1668 Peter Sahlins,2017-11-09 When animals and their symbolic representations in the Royal Menagerie in art in medicine in philosophy helped transform the French state and culture Peter Sahlins s brilliant new book reveals the remarkable and understudied animal moment in and around 1668 in which authors including La Fontaine whose *Fables* appeared in that year anatomists painters sculptors and especially the young Louis XIV turned their attention to nonhuman beings At the center of the Year of the Animal was the Royal Menagerie in the gardens of Versailles dominated by exotic and graceful birds In the unfolding of his original and sophisticated argument Sahlins shows how the animal bodies of the menagerie and others were critical to a dramatic rethinking of governance nature and the human The animals of 1668 helped to shift an entire worldview in France what Sahlins calls Renaissance humanimalism toward more modern expressions of classical naturalism and mechanism In the wake of 1668 came the debasement of animals and the strengthening of human animality including in Descartes s animal machine highly contested during the Year of the Animal At the same time Louis XIV and his intellectual servants used the animals of Versailles to develop and then to transform the symbolic language of French absolutism Louis XIV came to adopt a model of sovereignty after 1668 in which his absolute authority is represented in manifold ways with the bodies of animals and justified by the bestial nature of his human subjects 1668 explores and reproduces the king s animal collections in printed text weaving poetry and engraving all seen from a unique interdisciplinary perspective Sahlins brings the animals of 1668 together and to life as he observes them critically in their native habitats within the animal palace itself by Louis Le Vau the paintings and tapestries of Charles Le Brun the garden installations of Andr Le N tre the literary work of Charles Perrault and the natural history of his brother Claude the poetry of Madeleine de Scud ry the philosophy of Ren Descartes the engravings of S bastien Leclerc the transfusion experiments of Jean Denis and others The author joins the nonhuman and human agents of 1668 panthers and painters swans and scientists weasels and weavers in a learned and sophisticated treatment that will engage scholars and students of early modern France and Europe and readers broadly interested in the subject of animals in human history

Built upon Love Alberto Perez-Gomez,2008-02-15 A vision of architecture that transcends concerns of form and function and finds the connections between the architect s wish to design a beautiful world and architecture s imperative to provide a better place for society The forced polarity between form and function in considerations of architecture opposing art to social interests ethics to

poetic expression obscures the deep connections between ethical and poetical values in architectural tradition Architecture has been and must continue to be writes Alberto P rez G mez built upon love Modernity has rightly rejected past architectural excesses but P rez G mez argues the materialistic and technological alternatives it proposes do not answer satisfactorily the complex desire that defines humanity True architecture is concerned with far more than fashionable form affordable homes and sustainable development it responds to a desire for an eloquent place to dwell one that lovingly provides a sense of order resonant with our dreams In Built upon Love P rez G mez uncovers the relationship between love and architecture in order to find the points of contact between poetics and ethics between the architect s wish to design a beautiful world and architecture s imperative to provide a better place for society Eros as first imagined by the early lyric poets of classical Greece is the invisible force at the root of our capacity to create and comprehend the poetic image P rez G mez examines the nature of architectural form in the light of eros seduction and the tradition of the poetic image in Western architecture He charts the ethical dimension of architecture tracing the connections between philia the love of friends that entails mutual responsibility among equals and architectural program He explores the position of architecture at the limits of language and discusses the analogical language of philia in modernist architectural theory Finally he uncovers connections between ethics and poetics describing a contemporary practice of architecture under the sign of love incorporating both eros and philia
