Inside Interviewing James Holstein, Jaber F. Rethinking Islam and Liberal Democracy Yeşim Arat, 2012-02-01 In Turkey no secular party has approximated the high levels of membership and intense activism of women within the Islamist Refah Welfare Party Rethinking Islam and Liberal Democracy examines the experiences of these women who represented an unprecedented phenomenon within Turkish politics Using in depth interviews Yeşim Arat reveals how the women of the party broadened the parameters of democratic participation and challenged preconceived notions of what Islam can entail in a secular democratic polity The women of the party successfully mobilized large groups of allegedly apolitical women by crossing the boundaries between the social and the political reaching them through personal networks cultivated in private spaces The experiences of these women show the contentious relationship between liberal democracy and Islam where liberalism that prioritizes the individual can transform coexist or remain in tension with Islam that prioritizes a communal identity legitimized by a sacred God

Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It is also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across the board interviews provide today's leading window on the world of experience The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals From interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative The Handbook of Interview Research is both encyclopedic and thematic As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi faceted assessment of what has become the method of choice for obtaining personal information in today's society But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it as an integral part of society

Gallup,2011-09-08 As the only complete compilation of polls taken by the Gallup Organization The Gallup Poll is an invaluable tool for ascertaining the pulse of American public opinion throughout the year and for documenting changing perceptions over time of crucial core issues **Crime, Criminal Justice and Masculinities** Stephen Tomsen,2017-07-05 This volume features the leading contemporary articles that are part of or related to the new masculinities approach in this sphere These comprise an impressive range of theoretical and empirical work including important cultural and ethnographic analyses They emphasise the relationship between masculinities the causes and patterns of most criminal offending and victimisation and the broader workings of the wider criminal justice system of policing public and private criminal courts corrections and prisons All of the material has been selected from flagship international journals and was produced by a global mix of male and female researchers with diverse disciplinary backgrounds These scholars share the view that masculinities are plural socially constructed reproduced in the collective social practices of different men and embedded in institutional and occupational settings Furthermore masculinities are intricately linked with social struggles for power that occur between men and women and different men Crime criminal justice and their cultural representation are key terrain for these masculine contests and are always overlain with issues such as social class age race ethnicity and sexuality *Morbidity and Mortality Weekly Report* ,2011 **Sex, Gay Men and AIDS** Peter Davies,2020-09-29 This book reports on the largest empirical study of male homosexual behaviour in the UK for thirty years Important new theories about sexuality are developed which expose unhelpful stereotypes and challenge outdated assumptions about AIDS *All Politics Are God's Politics* Ahmed Khanani,2021-01-15 Contemporary mass media descriptions of Muslims often suggest that Islam and Muslims are fundamentally undemocratic Policy makers in the West have weaponized these descriptions in attempts to legitimize anti Muslim right wing policy developments across the West and in the United States in particular from surveillance in the aftermath of 9 11 to the anti Islamic travel ban of 2017 But are Muslims undemocratic Ahmed Khanani argues that this is not the case In *All Politics are God s Politics* Khanani shows that in fact the opposite holds true for socially conservative politically active Muslims Islamists democracy or dimuqr iyya reflects

and extends their religious values By drawing on conversations with over 100 Islamists in Morocco this book enables readers to understand and appreciate the significance of *dimuqr iyya* as a concept alongside new prospects for Islam and democracy in the Arab Middle East and North Africa MENA Khanani s in depth analysis of the Moroccan case brings these Islamists and their attending political views to the forefront **Research Issues** ,1975 **Father-Child Relations** Barry S.

