The State in New Zealand, 1840-1984 Michael Bassett, 1998 In this study historian and former politician Michael Bassett explores how and why the state became such an active and interventionist player in New Zealand life developing subsidizing and regulating the economy and increasingly protecting citizens from the cradle to the grave It looks in detail at the many schemes in which a paternalistic government became involved especially the extensive social programmes taken for granted by the people but from the 1960s increasingly difficult to sustain economically Bassett makes heavy use of departmental archives and concludes that the continuing process of intervention had to be halted

Capitalist Networks and Social Power in Australia and New Zealand Georgina Murray, 2017-09-29 It is often asserted that the ruling elite in Western capitalist economies now consists of liberal intellectuals and their media sympathisers By contrast this book looks at the real elite in Australian and New Zealand society and shows that there is still a ruling class based upon economic dominance From an analysis of corporate and public records interviews and other primary and secondary data it develops a picture of networks of power that are changing but are as real as any network in the past
