Romanowski, 2006-02-15 Entertainment has long been a source of controversy in American life On the one hand American popular culture is enormously desired captivating audiences around the world On the other hand more and more critics blame it for the breakdown of morals and even civilizations itself Surely Christians and other religious citizens have something to contribute to what is after all a discussion of morality But too often their contributions have been ill informed unreflective and reactionary In this groundbreaking book William Romanowski brings something desperately needed to the discussion an informed systematic and challenging Christian perspective Comprehensive and historically revealing *Pop Culture Wars* bids to accomplish nothing less than to reframe and render more constructive a crucial but angry cultural debate **Movie-Made Jews** Helene Meyers, 2021-09-17 *Movie Made Jews* focuses on American Jewish cinematic tradition This tradition includes fiction and documentary films that make Jews through antisemitism Holocaust indirection and discontent with assimilation and through unapologetic assertion of Jewishness queerness and alliances across race and religion While it's a truism that Jews make movies this book demonstrates how movies make Jews Civil Servants on the

Silver Screen Michelle C. Pautz, 2017-12-29 In the movies government often finds itself in a variety of roles from villain to supporting cast and rarely if ever the hero A frequent component of that role is the bureaucracy and as documented in *Civil Servants on the Silver Screen* Hollywood's Depiction of Government and Bureaucrats bureaucrats are routinely found on screen This book investigates how government bureaucrats are portrayed in the top ten box office grossing films from 2000 through 2015 Perhaps unsurprisingly government is generally portrayed poorly while individual government bureaucrats are typically depicted positively These images of government on screen are particularly important given the ability of movies to influence the attitudes and perceptions of its audiences The nature of these depictions and potential implications are considered as bureaucrats in film are categorized

Movie Censorship and American Culture Francis G. Couvares, 2006 From the earliest days of public outrage over indecent nickelodeon shows Americans have worried about the power of the movies The eleven essays in this book examine nearly a century of struggle over cinematic representations of sex crime violence religion race and ethnicity revealing that the effort to regulate the screen has reflected deep social and cultural schisms In addition to the editor contributors include Daniel Czitrom Marybeth Hamilton Garth Jowett Charles Lyons Richard Maltby Charles Musser Alison M Parker Charlene Regester Ruth Vasey and Stephen Vaughn Together they make it clear that censoring the movies is more than just a reflex against indecency however defined Whether censorship protects the vulnerable or suppresses the creative it is part of a broader culture war that breaks out recurrently as Americans try to come to terms with the market the state and the plural society in which they live

Social Class on British and American Screens Nicole Cloarec, David Haigron, Delphine Letort, 2016-01-28 At a time when debates about social inequality are in the spotlight it is worth examining how the two most popular media of the 20th and 21st centuries film and television have shaped the representation of social classes How do generic conventions determine the representation of social stereotypes How do filmmakers challenge social class identification How do factors such as national history geography and gender affect the representation of social classes This collection of new essays explores these and other questions through an analysis of a wide range of American and British productions from sitcoms and reality TV to documentaries and auteur cinema from the

