Stross, 2012-09-19 Bulls in the China Shop is an engagingly anecdotal lucidly written account of the tragicomic cultural and political misadventures that have plagued American commercial ventures over the past two decades in the People s Republic of China When diplomatic tensions between the two countries were eased in the 1970s American businesses rushed to China lured by the world s largest national market As they tried to introduce capitalism to China s socialist society they soon discovered that the rules of business as they understood them did not apply Chinese buyers placed huge orders for which they had no money to pay Chinese marketing bore no relation to capitalist exigencies playing cards were named Maxipuke pu ke poker designer men s underwear Pansy million dollar projects already underway were cancelled without warning The Chinese in turn were astonished by the indiscretion of the Americans who prized directness above all in negotiations and were at once brash and guileless in exposing weaknesses in their own bargaining positions Like Mark Twain s innocents Americans were woefully ignorant of Chinese etiquette and prone to embarrassing gaffes And more the Chinese found the American insistence on lengthy detailed contracts fatuous if not insulting Bulls in the China Shop is a fascinating look at the uneasy commerce between American and China between capitalism and socialism and at the cultural political and historical significance of trade between the two nations      Politics and the Press in Indonesia Angela Romano, 2013-05-13 This book explores the evolving political culture in Indonesia by discussing the country s dominant political philosophies then showing how those philosophies affect the working lives of ordinary Indonesian citizens It focuses in particular on the working lives of news journalists a group that occupies a strategic social and political position      **Poisonous Pandas**

Proctor, 2018-04-24 A favorite icon for cigarette manufacturers across China since the mid twentieth century has been the panda with factories from Shanghai to Sichuan using cuddly cliché to market tobacco products The proliferation of panda branded cigarettes coincides with profound yet poorly appreciated shifts in the worldwide tobacco trade Over the last fifty years transnational tobacco companies and their allies have fueled a tripling of the world's annual consumption of cigarettes At the forefront is the China National Tobacco Corporation now producing forty percent of cigarettes sold globally What's enabled the manufacturing of cigarettes in China to flourish since the time of Mao and to prosper even amidst public health condemnation of smoking In *Poisonous Pandas* an interdisciplinary group of scholars comes together to tell that story They offer novel portraits of people within the Chinese polity government leaders scientists tax officials artists museum curators and soldiers who have experimentally revamped the country's pre Communist cigarette supply chain and fitfully expanded its political economic and cultural influence These portraits cut against the grain of what contemporary tobacco control experts typically study opening a vital new window on tobacco the single largest cause of preventable death worldwide today Marketing in Developing Countries Emmanuel C.
