The Future of Translation Technology Chan

Sin-wai,2016-10-26 Technology has revolutionized the field of translation bringing drastic changes to the way translation is studied and done To an average user technology is simply about clicking buttons and storing data What we need to do is to look beyond a system s interface to see what is at work and what should be done to make it work more efficiently This book is both macroscopic and microscopic in approach macroscopic as it adopts a holistic orientation when outlining the development of translation technology in the last forty years organizing concepts in a coherent and logical way with a theoretical framework and predicting what is to come in the years ahead microscopic as it examines in detail the five stages of technology oriented translation procedure and the strengths and weaknesses of the free and paid systems available to users The Future of Translation Technology studies among other issues The Development of Translation Technology Major Concepts in Computer aided Translation Functions in Computer aided Translation Systems A Theoretical Framework for Computer Aided Translation Studies The Future of Translation Technology This book is an essential read for scholars and researchers of translational studies and computational linguistics and a guide to system users and professionals Bilingual Thematic Dictionaries Martin Stark,2011-10-27 This book is concerned with bilingual thematic dictionaries BTDs The three chief aims of the research project are 1 to identify the characteristic features of the bilingual thematic dictionary 2 to gauge

its usefulness and 3 to make suggestions as to how it could be improved Various approaches are adopted in order to reveal the nature of the BTD The typological approach considers the lexicographic genres bilingual thematic and pedagogical which have been combined to create this hybrid reference work Particular attention is paid to the BTD s immediate forerunner and closest lexicographic relative the monolingual thematic learner s dictionary Detailed textual analyses of contemporary thematic dictionaries identify the characteristic features of the macrostructure microstructure and other components from a structural perspective In order to evaluate the usefulness of the BTD features identified the textual analyses are supplemented by three pieces of user research involving a questionnaire to elicit learners opinions a test on the effectiveness of the access structure and an experiment to discover how a learner uses a BTD Subject Guide to Books in Print ,1996
