*Mackintosh's Masterwork* Charles Rennie Mackintosh, 2004 Of the many practitioners of art nouveau in Great Britain Charles Rennie Mackintosh 1868 1928 has outlasted them all His work bridged the more ornate style of the later nineteenth century and the forms of international modernism that followed Like Frank Lloyd Wright with whom he is frequently compared he is known for so thoroughly integrating art and decoration that the two became inseparable His work has been honored by a major exhibition at the Metropolitan Museum of Art and his designs have proliferated to such an extent that they can be found reproduced in posters prints jewelry and even new buildings His most important project was the Glasgow School of Art which still functions as a highly prestigious art school This glorious building is visited each year by thousands of tourists from around the world Built over a dozen years beginning in 1897 the Glasgow School of Art is Mackintosh's greatest and most influential legacy This completely redesigned and heavily illustrated edition of Mackintosh's Masterwork has been greatly expanded and contains newly discovered material about both the early life of the architect and the formative years in which his plans for the School of Art were executed *Mackintosh's Masterwork* William Buchanan, 1989-08 Analyzes in detail Scottish architect Charles Rennie Mackintosh's greatest work the Glasgow School of Art with commentaries discussing the school's place in the development of architecture **Mackintosh's Masterwork** William Buchanan, 1989

Horatio Joyce, 2018-10-18 Bringing together fourteen original essays this collection opens up new perspectives on the architectural history of the nineteenth century by examining the buildings of the period through the lens of experience With a focus on the experience of the ordinary building user rather than simply on the intentions of the designer the book shows that new and important insights can be brought to our understanding of Victorian architecture The chapters present a range of ideas and new research some examining individual building case studies from grand hotels and clubhouses in New York to the parliament buildings of Westminster and others exploring conceptual questions about the nature of architectural experience whether sensory or otherwise Yet they share the premise that the idea of the experience of architecture took on a new and particular significance with the rise of industrial modernity and they examine what contemporary people both architects and non architects understood by this idea The insights in this volume extend beyond the study of Victorian architecture Together they suggest how experience might be used as a framework to produce a more convincingly historical account of the

R. Mackintosh* David Brett,2004-04-02 Between 1896 and 1906 Charles Rennie Mackintosh 1868 1928 produced a series of buildings and interiors in and around Glasgow of such startling invention that he immediately established himself as one of the truly great figures in early twentieth century architecture and design David Brett argues that Mackintosh s originality was grounded in a highly subjective poetics of workmanship in which the structure features interiors and furnishings of each individual building became subject to a unifying system of forms metaphors and unconscious associations The system Mackintosh evolved allowing for the formulation of an almost infinite series of ensembles After focusing on the various decorative details and interior spaces of Mackintosh s buildings the author reaches to the heart of Mackintosh s poetic system the suffused eroticism of the sleek feminine and intensely private white interiors A notable feature of this persuasive reappraisal of Mackintosh s work is the wealth of photographs by the author showing rarely featured details of buildings interiors and furnishings      **The Spiritual Dynamic in Modern Art** C.
