Mystic Thomas Lyons, 2005-04 Can we really bend spoons with our minds Do regular people have prophetic dreams Can spirits speak to us from beyond What does it really mean to be enlightened How you can develop healing hands Author Thomas Lyons has seen it all and shares hundreds of stories of mystical experience **The Mystical Life of Franz Kafka**

June O. Leavitt, 2012 June O Leavitt offers a fascinating examination of the mystical in Franz Kafka s life and writings showing that Kafka s understanding of the occult was not only a product of his own clairvoyant experiences but of the age in which he lived **Yahushua - The Black Messiah** Rabbi Simon Altaf, 2011-01-11 What ethnicity was Yahushua Jesus of Nazareth and what race of people did He belong to Is it important that we know His ethnicity What colour was Moses King David and King Solomon We examine and look at the massive fraud perpetrated upon the western nations by the papal clergy to hide the real identity of the true Hebrew Israelite people and race which are being restored in these Last Days Yahushua said everything will be restored and that includes both His and His people s ethnicity Would you like to know It does affect your eternity because you are missing His true message if you would like to know then get this book now *The Golden*

*Ones* Carole A. P. Chapman, 2005-06 Are you one of the Golden Ones They are souls who have reincarnated at this time in order to bring in a new world The Golden Ones is the powerful account of one woman s struggle to reverse a sudden weight gain leading to her encounters with the Christ Consciousness and other higher beings and to a personal mission of awakening the Golden Ones to their destiny This remarkable story will give you a greater understanding of the true reasons for all human suffering and death embracing the knowledge that death is really a new thing in our souls history the amazing power of the unconscious in which everything is already known to us and only requires our remembering the reasons for our urgent need to live closer to nature s energies to heal our planet while at the same time preparing us for vibrationally lighter bodies the extraordinary tales of our past and our future as souls on earth including descriptions of Atlantis ancient Egypt and Yucatan and predictions about the upcoming Fifth Root Race *Mystics and Messiahs* Philip Jenkins, 2000 In this full length account of cults and anti cult scares in American history Jenkins gives accurate historical perspective and shows how many of today s mainstream religions were originally regarded as cults **Cryptohistories** Alicja Bemben, Rafał Boryślawski, 2015-02-27 Cryptohistories is a collection of essays which provides a meeting ground for historians and cultural scholars analysing discussions of cryptic discourses in history and in historical narratives with roots in the mysterious The focus here is on history as a subjective narrative as a conscious construct and as manipulation Equally important for all the

contributors brought together in this book is the mechanics of the rise popularity and apparent necessity of such narrative strategies The essays address a variety of issues revolving around the study of cryptic aspects of discourses ranging from theoretical approaches to secretive narratives of history cultural encoding and decoding of cryptohistories microhistories focusing on historical mysteries and mythicised pasts and processes of mythicization of the past as well as histories and theories of chance and manipulation Among its specific subjects Cryptohistories features discussions on the reasons why certain quasi historical narratives do not reach the status of history on conspiracy theories analysed from the perspective of contemporary video games on the paradoxes of truth and falsehood in history on parasitology as a cryptohistorical discourse on the codes of Victorian floriography on cases of cross dressing and sartorial camouflage on the Vietnam War MIAs on manipulations lying at the core of contemporary Bulgarian identity on the search for a racial utopia in the American South and on the fiction of Beryl Bainbridge as a form of cryptohistorical literature

**Jesus and Moses Are Buried in India, Birthplace of Abraham and the Hebrews!** Gene D. Matlock, 2000-11 Jesus and Moses are Buried in India Birthplace of Abraham and the Hebrews is a new kind of biblical history that brings out facts not myths and guessing games Unlike priests and preachers who exhort their followers to swallow lies and spiritual ordure I don't want my readers to swallow what I say naively They should check all my references for themselves This book follows the ancestors of the Hebrews from Eastern Siberia down to what is now the Indian subcontinent later to what is now Israel You'll be surprised to find out who and what Jehovah Abraham Sarah Moses Jesus really were The book also blasts dangerous myths such as the Christian fundamentalists assertion that God wants nearly all Jews to die in a Battle of Armageddon That war happened in India thousands of years ago We're now in Millennium 2000 It's time for mankind to let truth take over his existence

**Spirituality: A Very Short Introduction** Philip Sheldrake, 2012-11-29 It has been suggested that spirituality has become a word that can define an era Why Because paradoxically alongside a decline in traditional religious affiliations the growing interest in spirituality and the use of the word in a variety of contexts is a striking aspect of contemporary western cultures Indeed spirituality is sometimes contrasted attractively with religion although this is problematic and implies that religion is essentially dogma moralism institutions buildings and hierarchies The notion of spirituality expresses the fact that many people are driven by goals that concern more than material satisfaction Broadly it refers to the deepest values and sense of meaning by which people seek to live Sometimes these values are conventionally religious Sometimes they are associated with what is understood as the sacred in a broader sense that is of ultimate rather than merely instrumental importance This Very Short Introduction written by one of the most eminent scholars and writers on spirituality explores the historical foundations of the thought and considers how it came to have the significance it is developing today

