**England's Folk Revival and the Problem of Identity in Traditional Music** Joseph Williams, 2022-08-12 Establishing an intersection between the fields of traditional music studies English folk music history and the philosophy of Gilles Deleuze and Félix Guattari this book responds to the problematic emphasis on cultural identity in the way traditional music is understood and valued Williams locates the roots of contemporary definitions of traditional music including UNESCO designated intangible cultural heritage in the theory of English folk music developed in 1907 by Cecil Sharp Through a combination of Deleuzian philosophical analysis and historical revision of England's folk revival of the Victorian and Edwardian eras Williams makes a compelling argument that identity is a restrictive ideology that runs counter to the material processes of traditional music's production Williams reimagines Sharp's appropriation of Darwinian evolutionary concepts asking what it would mean today to say that traditional music evolves in light of recent advances in evolutionary theory The book ultimately advances a concept of traditional music that eschews the term's long standing ontological and axiological foundations in the principle of identity For scholars and graduate students in musicology cultural studies and ethnomusicology the book is an ambitious and provocative challenge to entrenched habits of thought in the study of traditional music and the historiography of England's folk revival

their nation's political resurgence Concepts from Montesquieu Rousseau and Vico served to evaluate what Italians discovered about America Ideas about American domestic manners were reflected and conveyed through works of ballet literature opera and satire Transcending boundaries between intellectual and cultural history America in Italy is the first book length examination of the influence of America's political formation on modern Italian political thought The Iowa Journal of History and Politics ,1905 William and Lucy Angela Thirlwell,2003-01-01 The marriage of William Michael Rossetti 1829 1919 and Lucy Madox Brown 1843 1894 united two of the most resonant Pre Raphaelite family names Their passionate and ultimately tragic relationship described here for the first time provides a fresh perspective on nineteenth century marriage and on the private lives of eminent Victorians Sibling of Dante Gabriel and Christina Rossetti William was one of the original Pre Raphaelite Brothers a Bohemian radical author poet critic artist connoisseur biographer historian and taxman Lucy the intense intellectual daughter of Ford Madox Brown was an ambitious artist and biographer of Mary Shelley in spite of struggling with tuberculosis for nearly a decade Drawing on hundreds of previously unpublished sources and a wealth of new visual material including art by William Lucy and others of their circle and striking contemporary photographs the book follows William and Lucy through their separate professional careers marriage continental travels and Lucy's illness and death At the crossover between art history literary criticism social history and biography the book rewrites Pre Raphaelite history and brings to life two fascinating people who were both of their time and ahead of it *Dynamic Stabilisation of the Biped Lucy Powered by Actuators with Controllable Stiffness* Bram Vanderborght,2010-09-07 This book reports on the developments of the bipedal walking robot Lucy Special about it is that the biped is not actuated with the classical electrical drives but with pleated pneumatic artificial muscles In an antagonistic setup of such muscles both the torque and the compliance are controllable From human walking there is evidence that joint compliance plays an important role in energy efficient walking and running Moreover pneumatic artificial muscles have a high power to weight ratio and can be coupled directly without complex gearing mechanism which can be beneficial towards legged mechanisms Additionally they have the capability of absorbing impact shocks and store and release motion energy This book gives a complete description of Lucy the hardware the electronics and the software A hybrid simulation program combining the robot dynamics and muscle valve thermodynamics has been written to evaluate control strategies before implementing them in the real biped **The Modern Practice of Retouching Negatives** ,1890 **A Dictionary of Photography** Edward John Wall,1889
