Magic And Paganism In Early Christianity:

Magic and Paganism in Early Christianity Hans-Josef Klauck, 2003-03-01 Many forms of magic and paganism were practiced at the time of Jesus. What were these practices and how did the first Christians react to them? Hans-Josef Klauck, an expert in the cultic practices of the region, describes this world into which Christianity was born and relates to it the many experiences of the first Christians recorded in Acts. Peter, for example, encounters the Samaritan magician Simon. Paul meets the Jewish magician Bar Jesus. The people in Lystra want to offer a sacrifice to Paul and Barnabas. A soothsaying slave girl is the occasion of conflict in Philippi. In Athens, Paul finds the city full of idols but also discovers an altar to an unknown god. In Ephesus, some burn their books of magic formulae while others provoke a riot in the name of Artemis. Professor Klauck provides a fascinating account of these phenomena and their significance for Christianity historically and today. Available November 2000

Magic and Paganism in Early Christianity Hans-Josef Klauck, Readers College university and seminary students New Testament scholars

New Documents Illustrating Early Christianity S. R. Llewelyn, J. R. Harrison, E. J. Bridge, 2012-11-29 Collecting documentary evidence that appeared in publications between 1988 and 1992, volume 10 reproduces, translates, and reviews a selection of Greek inscriptions and papyri that focus on major social institutions of the time. A comprehensive series of indexes for volumes 6-10 offers a cumulative perspective on many topics. Page 4 of cover

Magic in the Middle Ages Richard Kieckhefer, 2014-11-06 A fascinating study of natural and demonic magic within the broad context of medieval culture

Backgrounds of Early Christianity Everett Ferguson, 2003-08-19 Having long served as a standard introduction to the world of the early church, Everett Ferguson's *Backgrounds of Early Christianity* has been expanded and updated in this third edition. The book explores and unpacks the Roman, Greek, and Jewish political, social, religious, and philosophical backgrounds necessary for a good historical understanding of the New Testament and the early church. New to this edition are revisions of Ferguson's original material, updated bibliographies, and fresh discussions of first-century social life, of Gnosticism, and of the Dead Sea Scrolls and other Jewish literature.

Magic, Witchcraft, Pagans & Christians Gary R. Varner, 2010-04-18 It was perhaps the most pivotal event in the world's history that the age-old practice of magic was destroyed by a religion which would eventually dominate a large portion of the world and wield an incredible amount of power. Such an event was not a sudden thing. Laws were enacted in ancient Babylon to control black witchcraft and magic. The same incantations and spells used by black witches were not only allowed but encouraged when performed by healers. This study is about the continuous practice of magic by pagans, Jews, and Christians. Christians think of Jesus as the Savior of Mankind and the champion of good over evil. However, the first Christians viewed Jesus in a much different way. A bowl dating from the 1st century CE was discovered in 2008 in the underwater ruins of an ancient harbor. On the bowl was an engraving interpreted to read: "Christ the magician." That Jesus was widely regarded as a magician during his time has been quietly and effectively swept under the carpet.

A History of the Quests for the

Historical Jesus, Volume 2 Colin Brown, Craig A. Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One sold separately covers the period from the beginnings of Christianity to the end of World War II Volume Two covers the period from the post War era through contemporary debates

Magic in the Ancient Eastern Mediterranean Nina Nikki, Kirsi M.J. Valkama, 2020-12-14 Magic in the Ancient Eastern Mediterranean Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one's loved ones had to be defended as

well as the multitude of protective beings such as angels **Arcana Mundi** Georg Luck, 2006-05-06 Magic miracles daemonology divination astrology and alchemy were the arcana mundi the secrets of the universe of the ancient Greeks and Romans In this path breaking collection of Greek and Roman writings on magic and the occult Georg Luck provides a comprehensive sourcebook and introduction to magic as it was practiced by witches and sorcerers magi and astrologers in the Greek and Roman worlds In this new edition Luck has gathered and translated 130 ancient texts dating from the eighth century BCE through the fourth century CE Thoroughly revised this volume offers several new elements a comprehensive general introduction an epilogue discussing the persistence of ancient magic into the early Christian and Byzantine eras and an appendix on the use of mind altering substances in occult practices Also added is an extensive glossary of Greek and Latin magical terms In *Arcana Mundi* Georg Luck presents a fascinating and at times startling alternative vision of the ancient world For a long time it was fashionable to ignore the darker and to us perhaps uncomfortable aspects of everyday life in Greece and Rome Luck has written But we can no longer idealize the Greeks with their artistic genius and the Romans with their sober realism Magic and witchcraft the fear of daemons and ghosts the wish to manipulate invisible powers all of this was very much a part of their lives *Medicine and Health Care in Early Christianity* Gary B. Ferngren, 2016-08 Drawing on New Testament studies and recent scholarship on the expansion of the Christian church Gary B Ferngren presents a comprehensive historical account of medicine and medical philanthropy in the first five centuries of the Christian era Ferngren first describes how early Christians understood disease He examines the relationship of early Christian medicine to the natural and supernatural modes of healing found in the Bible Despite biblical accounts of demonic possession and miraculous healing Ferngren argues that early Christians generally accepted naturalistic assumptions about disease and cared for the sick with medical knowledge gleaned from the Greeks and Romans Ferngren also explores the origins of medical philanthropy in the early Christian church Rather than viewing illness as punishment for sins early Christians believed that the sick deserved both medical assistance and compassion Even as they were being persecuted Christians cared for the sick within and outside of their community Their long experience in medical charity led to the creation of the first hospitals a singular Christian contribution to health care A succinct thoughtful well written and carefully argued assessment of Christian involvement with medical matters in the first five centuries of the common era It is to Ferngren s credit that he has opened questions and explored them so astutely This fine work looks forward as well as backward it invites fuller reflection of the many senses in which medicine and religion intersect and merits wide readership *Journal of the American Medical Association* In this superb work of historical and conceptual scholarship Ferngren unfolds for the reader a cultural milieu of healing practices during the early centuries of Christianity *Perspectives on Science and Christian Faith* Readable and widely researched an important book for mission studies and American Catholic movements the book posits the question of what can take its place in today s challenging religious culture *Missiology An International Review* Gary B

