Borders and Immigration Laurence Armand French,Magdaleno Manzanárez,2019-10-16 Borders and immigration are topics dominating world affairs during the 21st century including North America This book examines the historical antecedents to the current crisis notably along the U S A Mexico border under the Trump administration Both the immigration and border issues transcend the current Administration with a history as long as that of America itself Market demands often determined the influx of immigrants into the United States resulting in periods of anti immigrant backlash based on race and ethnic factors The geo politics of market factors and immigrant backlash is rooted in both de jure and de facto politics These factors are examined in detail with particular attention to the treatment of indigenous peoples of the Americas **Governing Through Crime** Jonathan Simon,2007-02-03 Across America today gated communities sprawl out from urban centers employers enforce mandatory drug testing and schools screen students with metal detectors Social problems ranging from welfare dependency to educational inequality have been reconceptualized as crimes with an attendant focus on assigning fault and imposing consequences Even before the recent terrorist attacks non citizen residents had become subject to an increasingly harsh regime of detention and deportation and prospective employees subjected to

background checks How and when did our everyday world become dominated by fear every citizen treated as a potential criminal In this startlingly original work Jonathan Simon traces this pattern back to the collapse of the New Deal approach to governing during the 1960s when declining confidence in expert guided government policies sent political leaders searching for new models of governance The War on Crime offered a ready solution to their problem politicians set agendas by drawing analogies to crime and redefined the ideal citizen as a crime victim one whose vulnerabilities opened the door to overweening government intervention By the 1980s this transformation of the core powers of government had spilled over into the institutions that govern daily life Soon our schools our families our workplaces and our residential communities were being governed through crime This powerful work concludes with a call for passive citizens to become engaged partners in the management of risk and the treatment of social ills Only by coming together to produce security can we free ourselves from a logic of domination by others and from the fear that currently rules our everyday life
