(Abridged.). Michel Foucault, Richard Joseph HOWARD,1967 Madness Is Civilization Michael E. Staub,2011 In the 1960s and 1970s a popular diagnosis for America's problems was that society was becoming a madhouse In this intellectual and cultural history Michael E Staub examines a time when many believed insanity was a sane reaction to obscene social conditions psychiatrists were agents of repression asylums were gulags for society sundesirables and mental illness was a concept with no medical basis Madness Is Civilization explores the general consensus that societal ills from dysfunctional marriage and family dynamics to the Vietnam War racism and sexism were at the root of mental illness Staub chronicles the surge in influence of socially attuned psychodynamic theories along with the rise of radical therapy and psychiatric survivors movements He shows how the theories of antipsychiatry held unprecedented sway over an enormous range of medical social and political debates until a bruising backlash against these theories part of the reaction to the

perceived excesses and self absorptions of the 1960s effectively distorted them into caricatures Throughout Staub reveals that at stake in these debates of psychiatry and politics was nothing less than how to think about the institution of the family the nature of the self and the prospects for and limits of social change The first study to describe how social diagnostic thinking emerged Madness Is Civilization casts new light on the politics of the postwar era **Animal Philosophy** Matthew Calarco, Peter Atterton, 2004-07-30 Animal Philosophy is the first text to look at the place and treatment of animals in Continental thought A collection of essential primary and secondary readings on the animal question it brings together contributions from the following key Continental thinkers Nietzsche Heidegger Bataille Levinas Foucault Deleuze Guattari Derrida Ferry Cixous and Irigaray Each reading is followed by commentary and analysis from a leading contemporary thinker The coverage of the subject is exceptionally broad ranging across perspectives that include existentialism poststructuralism postmodernism phenomenology and feminism This anthology is an invaluable one stop resource for anyone researching teaching or studying animal ethics and animal rights in the fields of philosophy cultural studies literary theory sociology environmental studies and gender and women s studies Rewriting the History of Madness Arthur Still, Irving Velody, 2012-10-02 Michel Foucault has had an extraordinary impact on writers in the human sciences since his first book Madness and Civilization appeared in English This title assesses the reactions to Madness and Civilization Civilization (SparkNotes Philosophy Guide) SparkNotes, 2014-08-12 Madness and Civilization SparkNotes Philosophy Guide Making the reading experience fun SparkNotes Philosophy Guides are one stop guides to the great works of philosophy masterpieces that stand at the foundations of Western thought Inside each Philosophy Guide you ll find insightful overviews of great philosophical works of the Western world The Passion of Michel Foucault James Miller, 2000 Based on extensive new research and a bold interpretation of the man and his texts The Passion of Michel Foucault is a startling look at one of this century s most influential philosophers It chronicles every stage of Foucault's personal and professional odyssey from his early interest in dreams to his final preoccupation with sexuality and the nature of personal identity