1950s to the present Reframing the Past Mia E. M. Treacey, 2016-02-26 Reframing the Past traces what historians have written about film and television from 1898 until the early 2000s Mia Treacey argues that historical engagement with film and television should be reconceptualised as Screened History an interdisciplinary international field of research to incorporate and replace what has been known as History and Film It draws from the fields of Film Television and Cultural Studies to critically analyse key works and connect past scholarship with contemporary research Reconsidered as Screened History the works of Pierre Sorlin Marc Ferro John O Connor Robert Rosenstone and Robert Toplin are explored alongside lesser known but equally important contributions This book identifies a number of common themes and ideas that have been explored by historians for decades the use of history on film and television as a way to teach the past the challenge of filmic and televisual history to more traditional historiography and an ongoing battle to find an appropriate historical way to engage with Film Studies and Theory Screened History offers an approach to exploring History Film and Television that allows room for future developments while connecting them to a rich and diverse body of past scholarship Combining a narrative of historical research on film and television over the past century with a reconceptualisation of the field as Screened History Reframing the Past is essential reading both for established scholars of History and Film Film History and other related disciplines and to students new to the field Twentieth-Century Multiplicity Daniel H. Borus, 2011-12-12 The book describes the ways in which American thinkers and artists in the first two decades of the twentieth century challenged notions that a single principle explained all relevant phenomena opting instead for a pluralistic world in which many truths goods and beauties coexisted It argues that the bracketing of the idea that all knowledge was integrated allowed for a new appreciation of the importance of context and contingency *Judas Iscariot: Damned or Redeemed* Carol A. Hebron, 2016-09-22 At the beginning of the 20th century Judas was characterised in film as the epitome of evil the villainous Jew Film makers cast Judas in this way because this was the Judas that audiences had come to recognize and even expect But in the following three decades film makers as a result of critical biblical study were more circumspect about accepting the alleged historicity of the Gospel accounts Carol A Hebron examines the figure of Judas across film history to show how the portrayal becomes more nuanced and more significant even to the point where Judas becomes the protagonist with a role in the film equal in importance to that of Jesus Hebron examines how in these films we begin to see a rehabilitation of the Judas character and a restoration of Judaism Hebron reveals two distinct theologies rejection and acceptance The Nazi Holocaust and the exposure of the horrors of genocide at the end of World War II influenced how Judaism Jews and Judas were to be portrayed in film Rehabilitating the Judas character and the Jews was necessary and film was deemed an appropriate medium in which to begin that process The Mediated World David T. Race, Nation, and Empire in American History James T. Campbell, Matthew Pratt Guterl, Robert G. Lee, 2017-12-10

While public debates over America's current foreign policy often treat American empire as a new phenomenon this lively collection of essays offers a pointed reminder that visions of national and imperial greatness were a cornerstone of the new country when it was founded In fact notions of empire have long framed debates over western expansion Indian removal African slavery Asian immigration and global economic dominance and they persist today despite the proliferation of anti imperialist rhetoric In fifteen essays distinguished historians examine the central role of empire in American race relations nationalism and foreign policy from the founding of the United States to the twenty first century The essays trace the global expansion of American merchant capital the rise of an evangelical Christian mission movement the dispossession and historical erasure of indigenous peoples the birth of new identities and

the continuous struggles over the place of darker skinned peoples in a settler society that still fundamentally imagines itself as white. Full of transnational connections and cross pollinations of people appearing in unexpected places the essays are also stories of people being put quite literally in their place by the bitter struggles over the boundaries of race and nation. Collectively these essays demonstrate that the seemingly contradictory processes of boundary crossing and boundary making are and always have been intertwined. Globalized Sport Management in Diverse Cultural Contexts James J. Zhang, Brenda G. Pitts, 2019-04-05. Cross cultural management is an important facet of the globalized sport industry. Sport managers must be skilled at working with individuals from diverse cultures and aware of the key issues affecting sport on a global level. This book brings together cutting edge research from leading sport scholars from around the world to illuminate some of those important issues and to demonstrate what cross cultural management looks like in a sporting context. Presenting case studies from countries as diverse as the US, Brazil, Poland and Venezuela and across a range of sports from football to basketball, the book presents new empirical material derived from a range of inquiry protocols including both qualitative and quantitative methods. It offers critical analyses of cross cultural and managerial issues in key areas such as group cohesiveness, group communications and misperception and misinterpretation. Making an important contribution to our understanding of both theory and practice in sport management, this book is fascinating reading for any student, researcher or practitioner with an interest in global and international sport.

American Political Movies James Combs, 2013-12-17. Essays here explore the relationship between politics and explicitly political feature films from the beginning of the movie industry to World War I and for each decade through to the 1980s. The included filmography is particularly useful. Originally published in 1990, the method of inquiry put forward in this text is nonetheless extendable to the decades following its publication.
