Intercultural Families and Schooling in Japan: Experiences, Issues, and Challenges ,2020-09-01 The purpose of this book is to show how research on families can be used to offer inspiration suggestions and guidance to intercultural families choosing to school their children in the regular Japanese school system Each chapter is written by a parent or parents who are themselves researchers and thus bring their skills to the task of writing about issues which have affected their families and are likely to affect other families in similar ways There are also suggestions for other non Japanese parents coping with similar issues The book is divided into three sections The first Finding our own way deals with children s and parents struggles with identity and inclusion in Japanese schools and society The second Dealing with the Japanese school system offers narratives and advice on such topics as coping with homework and dealing with more than one school system as well as what government accredited Japanese overseas schools have to offer The third section Coping with challenges examines the experiences of families where children are different because they have physical or intellectual challenges or live with foster or adoptive families The book concludes with a narrative about a family who made the decision to remove their children from the Japanese system entirely and send them abroad for schooling The authors of the chapters in this book are all current or former university faculty living in different areas of Japan Some who live in highly populated urban areas have had ample opportunities to locate educational options for their children while others living in rural communities have had to struggle to advocate for their children s inclusion in mainstream classes Their stories are all compelling and their advice is certain to be helpful to those planning to or already raising children in Japan This book will also be of value to researchers and educators particularly those with an interest in bilingualism intercultural families and cross cultural issues along with anyone wishing to learn more about contemporary Japanese society *Intercultural Couples* Jill M.

Bystydzienski,2011-05-23 Despite the growing presence of intercultural couples in the United States and worldwide their stories often go untold In *Intercultural Couples* Jill Bystydzienski provides a rare and comprehensive understanding of the multidimensional experiences of intercultural couples drawing mainly upon in depth interviews with persons living in domestic partnerships heterosexual and same sex representing a broad spectrum of ethnic racial religious socioeconomic and

national backgrounds In these relationships each partner brings a different set of cultural experiences that may include gender expectations ideas about appropriate relations with family members childrearing financial matters and general lifestyle Sometimes differences may be unrecognized or seen as minimal yet some can become salient forming the basis for conflict enriching diversity or both Bystydzienski s findings show that despite hurtful incidents from persons outside the couple partnerships intercultural unions are a source of satisfaction for the partners and are able to bridge divisions and reduce inequalities between persons of diverse backgrounds providing a rich portrait of how these couples negotiate their identities as individuals and as couples in relation to the outside world **In Search of Appalachia** Nancy Brown

Diggs,2019-12-10 After writing extensively about different cultures Nancy Brown Diggs chose to focus on one closer to her own the Appalachian and was surprised to learn that it is her own and quite different from the image conveyed by the media Rich in anecdotes and interviews that bring her research to life this book offers a study of Appalachians today and explores what they are truly like and why concluding that is a culture to be celebrated not denigrated *Wedding as Text* Wendy

Leeds-Hurwitz,2002-12-18 A wedding serves as the beginning marker of a marriage if a couple is to manage cultural differences throughout their relationship they must first pass the hurdle of designing a wedding ceremony that accommodates those differences In this volume author Wendy Leeds Hurwitz documents the weddings of 112 couples from across the United States studied over a 10 year period She focuses on intercultural weddings interracial interethnic interfaith international and interclass looking at how real people are coping with cultural differences in their lives Through detailed case studies the book explores how couples display different identities simultaneously The concepts of community ritual identity and meaning are given extensive consideration Because material culture plays a particularly important role in weddings as in other examples of ritual food clothing and objects are given special attention here Focusing on how couples design a wedding ritual to simultaneously meet multiple and different requirements this book provides extensive details of actual behavior by couples an innovative format six traditional theoretical chapters with examples integrated into the discussion are matched to six interludes providing detailed descriptions of the most successful examples of resolving intercultural differences a methodological appendix detailing what was done and why these decisions were made and a theoretical appendix outlining the study s assumptions in detail *Wedding as Text* Communicating Cultural Identities Through Ritual is a distinctive study of those who have accepted cultural difference into their daily lives and how they have managed to do so successfully As such it is suitable for students and scholars in semiotics intercultural communication ritual material culture family communication and family studies and will be valuable reading for anyone facing the issue of cultural difference **Pakistan Journal of Women's Studies** ,2002 **Breaking the Cycle** Nancy Brown Diggs,2013-10-09

Breaking the Cycle tells the inspiring story of young people whom many would write off as a lost cause but who thanks to a remarkable school are headed for success We learn about their world from teens like Shawna the daughter of a crack

addicted mother Or Andre the only one in his family not on drugs Or Daron kicked out of his home by an abusive father
 Challenged by the pernicious factors of their environment drugs violence fatherless homes and poor educational backgrounds
 students at the Dayton Early College Academy are nevertheless beating the odds All are headed for college from which the
 vast majority will graduate The book reveals how this school is succeeding when so many fail It conveys the hopeful message
 that others can replicate much of what DECA does and save a generation mired in despair America s failure to educate its
 urban children is evidenced by our woeful statistics If it is possible to turn around this bleak picture and it is this is a story
 well worth telling And this is what Breaking the Cycle aims to do For more information on the book including interviews with