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and

enthusiasm to make interesting and challenging topics highly readable      **Beginner's Guide to Mediumship** Larry Dreller, 2002-04-15 For centuries people have been fascinated by the power and secrets of mediums And today many are interested in making contact with the spirit world themselves either to communicate with loved ones heal the sick or discover knowledge but don't know how Yet as Larry Dreller writes At birth we all are given the gift of seeing beyond this humble Earth plane into other dimensions but as we grow older we cast this natural ability aside Mediums did not lose this ability and are people who act as intermediaries between this world and the other side Both an introduction to this phenomenon as well as a workbook that guides the reader through exercises to reawaken their abilities the Beginner's Guide to Mediumship shows how to develop spiritual powers conduct seances harness the power of prophecy comfort and heal others see auras and more Drawing on his own experience Dreller focuses on pure and practical day to day applications of mediumship and how they can enrich readers lives      **Decolonising the Study of Religion** Jørn Borup, 2023-12-28 Decolonising the Study of Religion analyses historical and contemporary discussions in the study of religion and Buddhism and critically investigates representations possibilities and challenges of a decolonial approach addressing the important question who owns Buddhism The monograph offers a case based perspective with which to examine the general study of religion where new challenges require reflection and prospects for new directions It focuses on Buddhism one religion which has been studied in the West for centuries Building on postcolonial theories and supplemented with a critical analysis of identity and postsecular engagement the book offers new possibilities and challenges to the study of religion It critically investigates decolonisation in the study of religion subscribing to a third way between objectivist and subjectivist positions Analysing the postcolonial and decolonial critique of the study of religion with a particular focus on Buddhist studies in the West and in Japan this book will be of interest to researchers in the field of Religious Studies Buddhism Japanese religions anthropology Asian Studies and those interested in religion and decolonisation      **New Dimensions/cube of Space** , Hidden in a secret book of cosmology written in the ancient Hebrew tongue long forgotten but not lost by mankind is a description of a mysterious cube formed from the twenty two letters of the Hebrew alphabet This cube of letters is constructed of a center three interior dimensions six faces and twelve edges These twenty two components form the cube and also reveal a map that clearly shows where we have come from where we are now and where we are going in our evolutionary journey toward complete spiritual awakening In New Dimensions for the Cube of Space David Allen Hulse explains that this cube of letters cannot reveal its deepest secrets until it is clothed in the cards of the tarot creating a map of the cosmos referred to as the Cube of Space Then and only then can this mystical cube speak directly to our souls and show us the way or the true path of initiation we all must eventually travel He presents a fascinating description of how he attained his insights along with a clear exposition of the Cube of Space as a path of initiation Hulse illustrates his insights using the original B O T A tarot deck designed by Paul Foster Case The clear and simple imagery of this deck is very helpful for understanding every nuance of the symbolic

material in the story of the soul's journey around the six faces of the cube However the popular Waite deck or any other Tarot deck can be used in studying the Cube of Space Included is the material needed for the construction of a model of the Cube of Space and Hulse recommends that the reader assemble this model as it will greatly facilitate a clear understanding of the symbolic meaning behind each of the of the twenty two directions of space delineated by the cube Includes a color insert for construction of your own Cube     The Big Picture Making Sense Out of Life and Religion Sean Williams,2009-06-01 This book points out the undeniable similarities between The Gospel of Thomas the psychedelic experience the mystic path and the near death experience in order to put together the big picture and expose the truth about our existence Can you put together the similarities and understand the TRUTH that organized religion and the government have sought to keep from us Do you have the ears to HEAR     Mystical Buddhism Satadal Kargupta,2002 This Book Breaks New Ground By Explaining For The First Time Over Three Hundred Mystical Terms In Buddhist Literature And Their Literally Miraculous Sibylline Import Within That Literature Its Extensive Examples Trace Such Miracles And Mystical Elements From The Time Of Buddha S Birth In The Sixth Century B C To The Tenth Century A D When Buddhism Has Shed Its Light Beyond The Borders Of Its Homeland     **Ithihaasa** Bhaktivejanyana Swami,2013-01-29 Dr Singh Science says that the different species were not created simultaneously but evolved gradually I came across a statement in the Bhagavad Gita to the effect that all 8 400 000 species of living entities are created simultaneously Is that correct Srila Prabhupada Yes Living beings move from one bodily form to another The forms already exist The living entity simply transfers himself just as a man transfers himself from one apartment to another One apartment is first class another is second class and another is third class Suppose a person comes from a lower class apartment to a first class apartment the person is the same but now according to his capacity for payment or karma he is able to occupy a higher class apartment Real evolution does not mean physical development but the development of Consciousness Do you follow The apartment already exists however it is not the lower class apartment that becomes the higher class apartment That is Darwins nonsensical theory He would say that the apartment has become high class Modern scientists think that life has come from matter They say that millions and millions of years ago there was simply matter but no life We do not accept that Of the two energies life and matter life or spirit is the original superior energy and matter is the resultant inferior energy Spirit is independent and matter is dependent Dr Singh All that you have been saying completely contradicts Darwins theory of evolution Srila Prabhupada Darwin and his followers are rascals If originally there were no higher species why do they exist now Also why do the lower species still exist For example at the present moment we see both the intellectual person and the foolish ass Why do both these entities exist simultaneously Why hasnt the ass form evolved upwards and disappeared Why do we never see a monkey giving birth to a human In Bhagavad Gita the word yantra or machine means that in any species of life we are traveling in bodies that are like machines provided by material nature     *The Shambala Sutras* Aurijit Ganguli,2020-05-30 Set to find out the mythological

Sanjeevani plant of the Ramayana botanist Arjun and chef Lisa were circumstantially clubbed in an unlikely team that travelled from New York to the Western Himalayas in search of the truth The series of revelations they stumbled upon was beyond their wildest imagination Unwittingly they were on their way to a mystical place that was rumoured for centuries to be the epitome of ultimate knowledge power and wealth Pitched against a global antagonistic force and a multitude of challenges they pushed forward through the perils of the snowy Himalayas They had to reach the magical place to receive the Sutras of life and a fore warning of the biggest catastrophe in the 21st century that would be unfolding in a few months

**Handbook of Religion and the Authority of Science** Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world
