Love Volume 10:

Godly Tendencies Alan Hines, 2021-05-14 God's love, grace, mercy, power conveyed within the formulated form of poetic words Kierkegaard's Journals and Notebooks Volume 10 Søren Kierkegaard, 2018-08-14 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics especially literary theory. Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts, new insights and fragments large and small of partially or almost entirely completed but unpublished works. Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself. Kierkegaard wrote his journals in a two column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced. Volume 10 of this series includes the final six of Kierkegaard's important NB journals, Journals NB31 through NB36 which cover the last months of 1854, a period when Kierkegaard made the final preparations for and the initial launch of his furious assault on the established church. But in addition to this incendiary material, these journals also contain a great trove of his reflections on theology, philosophy and the perils and opportunities of modernity.

Your Angels Guard My Steps (Rekindling the Inner Fire Book #10) Bernard of Clairvaux, 1998-09-01 Writings that touch the pure flaming heart of God from the men and women who walked with Him through the ages, guiding into a deeper friendship with the Father of Lights. Today when there is so much interest in the invisible world of angels and demons, how can we know whether the speculation about angelic interventions, swordplay in the heavenlies and signs in the sky is true? What role do angels actually play in our lives? Bernard of Clairvaux 1090-1153 stands among the rare handful of men and women gifted with true insight into the unseen supernatural world. Known throughout the medieval church as a spiritual doctor, he was given both a spectacular vision of angels and the wisdom to understand their purposes among men. May his words fix in your soul a vision of the beauty of God himself and may you sense the help of angels as they guide you to the real presence of the One true Lover of your soul.

Zondervan,2005-01-01 Zondervan begins by presenting an outline of Rieff's entire body of work focussing on his theory of culture and explaining how the sacred is a key notion pivotal to the overall understanding of Rieff's work The author argues that the present upsurge in religion in many varieties throughout the world cannot be explained by the classical secularization thesis making Rieff's theory of sacred order in culture an essential contribution to a new social theory of religion
