Moscow Road:

Moscow's Road to Nuremberg George Ginsburgs, 2023-07-24 Recent events in former Yugoslavia and Rwanda have revived diplomatic interest in measures contemplating concerted action directed at the suppression and punishment of war crimes. Indeed steps have already been initiated to set up war crimes tribunals to prosecute those responsible for such atrocities. Not to be outdone Yeltsin's Foreign Minister has also issued a call for public discussion of the idea of creating a system of international criminal justice with regard to crimes against peace and humanity other international violations of the law. The precedents of the Second World War in this venue thus seem relevant once again. Since the Soviet Union played a leading role in paving the way for the Nuremberg trial and respective proceedings before national tribunals and Russia as self-proclaimed heir and successor to the USSR continues to exercise a great deal of influence in these matters today a look at Moscow's doctrinal and practical scorecard may prove useful for future reference. The present study explores the Soviet regime's contribution to the prehistory of the Nuremberg trial i.e. the repertory of official acts and pronouncements as well as scholarly treatment of issues which ultimately shaped the legal complexion of the Nuremberg test. Our focus in this case is on the mode of development of the style and substance of the bill of indictment until the day of the court's opening session from the standpoint of Moscow's stake in the operation. The views recorded during the trial in primary or secondary sources or those expressed later are taken into account only if they shed light on the preparatory stages of the drama. The subsequent evolution of Moscow's thoughts on the subject deserves a separate full scale analysis.

In the summer of 1812, Napoleon, the master of Europe, marched into Russia with the largest army ever assembled, confident that he would sweep everything before him. Yet less than two years later, his empire lay in ruins, and Russia had triumphed. This is the first history to explore in depth Russia's crucial role in the Napoleonic Wars, re-creating the epic battle between two empires as never before. Dominic Lieven writes with great panache and insight to describe from the Russians' viewpoint how they went from retreat, defeat, and the burning of Moscow to becoming the new
