Spatiality and Subjecthood in Mallarmé, Apollinaire, Maeterlinck, and Jarry Leo Shtutin, 2019-02-07 This study explores the interrelationship between spatiality and subjecthood in the work of Stéphane Mallarmé Guillaume Apollinaire Maurice Maeterlinck and Alfred Jarry Concerned with various modes of poetry and drama it also examines the cross pollination that can occur between these modes focusing on a range of core texts including Mallarmé's *Igitur* and *Un Coup de dés* Apollinaire's *Zone* and various of his calligrammes Maeterlinck's early one act plays *L'Intruse* *Les Aveugles* and *Intérieur* and Jarry's *Ubu roi* and *César Antechrist* The poetic and dramatic practices of these four authors are assessed against the broader cultural and philosophical contexts of the fin de siècle The fin de siècle witnessed a profound epistemological shift the Newtonian

Cartesian paradigm increasingly challenged throughout the nineteenth century was largely dismantled with ramifications beyond physics philosophy and psychology Chapter 1 introduces three foundational notions Newtonian absolute space the unitary Cartesian subject and subject object dualism that were challenged and ultimately overthrown in turn of the century science and art Developments in theatre architecture and typographic design are examined against this philosophical backdrop with a view to establishing a diachronic and interdisciplinary framework of the authors in question Chapter 2 focuses on the spatial dimension of Mallarmé's *Un Coup de Dés* and Apollinaire's calligrammes works which defamiliarise page space by undermining various naturalised conventions of paginal configuration In Chapter 3 the notion of liminality is implemented in an analysis of character and diegetic space as constructed in Jarry's *Ubu roi* and Maeterlinck's *one acts* Chapters 4 and Chapter 5 undertake a more abstract investigation of parallel inverse processes the subjectivisation of space and the spatialisation of the subject manifest not only in the works of Mallarmé Maeterlinck Apollinaire and Jarry but in the period's poetry and drama more generally

Inside Bluebeard's Castle Carl S. Leafstedt, 1999-11-04 This is the first book length examination of Bartók's 1911 opera *Duke Bluebeard's Castle* one of the twentieth century's enduring operatic works Writing in an engaging style Leafstedt adopts an interdisciplinary approach to the opera by introducing in addition to music dramatic analysis a number of topics that are new to the field of Bartók studies These new areas of critical and scholarly terrain include a detailed literary study of the libretto and a gender focused analysis of the opera's female character Judith Leafstedt begins with a short introductory chapter that places *Duke Bluebeard's Castle* within the context of Bartók's early composing career his discovery of folk music and its impact on his later work The book goes on to explore the composition's troubled history its failure to win two early Hungarian opera competitions and the three versions of the ending that resulted discussed here in depth for the first time The core of the book is devoted to the musical and dramatic organization of the opera and offers an analysis of the seven individual door scenes including a detailed analysis of scene six the lake of tears scene illustrating the work's complex tonal organization and dramatic structure A separate chapter places this darkly psychological version of the Bluebeard story within the broader context of European history and literature Throughout the book Leafstedt draws on original Hungarian source material much of it newly translated by the author and available here for the first time in English and he includes a generous selection of musical examples *Inside Bluebeard's Castle* is an ideal starting point for research in twentieth century music Hungarian cultural history and opera studies as well as an invaluable guide for anyone interested in Bartók's only opera