Ferngren is a professor of history at Oregon State University and a professor of the history of medicine at First Moscow State Medical University He is the author of *Medicine and Religion A Historical Introduction* and the editor of *Science and Religion A Historical Introduction*

A History of Pagan Europe Prudence Jones, Nigel Pennick, 2013-10-11 The first comprehensive study of its kind this fully illustrated book establishes Paganism as a persistent force in European history with a profound influence on modern thinking From the serpent goddesses of ancient Crete to modern nature worship and the restoration of the indigenous religions of eastern Europe this wide ranging book offers a rewarding new perspective of European history In this definitive study Prudence Jones and Nigel Pennick draw together the fragmented sources of Europe's native religions and establish the coherence and continuity of the Pagan world vision Exploring Paganism as it developed from the ancient world through the Celtic and Germanic periods the authors finally appraise modern Paganism and its apparent causes as well as addressing feminist spirituality the heritage movement nature worship and deep ecology This innovative and comprehensive history of European Paganism will provide a stimulating reliable guide to this popular dimension of religious culture for the academic and the general reader alike

The Early Christian World Philip F. Esler, 2002-09-11 Early Christian World presents an exhaustive erudite and lavishly illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre eminent religion of the ancient world The work begins by firmly situating early Christianity within its Mediterranean social political and religious contexts before charting the history of the first Christian centuries The creation and perpetuation of Christian communities through various means including mission and monasticism is explored as is the everyday experience of early Christians through discussion of gender and sexuality religious practice communication and social structures The intellectual particularly theological and artistic heritage of the period is fully considered and a vivid picture painted of the internal and external challenges faced by early Christianity The book concludes with profiles of the most notable figures of the age Comprehensive and accessible Early Christian World provides up to date coverage of the most important topics in the study of early Christianity together with an invaluable collection of visual material It will be an indispensable resource for anyone studying this period

The Early Christian World Philip Francis Esler, 2004 The Early Christian World presents an exhaustive erudite and illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre eminent religion of the ancient world

The Truth Society Noelle Molé Liston, 2020-11-15 Noelle Molé Liston's *The Truth Society* seeks to understand how a period of Italian political spectacle which regularly blurred fact and fiction has shaped how people understand truth mass mediated information scientific knowledge and forms of governance Liston scrutinizes Italy's late twentieth century political culture particularly the impact of the former prime minister and media mogul Silvio Berlusconi By doing so she examines how this truth bending political era made science logic and rationality into ideas that needed saving With the prevalence of fake news and our seeming lack of shared reality in the post truth world many people struggle to figure out where this new normal came from Liston argues

that seemingly disparate events and practices that have unfolded in Italy are historical reactions to mediatized political forms and particular cultivated ways of knowing Politics then is always sutured to how knowledge is structured circulated and processed The Truth Society offers Italy as a case study for understanding the remaking of politics in an era of disinformation

Icons of Power Naomi Janowitz,2010-11-01 Janowitz sifts through the polemics to make sense of the daunting mosaic of religious belief and practice in Late Antiquity Janowitz reveals how ritual practitioners held common assumptions about why their rituals worked and how to perform them Icons of Power makes an important contribution to our understanding of society in Late Antiquity A Political History of Early Christianity Allen Brent,2009-09-01 Allen Brent tells the story of the triumph of Early Christianity in the political context of the Roman Empire Between Magic and Religion Sulochana Ruth Asirvatham,Corinne Ondine Pache,John Watrous,2001 Between Magic and Religion represents a radical rethinking of traditional distinctions involving the term religion in the ancient Greek world and beyond through late antiquity to the seventeenth century The title indicates the fluidity of such concepts as religion and magic highlighting the wide variety of meanings evoked by these shifting terms from ancient to modern times The contributors put these meanings to the test applying a wide range of methods in exploring the many varieties of available historical archaeological iconographical and literary evidence No reader will ever think of magic and religion the same way after reading through the findings presented in this book Both terms emerge in a new light with broader applications and deeper meanings *Magic in the Roman World* Naomi Janowitz,2002-09-11 A lively volume exploring the use and abuse of the word magic in late antique texts

Witchcraft and Magic in Europe, Volume 3 Karen Jolly,Catharina Raudvere,Edward Peters,2002-01-01 Between the age of St Augustine and the sixteenth century reformations magic continued to be both a matter of popular practice and of learned inquiry This volume deals with its use in such contexts as healing and divination and as an aspect of the knowledge of nature s occult virtues and secrets **The Scandal of Pentecost** Wolfgang Vondey,2023-10-19 Through a systematic analysis of the conflicts emerging when the public church encounters the public world The Scandal of Pentecost argues that the public advent of the church stands in continuity with the public scandal of the incarnate and crucified Christ The book traces the contours of this scandal in the confrontation of the dominant ruling hermeneutic of authority with a Christian hermeneutic of resistance This highlights the brokenness of the human condition manifested by the church in the drunkenness of the disciples the speaking in other tongues the baptism with the Spirit the empowerment of the flesh and its public witness to a scandalized world The effects of the scandal transform both the disciples individual and communal witness and their public recognition as the church Through the lens of a symbolic hermeneutic the public witness of the church at Pentecost reveals a Christian scandal of anthropological proportions with the outpouring of the Spirit on all flesh the church emerges as the symbol of humanity
