Menace in Europe Claire Berlinski, 2007-12-18 Old Europe's new crisis Europe the charming continent of windmills and gondolas But lately Europe has become the continent of endless strikes and demonstrations bombs on the trains and subways radical Islamic cells in every city and ghettos so hopeless and violent even the police won't enter them In Spain a terrorist attack prompts instant capitulation to the terrorists demands In France the suburbs go up in flames every night In Holland politicians and artists are murdered for speaking frankly about Islamic immigration This isn't

the Europe we thought we knew What's going on over there Traveling overland from London to Istanbul journalist Claire Berlinski shows why the Continent has lately appeared so bewildering and often so thoroughly obnoxious to Americans Speaking to Muslim immigrants German rock stars French cops and Italian women who have better things to do than have children she finds that Europe is still despite everything in the grip of the same old ancient demons Anyone who knows the history can sense it There is something ugly and familiar in the air But something new is happening as well Indeed Europe now confronts and seems unable to cope with an entirely new set of troubles Tracing the ancient conflicts and newly erupting crises Menace in Europe reveals Why Islamic radicalism and terrorist indoctrination flourish as Europe fails to assimilate millions of Muslim immigrants How plummeting birthrates hurtle Europe toward economic and cultural catastrophe Why hatred of America has become ubiquitous on Europe's streets in its books newspapers and music and at the highest levels of government How long repressed destructive instincts are suddenly reemerging How the death of religious faith has created a hopeless morally unmoored Europe that clings to anti Americanism anti-Semitism and other dangerous ideologies Why the notion of a united Europe is a fantasy and what that means for the United States In the end these are not separate issues Berlinski provocatively demonstrates that Europe's political and cultural crisis mirrors its profound moral and spiritual crisis But this is not just Europe's problem Menace in Europe makes clear that the spiritual void at the heart of Europe is ultimately our problem too And America will pay a terrible price if we continue to ignore it

The Philadelphia Stock Exchange and the City It Made Domenic Vitiello, George E. Thomas, 2010-04-14

The Philadelphia Stock Exchange and the City It Made recounts the history of America's first stock exchange and the ways it shaped the growth and decline of the city around it Founded in 1790 the Philadelphia Stock Exchange its member firms and the companies they financed had profound impacts on the city's place in the world economy At its start the exchange and its members helped spur the development of the early United States its financial sector and its westward expansion During the nineteenth century they invested in making Philadelphia the center of industrial America raising capital for the railroads and coal mines that connected cities to one another and built a fossil fuel based economy After financing the Civil War they underwrote the growth of the modern metropolis its transportation infrastructure utility systems and real estate development At the turn of the twentieth century stagnation of the exchange contributed to Philadelphia's loss of power in the national and world economy This original interpretation of the roots of deindustrialization holds important lessons for other cities that have declined The exchange's revival following World War II is a remarkable story but it also illustrates the limits of economic development in postindustrial cities Unlike earlier eras the exchange's fortunes diverged from those of the city around it Ultimately it became part of a larger global institution when it merged with NASDAQ in 2008 Far more than a history of a single institution The Philadelphia Stock Exchange and the City It Made traces the evolving relationship between the exchange and the city For people concerned with cities and their development this study offers a long term history of the public private

partnerships and private sector led urban development popular today More generally it traces the networks of firms and institutions revealed by the securities market and its participants Herein lies a critical and understudied part of the history of metropolitan economic development Vicarious Consumers Manuel Perez-Garcia,2016-03-03 The birth of a mass consumer society in western Europe has been the subject of much scholarly debate in recent years In order to come to a further understanding of the issue this book adopts an analytical approach paying special attention to the socio cultural and economic transfers which occur when different commodities are introduced to territories with diverse values and identities In particular it examines the role of merchants and their important influence on consumer decisions describing how they created demand for new necessities in local national and international markets of the western Mediterranean area Through a systematic analysis of probate inventories from southern Spain the study reveals shifts in the patterns of consumption of new goods in urban and rural families underlining a growing interest in new exotic and foreign goods By connecting these local desires aspirations and choices to a global movement in which human and material capital circulated trans continentally broader patterns of consumption are revealed By observing a southern European society such as Spain where the industrialization process was slower than that in Anglo Saxon territories the book contributes to the on going debates about industrious revolution and trickle down theories and whether both occurred simultaneously or separately The book also helps identify the socio economic forces and agents that prompted the stimulus for new consumer aspirations as well as the cultural consequences that the new modern consumerism brought about **Roman Amphora Contents: Reflecting on the Maritime Trade of Foodstuffs in Antiquity (In honour of Miguel Beltrán Lloris)** Darío Bernal-Casasola,Michel Bonifay,Alessandra Pecci,Victoria Leitch,2021-11-04 Presents the results of the RACIIC International Congress Roman Amphora Contents International Interactive Conference C diz 2015 dedicated to the distinguished Spanish amphorologist Miguel Beltr n Lloris This volume aims to reflect on the current state of knowledge about the palaeocontents of Roman amphorae
