Lucian Lucian (of Samosata.),1915 **Deleuze and Guattari's Philosophy of Freedom** Dorothea Olkowski,Eftichis Pirovolakis,2019-01-31 This volume addresses the issue of freedom in the philosophy of Deleuze and Guattari This is all the more challenging in that Deleuze Guattari almost never use the term freedom preferring instead the concept of the refrain The essays collected in the volume show that freedom has been understood in a remarkably narrow sense and that in fact freedom operates as the refrain in every realm of thought and creation The motivating approach in these essays is Deleuze Guattari s emphasis on the irreality of media and capitalistic sign regimes which they perceive to have taken over even the practices of philosophy the arts and science By offering a clear and engaging treatment of the underexplored issue of

freedom this volume moves the discussion of Deleuze Guattari's philosophy forward in ways that will appeal to researchers in Continental philosophy and a wide range of other disciplines

Jacob Brucker, Critical History of Philosophy:

'Preliminary Discourse' and 'On The Socratic School', 2024-10-19 It is well known that philosophy has a history that spans over more than two thousand years. It is less known however that the discipline narrating philosophy's past emerged much later namely in the 18th century. That new discipline was called history of philosophy. The German historian and theologian Johann Jacob Brucker 1696-1770 had a decisive influence upon the formation of this new discipline through his Latin work *Historia critica philosophiae* Critical history of philosophy which was first published in 1742-1744 and which came out in a second edition in 1766-1767. To Brucker it was paramount to define history of philosophy as a philosophical discipline and not merely as a historical discipline. In order to achieve this it was vital to define the new discipline's object and explain which material should be included or excluded and it was crucial to define an interpretative and philosophical method to be deployed on the material selected. Brucker's *Historia* provided these definitions in the opening chapter in the present volume translated as the Preliminary Discourse where he also outlined a global scheme of periodization and geographical regions. Moreover he put his own precepts to practice in the remaining part of the work which accounted for what he regarded as a global history of philosophy from the beginning of the world up till his own times. The second chapter translated in the present book *The Socratic School* illustrates the hermeneutical consequences of the method laid down in the Preliminary Discourse but it also offers a unique insight into the 18th century understanding and evaluation of Socrates. In quantitative terms Brucker's *Historia* was the most extensive account of philosophy's past produced in the 18th century. It was cited and paraphrased in the most authoritative encyclopaedias and histories of philosophy produced in Europe in the 18th and 19th centuries and its key concepts were often transferred to histories of philosophy produced outside Europe. For this reason Brucker's *Historia* has exerted an enormous influence upon historical consciousness among Europeans but also among peoples living outside Europe. The present book provides first time English translations of parts of Brucker's work.

Socrates, or on Human Knowledge Simone Luzzatto, 2019-08-19 *Socrates Or On Human Knowledge* published in Venice in 1651 is the only work written by a Jew that contains so far the promise of a genuinely sceptical investigation into the validity of human certainties. Simone Luzzatto masterly developed this book as a piece of theatre where Socrates as main actor has the task to demonstrate the limits and weaknesses of the human capacity to acquire knowledge without being guided by revelation. He achieved this goal by offering an overview of the various and contradictory gnosiological opinions disseminated since ancient times. The divergence of views to which he addressed the most attention prevented him from giving a fixed definition of the nature of the cognitive process. This obliged him to come to the audacious conclusion of neither affirming nor denying anything concerning human knowledge and finally of suspending his judgement altogether. This work unfortunately had little success in Luzzatto's lifetime and was subsequently almost forgotten. The absence of substantial

evidence from his contemporaries and that of his epistolary have thus increased the difficulty of tracing not only its legacy in the history of philosophical thought but also of understanding the circumstances surrounding the writing of his *Socrates*. The present edition will be a preliminary study aiming to shed some light on the philosophical and historical value of this work's translation; indeed it will provide a broader readership with the opportunity to access this immensely complicated work and also to grasp some aspects of the composite intellectual framework and admirable modernity of Venetian Jewish culture in the ghetto.

Lucian (of Samosata), 1959 LUCIAN c. 120-190 A.D. the satirist from Samosata on the Euphrates started as an apprentice sculptor, turned to rhetoric and visited Italy and Gaul as a successful travelling lecturer before settling in Athens and developing his original brand of satire. Late in life he fell on hard times and accepted an official post in Egypt. Although notable for the Attic purity and elegance of his Greek and his literary versatility, Lucian is chiefly famed for the dialogues in which he satirises human folly, superstition and hypocrisy. His aim was to amuse rather than to instruct. Among his best works are *A True Story*, the tallest of tall stories about a voyage to the moon; *Dialogues of the Gods*, a *reductio ad absurdum* of traditional mythology; *Dialogues of the Dead* on the vanity of human wishes; *Philosophies for Sale*, great philosophers of the past are auctioned off as slaves; *The Fisherman*, the degeneracy of modern philosophers; *The Carousal*, philosophers misbehave at a party; *Timon*, the problems of being rich; *Twice accused*, Lucian's defence of his literary career and if by Lucian *The ass*, the amusing adventures of a man who turned into an ass.

Caligula's Barges and the Renaissance Origins of Nautical Archaeology Under Water John M. McManamon, 2016-12-09

Sometime around 1446 A.D. Cardinal Prospero Colonna commissioned engineer Battista Alberti to raise two immense Roman vessels from the bottom of the lago di Nemi just south of Rome. By that time local fishermen had been fouling their nets and occasionally recovering stray objects from the sunken ships for 800 years. Having no idea of the size of the objects he was attempting to recover, Alberti failed. For most of the next 500 years various attempts were made to recover the vessels. Finally in 1928 Mussolini ordered the draining of the lake to remove the vessels and place them on the lake shore. In 1944 the ships burned in a fire that was generally blamed on the Germans. John M. McManamon connects these attempts at underwater archaeology with the Renaissance interest in reconstructing the past in order to affect the present. Nautical and marine archaeologists as well as students and scholars of Renaissance history and historiography will appreciate this masterfully researched and gracefully written work.
