Looking Through The Window:

Looking Through Windows Kristin Carter Rowe, 2012-02-29 Looking Through Windows is the fictional story of three neighbors who for very different reasons are lonely and lost but ultimately rediscover themselves when their lives become mysteriously entangled in a web of deceit suspicion and paranormal events Charlotte Webb is a fatigued and spiritless woman loving of her young son but disconnected from her workaholic husband Though discontent Charlotte finds solace in the mysteries of her neighbors the view from her windows serving as the buoy without which she would drown from depression Her preoccupation with spying enmeshes her into the dangerous world of her recently widowed neighbor Isabella a beautiful woman suspected of killing her husband a respected oncologist Charlotte also becomes obsessed with the curious life of her other neighbor Michael a dour man with a fascinating wife who tends to show up at the oddest times and in the most curious of ways Though it is a mystery Looking Through Windows is primarily a story of the windows we all look through windows of opportunity regret and even salvation

Looking Through Images Emmanuel Alloa, 2021-10-05 Images have always stirred ambivalent reactions Yet whether eliciting fascinated gazes or iconoclastic repulsion from their beholders they have hardly ever been seen as true sources of knowledge They were long viewed as mere appearances placeholders for the things themselves or deceptive illusions Today the traditional critique of the spectacle has given way to an unconditional embrace of the visual However we still lack a persuasive theoretical account of how images work Emmanuel Alloa retraces the history of Western attitudes toward the visual to propose a major rethinking of images as irreplaceable agents of our everyday engagement with the world He examines how ideas of images and their powers have been constructed in Western humanities art theory and philosophy developing a novel genealogy of both visual studies and the concept of the medium Alloa reconstructs the earliest Western media theory Aristotle's concept of the diaphanous milieu of vision and the significance of its subsequent erasure in the history of science Ultimately he argues for a historically informed phenomenology of images and visual media that explains why images are not simply referential depictions windows onto the world Instead images constantly reactivate the power of appearing As media of visualization they allow things to appear that could not be visible except in and through these very material devices

The Imperfect and Unfinished Math Teacher [Grades K-12] Chase Orton, 2022-02-24 The system won t do it for us But we have each other In The Imperfect and Unfinished Math Teacher A Journey to Reclaim Our Professional Growth master storyteller Chase Orton offers a vulnerable and courageous grassroots guide that leads K 12 math teachers through a journey to cultivate a more equitable inclusive and cohesive culture of professionalism for themselves what he calls professional flourishing The book builds from two bold premises First that as educators we are all naturally imperfect and unfinished and growth should be our constant goal Second that the last 40 years of top down PD efforts in mathematics have rarely supplied teachers with what they need to equitably grow their practice and foster classrooms that are likewise empowered inclusive and cohesive With gentle humanity this book inspires teachers to break down silos observe each others classrooms interrogate their own biases and put students at the center of everything they do in the math classroom This book Weaves raw and authentic stories both personal and those from other educators into a relatable and validating narrative Offers interactive opportunities to self reflect build relationships seek new vantage on our teaching by observing others classrooms and students and share and listen to other s stories and experiences Asks teachers to give and accept grace as they work collaboratively to better themselves and the system from within so that they can truly serve each of their students authentically and equitably Implementing the beliefs and actions in this book will position teachers to become more active

partners in each other's professional growth so that they can navigate the obstacles in their professional landscape with renewed focus and a greater sense of individual and collective efficacy. It equips teachers and by extension their students to chart their own course and author their own equitable and joyful mathematical and professional stories. *New York Supreme Court Appellate Division-Second Department*, *State of New York Supreme Court Appellate Division Fourth Department*, *New York Court of Appeals.
