questions researchers ask and the ways they collect data to what they even consider data. Gathering a broad range of new developments in one place. The Handbook of Emergent Technologies in Social Research offers comprehensive up to date thinking on technological innovations. In addition to addressing how to effectively apply new technologies such as the internet, mobile technologies, geospatial technologies, GPS, and the incorporation of computer assisted software programs, CAQDAS, to qualitative, quantitative, and mixed methods approaches to research projects, many chapters provide in depth examples of practices within both disciplinary and interdisciplinary environments and outside the academic world in multi media laboratories and research institutes. Not only an authoritative view of cutting edge technologies and their applications, the Handbook examines the costs and benefits of utilizing new technologies on the research process, the potential misuse of these techniques for methods practices, and the ethical and moral dimensions of emergent technologies, especially with regard to issues of surveillance and privacy. The Handbook of Emergent Technologies in Social Research is an essential resource for research methods courses in various fields including the social sciences, education, communications, computer science, and health services, and an indispensable guide for social researchers looking to incorporate emerging technologies into their methods and practice.

Macromedia MX ELearning Jeffrey Bardzell, 2003. With International Data Corp projecting e learning to be an 11.5 billion industry by 2003, the demand for interactive multimedia learning applications is on the rise. And Macromedia's Studio MX design tools including Flash MX, Dreamweaver MX, and ColdFusion MX provide the ideal solution. But figuring out how to combine these products to create the perfect active learning applications for your purposes can be tricky, which is why you need Macromedia MX eLearning Advanced Training from the Source. Using project based lessons, e learning specialist and veteran author Jeffrey Bardzell takes you through the paces of these solutions, demonstrating how you can use them to create e learning applications for both academic and corporate environments. Moving at your own pace, you'll learn by doing through the tutorials and hands on instructions that have become the hallmark of this popular series. By the time you reach the end of this volume, you will have built four e learning projects: one in Dreamweaver, two in Flash, and one that uses ColdFusion. Dreamweaver and Flash to create a front end for a complete ColdFusion driven Web application. In the process, you'll learn how to create drag and drop interactivity, fill in the blank, dynamic text, hotspots, and a host of other useful e learning features including how to track scores and provide on the fly user feedback by connecting to a database through ColdFusion. Whether you're a corporate or government trainer or an educator grappling with the challenges of distance learning, you'll find what you need to provide the training your people require in Macromedia MX eLearning Advanced Training from the Source.
