be chosen independently of biology The author asserts that while social constructs play a role biological differences are also crucial in shaping who we are The text also traces the historical impact of gender roles highlighting how traditional paradigms have perpetuated inequality and how advancements like birth control have facilitated the emancipation of women Ultimately the book advocates for a nuanced understanding of gender identity emphasizing the need to critically examine societal norms and promote greater equality and autonomy It calls for philosophical inquiry to challenge ingrained assumptions offering profound insights for both men and women though it suggests men in particular may gain from its exploration of femininity This nearly 600 page volume offers a comprehensive analysis that is difficult to condense but it promises to touch deep layers of our understanding of gender and identity Woman gives us life nurtures us shares intimacy and embraces us in death embodying the cycle of existence which is inherently feminine Man emerging from this feminine essence realizes he is both her son and brother sharing the human experience At this point why not speak of universal incest We didn't seek another half but discovered an inseparable entity in the incomprehensible whole Thus we were brothers in myth before incest became sacrilegious

REVIEWS and WORDS OF PRAISE I didn't know what to expect from a book about women written by a man You expect maybe the usual clichés AND REALLY NO THIS TIME A MAN DID IT From Stefania's review editorial staff of www.leggereacolori.com This work did not disappoint me It definitely held up to expectations exceeding them Review by Martina Tafuri We can safely say that his work was judged to be a very informative and engaging read very well written and sure to intrigue a wide audience Austin Macauley Publishers London and New York

Labor and Laborers of the Loom Gail Fowler Mohanty, 2012-11-12 Labor and Laborers of the Loom Mechanization and Handloom Weavers 1780-1840 develops several themes important to understanding the social cultural and economic implications of industrialization The examination of these issues within a population of extra factory workers distinguishes this study The volume centers on the rapid growth of handloom weaving in response to the introduction of water powered spinning This change is viewed from the perspectives of mechanics technological limitations characteristics of weaving skills income and cost In the works of Duncan Bythell and Norman Murray the displacement of British and Scottish hand weavers loomed large and the silence of American handloom weavers in similar circumstances was deafening This study reflects the differences between the three cultures by centering not on displacement but on survival Persistence is closely tied to the gradual nature of technological change The contrasts between independent commercial artisans and outwork weavers are striking Displacement occurs but only among artisans devoting their time to independent workshop weaving Alternatively outwork weavers adapted to changing markets and survived The design and development of spinning and weaving devices is stressed as are the roles of economic conditions management organization size of firms political implications and social factors contribute to the impact of technological change on outwork and craft weavers *Factories and Workshops* Great Britain.
