**Macquarie's Five Towns (Windsor, Richmond, Castlereagh, Pitt Town, Wilberforce) Text** Olaf Ruhen, Bruce Adams (illus), 1970      **Urban Agriculture** Craig Pearson, 2011-05-17 Most of us live in cities These are becoming increasingly complex and removed from broad scale agriculture Yet within cities there are many examples of greenspaces and local food production that bring multiple benefits that often go unnoticed This book presents a collection of the latest thinking on the multiple dimensions of sustainable greenspace and food production within cities It describes the diversity of urban agriculture and seeks a balanced representation between the biophysical and the social It deals with urban agriculture across scales from indoor plants to farm scale filtration of greywater A range of examples and initiatives from both developed and developing countries is described and evaluated      **Macquarie** Harry Dillon, Peter Butler, 2010-07-01 This book is a timely reminder of Lachlan Macquarie s importance to modern Australians He was a Christian a perfect gentleman and a supreme legislator of the human heart Whenever the sculptor shall imagine a guardian angel for New South Wales and Van Diemen s Land the chisel of gratitude shall portray the beloved and majestic features of General Macquarie Hobart Town Gazette In 1810 Lachlan Macquarie became governor of New South Wales He ruled the colony for twelve years during which time its fate lay in the balance after years of famine and strife culminating in a coup against its previous governor William Bligh The story of Macquarie s governorship is in many ways the story of early Australian history No other governor etched his identity so indelibly on his times nor left his name so well represented on Australian maps Macquarie s term encompassed the key events of our country s crucial third decade of existence and his governorship accelerated its progress from a jail to a colony of settlement and from despotism to democracy Unsurprisingly the personal story of Macquarie s years is just as absorbing a tale of aspirations fulfilled followed by a devastating fall from grace This book is a timely reminder of Lachlan Macquarie s importance to modern Australians It is a fascinating story of the genesis of a nation and of an extraordinary individual who refused to be confounded by the odds stacked against him      **The Secrets of the Hawkesbury Mansion** Anne Marie Sciberras, 2010-07-31 This is probably the only part of writing that I dont enjoy when it becomes about me I was born in Country NSW Dubbo on 15th August 1982 Im No 4 in a family of 5 children At the age of 2 due to the never ending drought we ended up moving to the Hawkesbury Valley and have been here ever since I went to a private school and had many outside interests such as playing a newly restored pipe organ for 7 years each weekend at one of the oldest churches on the main land of Australia I finished my schooling at the end of year ten and I quickly embraced a working life Im currently single and a very busy PA Accounts Officer for one of the leading Building Certifiers in NSW The most important thing to me is my Faith Family Friends If truth be told I have always had a passion for writing in fact when I was little I had grown up saying that I wanted to be Nun writing books Clearly the Nun thing didnt work out too well but alas there is always writing      **Architectural Conservation in Australia, New Zealand and the Pacific Islands** John Stubbs, William

*The Squatters* Barry Stone, 2019-01-07 Fascinating stories of the indomitable men and women who established the first cattle and sheep properties that became the foundation of a prosperous nation A very readable history of an important group of Australian pioneers Graham Seal author of the bestselling Great Australian Stories For the early settlers who came from Britain's crowded cities and tiny villages it must have been extraordinarily liberating to pack their belongings onto a bullock dray and head beyond the reach of meddling authorities to claim new land for themselves Settlers spread out across inland Australia constructing windmills and fences dry stone walls and storehouses livestock yards and droving routes the traces of which can still be seen today The fortunate and indomitable succeeded while countless others succumbed to drought and flood Those who were successful became a class all their own the scrub aristocrats Barry Stone has scoured through diaries journals and newspapers and sorted myth from legend He tells the stories of pioneers whose vision and hard work built pastoral empires running thousands of head of stock providing meat for a growing colony and wool for export a rural juggernaut that would lay the foundations of a prosperous nation

*The Hawkesbury River* Paul Boon, 2017-07 The Hawkesbury River is the longest coastal river in New South Wales A vital source of water and food it has a long Aboriginal history and was critical for the survival of the early British colony at Sydney The Hawkesbury's weathered shores cliffs and fertile plains have inspired generations of artists It is surrounded by an unparalleled mosaic of national parks including the second oldest national park in Australia Ku-ring-gai National Park Although it lies only 35 km north of Sydney to many today the Hawkesbury is a hidden river its historical and natural significance not understood or appreciated Until now the Hawkesbury has lacked an up to date and comprehensive book describing how and when the river formed how it functions ecologically how it has influenced humans and their patterns of settlement and in turn how it has been affected by those settlements and their people The Hawkesbury River A Social and Natural History fills this gap With chapters on the geography geology hydrology and ecology of the river through to discussion of its use by Aboriginal and European people and its role in transport defence and culture this highly readable and richly illustrated book paints a picture of a landscape worthy of protection and conservation It will be of value to those who live visit or work in the region those interested in Australian environmental history and professionals in biology natural resource management and education