Hewlett,2017-09-04 Due to a greater involvement of American fathers in the direct care of their children in recent years interest in the impact and nature of the father s role in nurturing children has increased While studies about fathers in the industrialized literate West have proliferated little is known about the role of fathers in the preliterate non Western world This collection examines the diversity of paternal roles found in human cultures among various types of societies that are very peaceful and those that actively engage in warfare as a mode of existence Father Child Relations recognizes the importance of understanding both biological and cultural aspects of the father s role Many of the contributors utilize evolutionary or biosocial models including those of developmental psychology to examine the father s role while others rely upon the symbolic analysis of cultural and social anthropology One chapter is devoted to male infant relationships in nonhuman primates a further largely ignored comparative perspective The anthropologists who have contributed to this collection are field workers who have lived intimately over significant periods of time with the people about whom they are writing These research reports from the field have been edited to make them wholly accessible to the non specialist The contributors of this volume recognize that biology and ideology are intertwined both together influence the father s behavior and the effects of his behavior *The Effects of Imprisonment* Alison Liebling,Shadd Maruna,2013-06-17 As the number of prisoners in the UK USA and elsewhere continues to rise so have concerns risen about the damaging short term and long term effects this has on prisoners This book brings together a group of leading authorities in this field both academics and practitioners to address the complex issues this has raised to assess the implications and results of research in this field and to suggest ways of mitigating the often devastating personal and psychological consequences of imprisonment **Research Issues** National Institute on Drug Abuse,1974 **Obesity Discourse and Fat Politics** Lee Monaghan,Rachel Colls,Bethan Evans,2015-12-22 There is considerable rhetoric and concern about weight and obesity across an increasing range of national contexts Alarmist claims about an obesity time bomb are continually recycled in policy reports reviews and white papers each of which begin with the assumption that fatness is fundamentally unhealthy and damaging to national economies With contributions from the UK Canada the USA and Australia this book offers alternative critical perspectives on this alleged public health crisis which were in part developed through an Economic and Social Research Council seminar series on Fat Studies and Health at Every Size HAES Written by scholars from a range of disciplines and the health professions themes include an interrogation of statistical procedures used to construct the obesity epidemic overweight and obesity as cultural signifiers for Type 2 diabetes understandings of healthy eating and healthy weight in a problem population gendered

expectations on men and women to lose weight the visual representation of obesity tensions when researching anti fatness critical dietitians engagement with HAES alternative ways of promoting physical activity and representations of obesity in the media This book was originally published as a special issue of Critical Public Health **Systemic Violence** Juanita Ross Epp,Ailsa M. Watkinson,2005-08-16 This text examines the negative practices of schools which are resulting in school systems failing students Such practices include intrusive authoritarian administrative structures and procedures inappropriate discipline unrealistic expectations and placid exceptance of exclusionary practices Indeed educational systemic violence includes any practice or procedure that prevents students from learning thus harming them Taking a close look at ways in which current social problems may be a result of or even supported by compulsory schooling the contributors to this volume consider whether or not schools contribute to the violence amongst modern young people **Culture in Action** Steve Derne,1995-07-01 In Culture in Action Derne explores the interconnections between male dominance joint family living Indian emotional life and a cultural focus on group pressures Derne emphasizes the Hindu focus on the social group but shows that men often distance themselves from group culture by marrying for love separating from their parents or embracing closeness with their wives Derne s suggestion that Indian men s cultural focus on the group limits men s and women s strategies for breaking cultural norms offers a new approach to understanding how culture constrains He shows how the child rearing practices and emotional tensions associated with joint family living shape Indians group emphasis This approach suggests that the Hindu focus on the group is intimately connected with male dominance *Work Engendered* Ava Baron,2018-05-31 In tobacco fields auto and radio factories cigarmakers tenements textile mills print shops insurance companies restaurants and bars notions of masculinity and femininity have helped shape the development of work and the working class The fourteen original essays brought together here shed new light on the importance of gender for economic and class analysis and for the study of men as well as women workers After an introduction by Ava Baron addressing current problems in conceptualizing gender and work chapters by leading historians consider how gender has colored relations of power and hierarchy between employers and workers men and boys whites and blacks native born Americans and immigrants as well as between men and women in North America from the 1830s to the 1970s Individual essays explore a spectrum of topics including union bureaucratization protective legislation and consumer organizing They examine how workers concerns about gender identity influenced their job choices the ways in which they thought about and performed their work and the strategies they adopted toward employers and other workers Taken together the essays illuminate the plasticity of gender as men and women contest its meaning and its implications for class relations Anyone interested in labor history women s history and the sociology of work or gender will want to read this pathbreaking book Public Health Service Publication ,1964 **Political Psychology** John T.
