Raghavan, 1990 Covers the period from the 1960s to the 1980s South Asian Economic Development in the Era of Global Turbulence Moazzem Hossain, Eliyathamby A. Selvanathan, Maneka Jaysinghe, Saroja Selvanathan, Rajat Kathuria, 2025-03-28 South Asia's developing nations have been enjoying moderate to high growth over the past decade before the global pandemic of 2020 began This new edition provides an up to date guide to the growing markets in South Asia in the post COVID 19 period It offers an analysis of the changes and consequences of high sustainable growth investigating what has been achieved in the region over the last 2001 2023 from a macroeconomic viewpoint identifying new challenges to 2030 and the end of the UNSDGs period Part I of the textbook presents an analysis of how South Asia is rated against Southeast and East Asia in recent decades in economic and social terms Part II focuses on South Asia's economic development over 2000 and the early 2020s It demonstrates that globalization enhanced global trade and that trade further increased the region's prosperity up to 2020 Part III identifies major governance issues that were responsible for South Asia's social and economic underperformance due to the COVID 19 pandemic This new edition includes a new chapter about AI and South Asia in the future The textbook advocates for a shift in focus from policy reform per se to the more challenging task of implementing institutional reform that will invigorate the capability of the political leadership to bring about rapid sustained and poverty reducing growth in South Asia in post Covid era The book also considers climate change and the environment and it analyses the impact of these changes and developments on the economic health and social conditions in South Asia The concluding chapter demonstrates current political unrest in three South Asian nations Sri Lanka Pakistan and Bangladesh termed the South Asian Spring T Offering an analysis of the changes and consequences of high sustainable growth in South Asia this textbook will be useful for students and researchers in Development Economics Business Economics Development Studies and Asian Studies Regional Economic Cooperation Among SAARC Countries S. N. Raghavan, 1995 *South Asian Economic Development* Moazzem Hossain, Rajat Kathuria, Iyanatul Islam, 2010 South Asia's developing nations have been enjoying moderate to high growth over the past decade before the global recession began This new edition provides an up to date guide to the growing markets in South Asia It offers an analysis of the changes and consequences of high sustainable growth investigating what has been achieved in the region during the last ten years from a macroeconomic viewpoint identifying new challenges and clearly defining what has driven the boom The first part of the textbook presents an analysis of how South Asia is rated against Southeast and East Asia in recent decades in economic and social terms The second part of the text focuses on South Asia's economic development over 1990s and mid 2000s and the third and final part identifies those major governance issues which were responsible for South Asia's underperformance both socially and economically It is widely recognised that globalisation enhanced global trade and that trade further increased the region's prosperity

Embracing the view that economists can no longer regard themselves as technocratic guardians of neutral policy advice the book advocates for a shift in focus from policy reform per se to the more challenging task of implementing institutional reform that will invigorate the capability of the political leadership to bring about rapid sustained and poverty reducing growth in South Asia The central task would be to re direct the focus of governments in South Asia in order to ensure that the core functions of the state stable non distortionary policy climate a secure foundation of law investment in basic education health and infrastructure protection of the vulnerable and adapting with the climate change are efficiently provided At the same time the reform agenda must be sensitive to the goal of ensuring that durable democratic institutions traditions and values are preserved This is a fundamental challenge but one that must be met in order to secure the emergence of a prosperous South Asia in the early part of the twenty first century This textbook will be useful for students and researchers in Development Economics Business Economics Development Studies and Asian Studies
