The 12 research results of *Research II* indicate that the two-dimensional space (the dimension space) is effective in representing knowledge that goes beyond the dimension space itself.

It would be inappropriate to suggest that the findings indicate that the relationship between the two variables is causal. The findings only suggest that there is a relationship between the two variables.

A MAGGOT

John Fowles

The bulk of *Spiegel* comes from the 1970s, and is written in the style of the *Frankfurter Allgemeine Zeitung*, the most influential newspaper in Germany. The book is written by a team of journalists, and is a well-written and engaging read. It is a good introduction to the history of the German Democratic Republic, and the role of the media in the country. The book is written in a style that is accessible to a general audience, and is a good read for anyone interested in the history of the German Democratic Republic.
