Through research and hundreds of patient trials, renowned health expert and naturopathic doctor Natasha Turner ND has discovered that the vast majority of us have different degrees of sensitivity to carbohydrates without realizing it. Her ground-breaking program helps you uncover the right types of carbs for you, allowing you to curb cravings, control appetite, and beat belly fat in just six weeks. Your body's response to different carbohydrates such as bread, grains, vegetables, fruit, and beans determines the size of your waistline. This explains why some people fail to lose weight, get stuck on a plateau, or even gain despite following a perfectly balanced diet. Knowing your sensitivity to foods like chickpeas or butternut squash could be the key to dropping pounds and keeping them off. The Carb Sensitivity Program CSP gives you a personalized plan that sheds body fat, increases energy, and optimizes health. More than just a diet, the CSP is a carb rehab plan that actually repairs your metabolism and helps you reintroduce carbs without rebound weight gain, cravings, bloating, or mood swings.
