The Concept of Rights George W. Rainbolt,2006-07-08 Discussions of rights are ubiquitous One constantly hears things such as The Chinese are violating Tibetan rights Landlords have a right that their tenants pay their rent Students have a right to be graded fairly Animals have a right not to suffer merely to bring pleasure to humans Abortion violates a fetus right

to life We violate the rights of future generations when we pollute the water These statements assert that Tibetans landlords students animals fetuses and future generations all have rights Tibetans landlords students animals fetuses and future generations do not seem to have much in common When one presses for clarity it is very difficult to say precisely what a right is What is it to have a right That is the question this book seeks to answer To paint with an overly broad brush previous answers to this question can be divided into two groups Some hold interest bene t theories of rights while others hold choice will theories of rights Perhaps the first person to propose an interest bene t theory was Jeremy Bentham Its most cited contemporary defender is Joseph Raz The seminal statement of the choice theory was made by H L A Hart Carl Wellman is perhaps the most able defender of a will theory of rights The debate between these two groups of theories has been a productive one *The Magazine of American History with Notes and Queries* ,1887 *Rush Revere and the Presidency* Rush Limbaugh,Kathryn Adams Limbaugh,2016-11-22 Join Rush Revere on another action packed journey Rush and his friends head back in time to the early days of our independent nation to watch the early American presidents George Washington John Adams and Thomas Jefferson in action Hey there young readers Rush Revere here I can t wait to rush rush rush to history with our next adventure a trip back in time to the first days of our country on its own two legs free from British rule What s that Liberty Liberty wants me to say on its own four legs Anyway as I was saying free from British rule and creating a new government for the people by the people When one of the time traveling crew from Manchester Middle School decides to run for student body president I take them back to meet our first three presidents and first ladies So join us as we head back to those amazing and important first years when we got to make all the decisions Turns out it s pretty hard to lead a whole new country We had to make new rules for America and set the path for the country we would grow up to be And who better to be our first ever leader than the general who won the war George Washington He was the father of our country and made some incredible decisions that still affect how we live our lives today But even so President Washington knew that he couldn t stay president forever or we might end up with a king just like England We ll watch as he makes his tough decision to step down to spend more time with Martha Washington and his adopted grandchildren Nelly and Wash Then we ll saddle up and ride into the presidency of John Adams who followed in some very big footsteps with the help of his accomplished wife Abigail Then we ll rush rush rush to the year 1803 when Thomas Jefferson continues the mission of creating America by making a risky decision to buy a lot of land from the French in the Louisiana Purchase which more than doubles our size Using advice from the early presidents first ladies and a former U S congressman the crew works to defeat an old nemesis The question is will it be enough What are you waiting for Bring your curiosity and let s giddyup
