Reflections of the Christ Mind Paul Ferrini, 2000-07-25 For Paul Ferrini there was a time when the very thought of Jesus left him cold Instead of embodying the truth of Jesus teaching Christianity seemed to harbor the fearful thoughts and actions of people who were more committed to self interest than to unconditional love So when Ferrini felt Jesus voice inside him saying I want you to acknowledge me he resisted In time however he came to realize that it was not Jesus he was rejecting but the untruths that had become attached to Christian teaching Responding to the inner voice did not mean merely acknowledging Jesus as some great teacher who lived in the past but also meant that he was opening himself up to a living presence within his own awareness Once Ferrini reached this reconciliation powerful words of spiritual truth began to flow through him Reflections of the Christ Mind presents the most important teachings the author has received through his spiritual awakening Here at last is a gospel devoted solely to Jesus teachings of love healing and forgiveness The teacher readers meet in these pages is both compassionate and open minded he is the Jesus Christians know in their hearts Repudiating religious hypocrisy intolerance and spiritual pride Ferrini rejects the dogmatic position of the Church offering instead words of hope and healing that form the new gospel for today

John Stegmaier,2012-05-09 If we experience life in the present without guilt fear and especially without judgment of others and ourselves I believe that we will reach a critical mass of positive energy that will sweep the majority of this planet up in its light This is already happening Think about it If ignorant fear based destruction of life were

more powerful than spirit based existence then our world would have destroyed itself several times over **Becoming Sacred Space** Michelle Anne Hobart,2016-05-14 In this groundbreaking book Michelle draws from such diverse fields as biology mythology energy medicine and the spiritual traditions While bravely sharing her own process she weaves a tapestry both poetic and practical **Becoming Sacred Space** is a primer to help us realign to our inner truth reconnect to our deep resources and bring forth the sustainable and vibrant Selves that our beloved planet needs us to be in this time of transformation By attuning to the archetypes and integrating their wisdom we as a species can come back into balance with the greater ecological system Some of the shifts in understanding of these timeless stories have altered the way the energy manifests By reconnecting directly to these sources we can update the Message in its living form within us and our actions in the world will reflect this new yet never forgotten truth of our being *Taking Back Our Schools* Paul Ferrini,1999 This book is written for parents who are concerned about the education of their children It presents a simple idea that could transform the school system in this country and around the world **Grace Unfolding** Paul Ferrini,1998-02 This book is not about surrender to an outside authority but to an inside one It is about the relinquishment of our ego consciousness our separated states of heart and mind to a greater consciousness to the essence of love which is the source of who we are

Return to the Garden Paul Ferrini,1998 In the Garden all our needs were provided for We knew no struggle of hardship We were God s beloved But happiness was not enough for us We wanted the freedom to live our own lives To evolve we had to learn to become love givers not just love receivers We all know what happened then We were cast out of the Garden and for the first time in our lives we felt shame jealousy anger lack We experienced highs and lows joy and sorrow Our lives became difficulty We had to work hard to survive We had to make mistakes and learn from them Initially we tried to blame others for our mistakes But that did not make our lives any easier It just deepened our pain and misery We had to learn to face our fears instead of projecting them onto each other Returning to the Garden we are different than we were when we left hellbent on expressing our creativity at any cost We return humble and sensitive to the needs of all We return not just as created but as co creator not just as son of man but also as son of God **Life's Journey** Marlenne Schilperoord,2019-12-03 Often we hear people say that all religions should be forbidden because they only bring misery These reactions are understandable when we see or hear the daily news But where does all this misery come from Is it because former religious leaders pursued self interest too much instead of the Christian faith from the source Or is it our indifferent attitude that offers negative forces a free path To find the answer we must go back to our source of life to the reason for our earthly existence It teaches us that what we call religion is the development of a spiritual consciousness to elevate the human soul the very self And that the words of our Creator do not stop on the last page of the bible He has sent us His New Revelations to encourage us and to find our way home again to the House of our Eternal Loving Father Whoever reads the book may realize how important it is to ask yourself life questions How you can give substance to your earthly existence That this book

Spiritual Crisis Fransje de Waard, 2013-07-22 The American comedienne Lily Tomlin once observed with surprise that we call it praying when we talk to God and schizophrenia when God talks back to us In this book people speak about inner experiences in which they perceived themselves and the world so differently that they thought they were going mad Experiences of existential voids heights and depths freezing wastes and silences of pure energy love and fear oneness and chaos They found no explanation in science or religion traditional standards of normality and morality brought them no further than madness and heresy From sheer necessity they learned to steer by a sort of inner compass and began to tap unconventional resources This gave their experience on balance the depth and dynamism of a spiritual transformation which they would not have wanted to miss Since 1994 such spiritual crises have acquired an official place in psychiatric diagnostics namely as non pathological episodes Knowledge and insight fall substantially short however both in professional circles and among the public at large In this book the author shows how transpersonal psychology interprets such crises as the growing pains of human consciousness This wider perspective transcends the traditional individual frameworks of the life sciences parallel to the earlier shift of classical mechanics to quantum physics At a time that resounds with demands for meaningfulness and which seems engrossed in a holistic model of reality this book sets about giving a place within this perspective to the phenomenon of the spiritual crisis
