Devotional Music in the Iberian World, 1450-1800 Tess Knighton, 2017-07-05 From the fifteenth century to the beginning of the nineteenth century devotional music played a fundamental role in the Iberian world Songs in the vernacular usually referred to by the generic name of villancico but including forms as varied as madrigals ensaladas tonos cantatas or even oratorios were regularly performed at many religious feasts in major churches royal and private chapels convents and in monasteries These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and as they were often composed anew for each celebration the surviving sources vastly outnumber those

of Latin compositions they can be counted in tens of thousands The close relationship with secular genres both musical literary and performative turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia In many cases the villancico repertory represents the oldest surviving source of music produced in these regions thus affording it a primary role in the construction of national identities The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period providing the first broad based survey of this important genre

Melancholics in Love Frances L. Restuccia, 2000 Drawing from a wide spectrum of literary and autobiographical texts from the past and present such as Jane Austen's *Emma* and Tina Turner's *I Tina* Frances L. Restuccia moves from a psychoanalytic explanation of the formation of women melancholics to the cultural co construction of battered women

Searchlights on Health B. G. Jefferis, 2016-01-07 Knowledge is Safety 1 The old maxim that Knowledge is power is a true one but there is still a greater truth Knowledge is Safety Safety amid physical ills that beset mankind and safety amid the moral pitfalls that surround so many young people is the great crying demand of the age 2 Criticism While the aim of this work though novel and to some extent is daring it is chaste practical and to the point and will be a boon and a blessing to thousands who consult its pages The world is full of ignorance and the ignorant will always criticise because they live to suffer ills for they know no better New light is fast falling upon the dark corners and the eyes of many are being opened 3 Researches of Science The researches of science in the past few years have thrown light on many facts relating to the physiology of man and woman and the diseases to which they are subject and consequently many reformatations have taken place in the treatment and prevention of diseases peculiar to the sexes 4 Lock and Key Any information bearing upon the diseases of mankind should not be kept under lock and key The physician is frequently called upon to speak in plain language to his patients upon some private and startling disease contracted on account of ignorance The better plan however is to so educate and enlighten old and young upon the important subjects of health so that the necessity to call a physician may occur less frequently 5 Progression A large respectable though diminishing class in every community maintain that nothing that relates exclusively to either sex should become the subject of popular medical instruction But such an opinion is radically wrong ignorance is no more the mother of purity than it is of religion Enlightenment can never work injustice to him who investigates 6 An Example The men and women who study and practice medicine are not the worse but the better for such knowledge so it would be to the community in general if all would be properly instructed on the laws of health which relate to the sexes

Human Embrace Ronald L. Hall, 2010-11-01 Starting from S ren Kierkegaard s insight that fully accepting the human condition requires one to live with the persistent temptation to escape from it Ronald Hall finds similar concerns reflected in the work of two modern day philosophers Stanley Cavell and Martha Nussbaum who equally find in a philosophy of love and marriage the key to understanding how humans may achieve happiness in the acceptance of their humanity All three thinkers follow a logic of paradox in showing how success in the human quest to be human depends crucially on the struggle humans experience with the ever present opportunities to pursue alternative paths What Kierkegaard called living existentially can be achieved only after confronting and refusing the possibilities of living in aesthetic ethical or even religious denial of one s true humanity By creating this dialogue between the nineteenth century Danish thinker and two eminent twentieth century philosophers Hall reveals the continuing relevance of Kierkegaard s thought to our own age and its cogency as an interpretation of the human predicament
