Reflections on Infinity Raoul Nass,1999 To find out more information on Rowman Littlefield titles please visit us at [www rowmanlittlefield com](http://www.rowmanlittlefield.com) *Symbols of the Kabbalah* Sanford L. Drob,1999-11-01 *Symbols of the Kabbalah Philosophical and Psychological Perspectives* provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah It shows that the Kabbalah particularly as it is expressed in the school of Isaac Luria provides a coherent and comprehensive account of the cosmos and humanity s role within it that is intellectually morally and spiritually significant for contemporary life **Kabbalah and Alchemy** Arturo Schwarz,2000 This remarkable and groundbreaking study explores the author s view that there is a close correspondence between the basic tenets of alchemy and those of Jewish esoteric tradition generally known as Kabbalah The author Arturo Schwarz points out that both alchemy and Kabbalah are frequently distorted in popular as well as scholarly literature The real concern of alchemy is not to transmute lead into gold but rather through the investigation of the self to evolve from the state of ignorance symbolized by lead to that of awareness symbolized by gold As Schwarz points out this drive toward self awareness is also basic in the teachings of the major kabbalists Schwarz goes on to explain that in both systems one of the major instruments of understanding our inner self is love both physical and spiritual Through a careful analysis of the use of sexual imagery in both systems Schwarz builds his fascinating and eye opening thesis that alchemy and kabbalistic tradition share profound similarities *Kabbalistic Metaphors* Sanford L. Drob,2000 *Kabbalistic Metaphors Jewish Mystical Themes in Ancient and Modern Thought* places the major symbols of the theosophical Kabbalah into a dialogue with several systems of ancient and modern thought including Indian Philosophy Platonism Gnosticism and the works of Hegel Freud and Jung The author shows how the Kabbalah organizes a series of ancient ideas regarding God cosmos and humanity into a basic metaphor that itself reappears in various guises in much of modern philosophy and psychology Recognition of the parallels between the Kabbalah and modern philosophy and psychology provides us with valuable insight into both the Kabbalah and modern thought and helps pave the way for a new Kabbalah one that is spiritually and intellectually relevant to contemporary man **American Book Publishing Record** ,2000 **AJL Newsletter** Association of Jewish Libraries,1998 [Reflections on Jewish Mysticism](#) Josef Bláha,2013 This book deals with the Kabbalah and also with Hebrew literature and poetry The book also deals with modern issues of philosophy Levinas and Heidegger and the relationship between philosophy and Kabbalah back cover [Books In Print 2004-2005](#) Ed Bowker Staff,Staff Bowker, Ed,2004 **Choice** ,1999 **Introduction to the Book of Zohar, Volume 1** Yehudah Ashlag,Michael Laitman,2005-01-01 The Science of Kabbalah Pticha is the first in a series of texts that Rav Michael Laitman Kabbalist and scientist designed to introduce readers to the special language and terminology of the Kabbalah Here Rav Laitman reveals authentic Kabbalah in a manner that is both rational and mature Readers are gradually led to an understanding of the logical design of the Universe and the life whose home it is The Science

of Kabbalah a revolutionary work that is unmatched in its clarity depth and appeal to the intellect will enable readers to approach the more technical works of Baal HaSulam Rabbi Yehuda Ashlag such as Talmud Eser Sefirot and Zohar Although scientists and philosophers will delight in its illumination laymen will also enjoy the satisfying answers to the riddles of life that only authentic Kabbalah provides Now travel through the pages and prepare for an astonishing journey into the Upper Worlds Suffering Time: Philosophical, Kabbalistic, and Hasidic Reflections on Temporality Elliot R. Wolfson, 2021-05-25

No one theory of time is pursued in these essays but a major theme that threads them together is Wolfson's signature idea of the timeswerve as a linear circularity or a circular linearity expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle The conception of time elicited by Wolfson from a host of philosophical and mystical sources both Jewish and non Jewish buttresses the contention that it is precisely structural invariability that engenders interpretive variation This hermeneutical axiom is justified in turn by the presumption regarding the cadence of time as the constant return of what has always been what is yet to be The telling of time wells forth from the time of telling One cannot speak of the being of time consequently except from the standpoint of the time of being nor of the time of being except from the standpoint of the being of time *Heidegger and Kabbalah* Elliot R. Wolfson, 2019-10-01

