. The goal of this new unique Series is to offer readable, teachable thinking frames on today's social problems and social issues by leading scholars, all in short 60 page or shorter formats and available for view on <http://routledge.customgateway.com/routledge/social/issues.html>. For instructors teaching a wide range of courses in the social sciences, the Routledge Social Issues Collection now offers the best of both worlds: originally written short texts that provide overviews to important social issues as well as teachable excerpts from larger works previously published by Routledge and other presses.

Encyclopedia of World Sport David Levinson, Karen Christensen, 1999 Spanning the wide world of sports, this volume is packed with every conceivable fact that anyone would possibly want to know about nearly 300 sports, including history and practice worldwide.

Fit & Active Maureen K. LeBoeuf, Lawrence F. Butler, 2008 We all know the dilemma: Kids are tuning in to TVs and video games and tuning out physical activity. As a result, kids are more overweight than ever. More than half of the adult population in the United States are overweight, and almost a third are clinically obese. An obvious answer is to become and stay fit through regular physical activity. The authors of *Fit & Active: The West Point Physical Development Program* know this, and in response, they developed a program at West Point, the academy that's been educating U.S. military and political leaders for over 200 years. Now you can use the West Point fitness program to meet the needs of your students. *Fit & Active: The West Point Physical Development Program* is a practical, ready-to-use resource that will help you inspire the kids under your charge to be more physically active. It includes the following features: The system that has worked for the authors in their West Point program, along with detailed strategies for modifying their approach for various ages and environments; Activities and ideas that have been reviewed by high school physical education

teachers to ensure the suggestions are appropriate for high school students New ideas and information that will help you improve your program Assessment strategies to help you meet state and national physical education standards At West Point fitness is seen as a solid foundation for emotional and intellectual well being and as a way to help prepare students for a lifetime of health physical activity and success in the classroom and beyond With that in mind the authors focus on how to develop and assess your program in part I and in part II they provide core activity courses including basic movement swimming boxing self defense and obstacle courses that develop motor skills In part III they delve into wellness and personal fitness strategies workout designs assessments and related issues and in part IV they outline courses for lifetime activities such as tennis golf ice skating and rock climbing As a result you get a comprehensive resource that is easy to use well illustrated adapted for high school and appropriate for a variety of groups and one that will also help you meet state and national standards Along the way your students will learn leadership skills through sports and become motivated to make physical activity and fitness an integral part of their lives long after they leave school

Freeman, 2023-02-10 In Running former NCAA Division I track athlete Lindsey A Freeman presents the feminist and queer handbook of running that she always wanted but could never find For Freeman running is full of joy desire and indulgence in the pleasure and weirdness of having a body It allows for a space of freedom to move and be moved Through tender storytelling of a lifetime wearing running shoes Freeman considers injury and recovery what it means to run as a visibly queer person and how the release found in running comes from a desire to touch something that cannot be accessed when still Running invites us to run through life legging it out the best we can with heart and style
