was in its time the South's most important literary periodical. Published in Richmond, Virginia, the monthly magazine was edited in its early years by Edgar Allan Poe. In addition to serving as a literary proving ground for Poe, it is also remembered for publishing poems, fiction, and essays by the nation's leading authors, both male and female, northern and southern, including William Gilmore Simms, Paul Hamilton Hayne, Joseph G. Baldwin, John Pendleton Kennedy, Mary E. Lee, and Caroline Lee Hentz. In 1905, Benjamin Blake Minor (1818-1905), editor of the *Southern Literary Messenger* during the 1840s, wrote the only book-length study of the magazine. Minor's authoritative account of the journal's history and influence is augmented in this edition with a new introduction by historian Jonathan Daniel Wells that places the magazine and Minor's account in their historical context. Both Wells and Minor reveal significant information found nowhere else about figures and facets of southern literary culture before and during the Civil War. Minor recounts in detail the relationships he forged with notable authors and includes excerpts from correspondence with Poe and others. Most important, Minor identifies and discusses hundreds of lesser contributors who might otherwise remain anonymous.

[The Companion to Southern Literature](#) Joseph M. Flora, Lucinda Hardwick MacKethan, 2001-11-01. Selected as an Outstanding Academic Title by Choice. Selected as an Outstanding Reference Source by the Reference and User Services Association of the American Library Association. There are many anthologies of southern literature, but this is the first companion. Neither a survey of masterpieces nor a biographical sourcebook, *The Companion to Southern Literature* treats every conceivable topic found in southern writing from the pre-Columbian era to the present, referencing specific works of all periods and genres. Top scholars in their fields offer original definitions and examples of the concepts they know best, identifying the themes, burning issues, historical personalities, beloved icons, and common or uncommon stereotypes that have shaped the most significant regional literature in memory. Read the copious offerings straight through in alphabetical order: Ancestor Worship, Blue Collar Literature, Caves, or skip randomly at whim: Guilt, The Grotesque, William Jefferson Clinton. Whatever approach you take, *The Companion's* authority, scope, and variety in tone and interpretation will prove a boon and a delight. Explored here are literary embodiments of the Old South, New South, Solid South, Savage South, Lazy South, and Sahara of the Bozart. As up-to-date as grit lit, K Mart fiction, and postmodernism, and as old-fashioned as Puritanism, mules, and the tall tale, these five hundred entries span a reach from Lady to Lesbian Literature. The volume includes an overview of every southern state's belletristic heritage while making it clear that the southern mind extends beyond geographical boundaries to form an essential component of the American psyche. The South's lavishly rich literature provides the best means of understanding the region's deepest nature, and *The Companion to Southern Literature* will be an invaluable tool for those who take on that exciting challenge.

Description of Contents: 500 lively, succinct articles on topics ranging from Abolition to Yoknapatawpha; 250 contributors, including scholars, writers, and poets; 2 tables of contents, alphabetical and subject, and a complete index; A separate bibliography for most entries.

Women Writers and Journalists in the Nineteenth-Century South Jonathan Daniel Wells, 2011-10-24. The first study

to focus on white and black women journalists and writers both before and after the Civil War this book offers fresh insight into Southern intellectual life the fight for women s rights and gender ideology Based on new research into Southern magazines and newspapers this book seeks to shift scholarly attention away from novelists and toward the rich and diverse periodical culture of the South between 1820 and 1900 Magazines were of central importance to the literary culture of the South because the region lacked the publishing centers that could produce large numbers of books As editors contributors correspondents and reporters in the nineteenth century Southern women entered traditionally male bastions when they embarked on careers in journalism In so doing they opened the door to calls for greater political and social equality at the turn of the twentieth century *Everybody's Magazine* ,1914 **Discovering Modernism** Louis Menand,2007-02-19 Shows how T S Eliot s early views on literary value and authenticity and his later repudiation of those views reflect the profound changes regarding the understanding of literature and its significance that occurred in the early part of the twentieth century **Supplementary Catalogue of the Public Library of New South Wales, Sydney for the Years 1888-[1910] ...** Public Library of New South Wales,1906 *The Magazine of Wall Street* ,1927 **The Southern Way of Life** Charles Reagan Wilson,2022-11-30 How does one begin to understand the idea of a distinctive southern way of life a concept as enduring as it is disputed In this examination of the American South in national and global contexts celebrated historian Charles Reagan Wilson assesses how diverse communities of southerners have sought to define the region s identity Surveying three centuries of southern regional consciousness across many genres disciplines and cultural strains Wilson considers and challenges prior presentations of the region advancing a vision of southern culture that has always been plural dynamic and complicated by race and class Structured in three parts *The Southern Way of Life* takes readers on a journey from the colonial era to the present from when complex ideas of southern civilization rooted in slaveholding and agrarianism dominated to the twenty first century rise of a modern multicultural southern living As Wilson shows there is no singular or essential South but rather a rich tapestry woven with contestations contingencies and change *The National Geographic Magazine* ,1910 **Symbols, the News Magazines and Martin Luther King** Richard Lentz,1999-03-01 More than two decades after his death Martin Luther King Jr remains America s preeminent symbol of the civil rights movement In the early years of the movement King advocated a policy of nonviolent resistance to the racism ingrained in American society In later years however King adopted a more militant stance toward racial and other forms of injustice In this innovative book Richard Lentz considers King as a cultural symbol from the Montgomery bus boycott of 1955 1956 to the Poor People s Campaign which King helped organize shortly before his assassination in 1968 In particular Lentz examines the ways the three major news weeklies Newsweek Time and U S News World Report presented King to their readers It is primarily through media institutions that Americans shape and interpret their values Newsweek Time and U S News though representing different shadings of political ideology ranging from left of center to conservative were all aimed at the same audience middle class

Americans Therefore their influence on the nation s values during a period of enormous social upheaval was significant In the mid 1960s when King shifted from reform to radicalism the news magazines were thrust into what Lentz calls a crisis of Symbols because King no longer fit the symbolic mold the magazines had created for him Lentz investigates how the magazines responded to this crisis discussing the ways in which their analyses of King shifted over time and the means they employed to create a new symbolic image that made sense of King s radicalization for readers This is an important perceptive study of Martin Luther King Jr s career and an astute critical analysis of the reporting practices of the news media in the modern era
