Moscow Station Ronald Kessler, 1990 A probing look at how Soviet agents managed to infiltrate the U S Embassy and steal top secret codes reveals the alarming official neglect of American security from the ambassadorial level down **The Billion Dollar Spy** David E. Hoffman, 2016-05-10 NATIONAL BESTSELLER A Washington Post Notable Book of the Year Drawing on previously classified CIA documents and on interviews with firsthand participants *The Billion Dollar Spy* is a brilliant feat of reporting and a riveting true story of intrigue in the final years of the Cold War It was the height of the Cold War and a dangerous time to be stationed in the Soviet Union One evening while the chief of the CIA s Moscow station was filling his gas tank a stranger approached and dropped a note into the car The chief suspicious of a KGB trap ignored the overture But the man had made up his mind His attempts to establish contact with the CIA would be rebuffed four times before he thrust upon them an envelope whose contents would stun U S intelligence In the years that followed that man Adolf Tolkachev became one of the most valuable spies ever for the U S But these activities posed an enormous personal threat to Tolkachev and his American handlers They had clandestine meetings in parks and on street corners and used spy cameras props and private codes eluding the ever present KGB in its own backyard until a shocking betrayal put them all at risk

Berg, 2008-10-24 Shortwave broadcasting originated in the 1920s when stations used the new technology to increase their range in order to serve foreign audiences and reach parts of their own country not easily otherwise covered The early days of shortwave radio were covered in On the Short Waves 1923 1945 Broadcast Listening in the Pioneer Days of Radio published by McFarland in 1999 paperback 2007 Then two companion volumes were published picking up the story after World War II They were Listening on the Short Waves 1945 to Today McFarland 2008 paperback 2010 which focuses on the shortwave listening community and the present Broadcasting title about the stations themselves and their environment The heart of the book is a detailed year by year account of the shortwave bands in each year from 1945 to 2008 It reviews what American listeners were hearing on the international and domestic shortwave bands describes the arrivals and departures of stations and recounts important events The book describes the several categories of broadcasters international domestic private religious clandestine and pirate It explains the impact of relay stations frequency management and jamming It also addresses the considerable changes in shortwave broadcasting since the end of the Cold War The book is richly illustrated and indexed and features a bibliography and extensive notes **Needed by Nobody** Tova Hjdstrand, 2011-03-15 Homelessness became a conspicuous facet of Russian cityscapes only in the 1990s when the Soviet criminalization of vagrancy and similar offenses was abolished In spite of the host of social and economic problems confronting Russia in the demise of Soviet power the social dislocation endured by increasing numbers of people went largely

unrecognized by the state Being homeless carries a special burden in Russia where a permanent address is the precondition for all civil rights and social benefits and where homelessness is often regarded as a result of laziness and drinking rather than external factors In *Needed by Nobody* the anthropologist Tova H jdestrand offers a nuanced portrait of homelessness in St Petersburg Based on ethnographic work at railway stations soup kitchens and other places where the homeless gather H jdestrand describes the material and mental world of this marginalized population They are she observes not needed in two senses The state considers them in effect as noncitizens At the same time they stand outside the traditionally intimate social networks that are the real safety net of life in postsocialist Russia As a result they are deprived of the prerequisites for dealing with others in ways that they themselves value as decent and human H jdestrand investigates processes of social exclusion as well as the remaining world of waste things tasks and places that are wanted by nobody else and on which human leftovers are forced to survive In this bleak context H jdestrand takes up the intimate worlds of the homeless their social relationships dirt and cleanliness and physical appearance Her interviews with homeless people show that the indigent have a very good idea of what others think of them and that they are liable to reproduce the stigma that is attached to them even as they attempt to negotiate it This unique and often moving portrait of life on the margins of society in the new Russia ultimately reveals how human dignity may be retained in the absence of its very preconditions **Russian Review** ,1925
