*The Cambridge Social History of Britain, 1750-1950* F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined

contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

*Victorian London's Middle-Class Housewife* Yaffa C. Draznin, 2000-11-30 Through a detailed description of the life and activities of the middle class married woman of London between 1875 and 1900 this study reveals how housewives unwittingly became engines for change as the new century neared In marked contrast to the stereotypical depictions of Victorian women in literature and on television Draznin reveals a woman seldom seen the stay at home housewife whose activities were not much different than those of her counterparts today By exploring her daily activities how she cleaned her home disciplined her children managed her servants stretched a limited budget and began to indulge herself one discovers the human dimension of women who lived more than a century ago While most studies of this period consider values aspirations and attitudes this book concentrates on actions what these women did all day to provide readers with a new perspective on Victorian life Late Victorian London was a surprisingly modern city with a public face of well lit streets an excellent underground railway system and extended municipal services In the home gas stoves were replacing coal ranges and household appliances were becoming more common Having both money to spend and a strong incentive to buy the new laborsaving devices ready to wear clothing and other manufactured products the middle class matron s resistance to change gave way to a rising consumer culture Despite her nearly exclusive preoccupation with home and family these urban women became agents for the modernization of Britain

**The Rise and Fall of Class in Britain** David Cannadine, 1999 Although politicians in Britain are now calling for a classless society can one conclude as do many scholars that class does not matter anymore Cannadine uncovers the meanings of class for such disparate figures as Adam Smith Karl Marx and Margaret Thatcher and identifies the moments when opinion shifted such as the aftermath of the French Revolution and the rise of the Labour Party in the early twentieth century

A Social History of England 1851-1990 Francois Bedarida, 2013-06-17 In this the second edition of A Social History of England Francois B darida has added a new final chapter on the last fifteen years The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market Making full use of the Annales school of French historiography B darida takes his inquiry beyond conventional views to penetrate the attitudes behaviour and psychology of the British people

Bernard Shaw Ezra Pound D H Lawrence E M Forster Virginia Woolf H G Wells Aldous Huxley W B Yeats and other canonized writers he relates this to the cult of the Nietzschean Superman which found its ultimate exponent in Hitler Carey's assault on the founders of modern culture caused consternation throughout the artistic and academic establishments when it was first published in 1992

**Popular Politics in Nineteenth Century England** Rohan McWilliam, 2012-11-12 Popular Politics in Nineteenth Century England provides an accessible introduction to the culture of English popular politics between 1815 and 1900 the period from Luddism to the New Liberalism This is an area that has attracted great historical interest and has undergone fundamental revision in the last two decades Did the industrial revolution create the working class movement or was liberalism which transcended class divisions the key mode of political argument Rohan McWilliam brings this central debate up to date for students of Nineteenth Century British History He assesses popular ideology in relation to the state the nation

gender and the nature of party formation and reveals a much richer social history emerging in the light of recent historiographical developments      **White-Collar Crime in Late Nineteenth and Early Twentieth-Century Britain** John Benson,2019-12-06 This book throws new light on white collar crime criminals and criminality in late nineteenth and early twentieth century Britain It does so by considering the life of one man Jesse Varley 1869 1929 who embezzled more than 80 000 from Wolverhampton Corporation and for a decade and more enjoyed an ostentatiously extravagant lifestyle He was discovered and despite serving a period of penal servitude he turned again to white collar crime this time in Sheffield Sentenced again to penal servitude he died a few years later in Liverpool in what were said to be very poor circumstances

**The Rise of Respectable Society** Francis Michael Longstreth Thompson,1988 The Rise of Respectable Society offers a new map of this territory as revealed by close empirical studies of marriage the family domestic life work leisure and entertainment in 19th century Britain      *Capitalism, Class Conflict and the New Middle Class (RLE Social Theory)* Bob Carter,2014-08-21 Non manual workers are fast becoming the largest occupational category in Western capitalist countries This is the first book to present a detailed socialist analysis of this much discussed change in the class structure of contemporary capitalism Focusing on the class position of managerial and supervisory workers Robert Carter takes as his starting point the inadequacy of both orthodox Marxist and Weberian models of class relations Rather he concurs with recent structuralist theorists of class who maintain that there exists between capital and labour in the process of producing a new middle class He parts company from the work of these theorists however in his insistence that the organisation and consciousness of the new middle class have also to be examined because of the practical consequences these have on class relations The book therefore examines the historical rise of the middle class both in the private and the state sector together with the tendency of the class to respond to its changing relations with capital and labour by unionising It is sharply critical of the dominant models of the causes and nature of white collar unionism both industrial relations and Weberian ones and indeed rejects these models in favour of a perspective which views the extent and nature of middle class unionism within the dynamics of class relations      Building European Society Andrew Miles,David Vincent,1993
