Lewis,2014-11-10 excellent for use as a text in information assurance or cyber security courses I strongly advocate that professors examine this book with the intention of using it in their programs Computing Reviews com March 22 2007 The book is written as a student textbook but it should be equally valuable for current practitioners this book is a very worthwhile investment Homeland Security Watch August 17 2006 While the emphasis is on the development of policies that lead to successful prevention of terrorist attacks on the nation s infrastructure this book is the first scientific study of critical infrastructures and their protection The book models the nation

s most valuable physical assets and infrastructure sectors as networks of nodes and links It then analyzes the network to identify vulnerabilities and risks in the sector combining network science complexity theory modeling and simulation and risk analysis The most critical components become the focus of deeper analysis and protection This approach reduces the complex problem of protecting water supplies energy pipelines telecommunication stations Internet and Web networks and power grids to a much simpler problem of protecting a few critical nodes The new edition incorporates a broader selection of ideas and sectors and moves the mathematical topics into several appendices

Key to Destiny Jason P. Crawford, 2021-08-13 He defied gods Now he must find the true one A decade on the run has left Sam Buckland scarred but unbroken While Lucifer reborn as the radiant Lightbringer sits Heaven s throne and gathers divine forces to his banner Sam searches for the one power that might still restore balance God But when he confronts not one but two beings claiming the title Yahweh and Jehovah Sam is thrown into a metaphysical war that shatters everything he thought he knew As alliances splinter and the Archangels are cast down Heaven becomes a battlefield where faith identity and truth collide With Sara by Lucifer s side and Satan forging her own path Sam must unlock the final truths hidden in the Keys of creation Because only by uniting what was broken can they face the ultimate question What if God isn t gone just incomplete
