**Why Everyone (Else) Is a Hypocrite** Robert Kurzban, 2012-05-27 The evolutionary psychology behind human inconsistency. We're all hypocrites. Why? Hypocrisy is the natural state of the human mind. Robert Kurzban shows us that the key to understanding our behavioral inconsistencies lies in understanding the mind's design. The human mind consists of many specialized units designed by the process of evolution by natural selection. While these modules sometimes work together seamlessly, they don't always result in impossibly contradictory beliefs, vacillations between patience and impulsiveness, violations of our supposed moral principles, and overinflated views of ourselves. This modular evolutionary psychological view of the mind undermines deeply held intuitions about ourselves as well as a range of scientific theories that require a self with consistent beliefs and preferences. Modularity suggests that there is no I. Instead, each of us is a contentious we, a collection of discrete but interacting systems whose constant conflicts shape our interactions with one another and our experience of the world. In clear language, full of wit and rich in examples, Kurzban explains the roots and implications of our inconsistent minds and why it is perfectly natural to believe that everyone else is a hypocrite.

**All My Words Have Holes in Them** Ginny Wilder, 2017-10-01 Powerful image-filled reflections on listening to and responding to the Holy within and around us. Have you ever worked up the courage to pray and opened your mouth to discover you didn't know what to say? Perhaps you were worried you might sound foolish or like a toddler or worse, yet you might say something you didn't really mean. Or have you ever steadied yourself to pray, lit a candle, rang the singing bowl, and realized that there were no words in our human language that could possibly contain what it is that you want to say in prayer? Our words have holes in them. Ginny Wilder offers a collection of prayers, poems, reflections, and stories written from a heart that knows what it is like to dwell in the fringe and in the wilderness. It was her ongoing conversation with God, knowing that her words had holes in them that helped keep her connected and grounded when leaving and coming back to church. These writings are geared towards those who need a different kind of way to nourish their spiritual journey, the spiritually hungry, lost, and found seekers, and anyone contemplating their prayer life and relationship with God. The language is simple, the settings are personal, and the conversation is always between our hearts and the heart of our God.

*It's Not About the Shark* David Niven, 2014-11-04 In the spirit of *The Tipping Point* and *Freakonomics*, David Niven presents a new way of decoding the riddles of the everyday choices we make. *It's Not About the Shark* opens the door to the groundbreaking science of solutions by turning problems and how we solve them upside down. When we have a problem, most of us zero in, take it apart, and focus until we have it solved. David Niven shows us that focusing on the problem is exactly the wrong way to find an answer. Putting problems at the center of our thoughts shuts down our creative abilities, depletes stamina, and feeds insecurities. *It's Not About the Shark* shows us how to transform our daily lives, our work lives, and our family lives with a simple but rock-solid principle: If you start by thinking about your problems, you'll never make it to a solution. If you start by thinking about a solution, you'll never worry about your problems again. Through real-life examples and psychology research, Niven shows us why focusing on the problem first makes us 17 times less likely to find an answer. Being afraid of a problem is natural; we're biologically primed to be afraid. Finding a problem creates power, which keeps you from finding a solution. Working harder actually hides answers. Absolute confidence makes you less likely to find the answer. Looking away from a problem helps to see a solution. Listening only to yourself is one of the best ways to find an answer. Combining hard facts, good sense, and a strong dose of encouragement, Niven provides fresh and positive ways to think about problem solving