While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions **Forthcoming Books** Rose

Army, 1999 The Scandal of a Divine Messiah Brian J. Crawford, 2024-12-30 In this groundbreaking book Brian J Crawford navigates the complex intellectual landscape that has traditionally separated Jews and Christians His focus is on a scandalous claim God became a man as Jesus of Nazareth Since the Middle Ages Jewish philosophers have said such an idea is impossible and absurd and Jewish mystics have said the idea is redundant for all things are inhabited by divine sparks By critically examining the philosophical underpinnings of the Maimonidean and Kabbalistic thought that has shaped Jewish theology Crawford constructs a compelling case for the incarnation that is grounded in the Hebrew Scriptures consistent with history informed by science and illuminated by philosophical inquiry Included within is a deep interaction with

Maimonides's Guide to the Perplexed the Jewish mystical tradition historical Christian orthodoxy and Messianic Jewish theology This landmark study promises to reinvigorate Jewish Christian discourse on the nature of God the Jewishness of the Trinity and the incarnation and the role of philosophy in Judaism and Christianity **Kabbalah** Nelson Cole, 2025-02-19

Kabbalah The Mystical Journey of the Soul to Infinity By Nelson Cole There is a hidden code that permeates all of existence an ancient knowledge that reveals the invisible architecture of the universe and the deepest purpose of the human soul

Kabbalah The Spiritual Map of the Universe is not just a book it is a portal to this timeless mystery Each page is an invitation to pierce the veils of illusion and access the hidden forces that shape reality Renowned scholar Nelson Cole takes you on a fascinating journey through the fundamental principles of Kabbalah from the Tree of Life and its ten Sefirot to the power of Divine Names from the forces of angels and demons to the enigma of reincarnation from the soul's journey to the spiritual correction of the world This book unveils the secrets of the Zohar Gematria and the subtle influence of Hebrew letters offering a practical guide for those seeking to integrate this wisdom into their daily lives But this is no ordinary reading Each concept each teaching echoes as a call to awaken You will realize that nothing in your life is random everything is governed by an energetic flow that can be understood deciphered and harnessed for spiritual transformation and personal ascension As you embark on this path you will see that the universe is not random chaos but a precise design filled with meaning and purpose And most importantly you will discover that you are a crucial piece in this grand cosmic blueprint Kabbalah is not just an esoteric theory it is a living map a system of knowledge and practice that can reshape your perception of reality and deepen your connection with the Divine The call has been made Are you ready to cross the threshold and unveil the hidden secrets awaiting your understanding *Modality* Yitzhak Y. Melamed, Samuel Newlands, 2024

Modality A History provides readers a sweeping study of the history of philosophical work on modal concepts Everyday discourse is saturated with appeals to what might be the case or to what must be true or to what cannot happen Possibility necessity and impossibility are modal terms and philosophers have long wondered how to best understand them This volume traces the history of some of the most prominent and important contributions to our understanding of possibility and necessity over the past two and half millennia of western philosophy from ancient Greek philosophers through current debates in the 21st century Over the course of nine chapters from prominent scholars this volume traces a history of modal theorizing that begins with extended discussions of Aristotle and the Stoics Several chapters discuss insights and disagreements among Latin Arabic and Jewish medieval scholastics such as Al Ghazali R. Scotus and Crescas Three chapters center on early modern philosophers whose modal views were deeply shaped by this conceptual inheritance but also departed from it in significant ways Descartes Malebranche Locke Spinoza Leibniz and Hume Kant and Hegel's modal contributions are presented in their own chapter and another chapter traces the legacy of Kant's account on early to mid 20th century modal views including Husserl Heidegger Russell and Quine The revival of modal metaphysics in the more recent work of Kripke Marcus and Lewis has led to a new

flourishing of modal theories including in recent debates among neo Aristotelians as the final chapter illustrates Although modal concepts are interesting and important on their own theories of modality often intersect with other significant philosophical topics such as time freedom and God Modal concepts also extend beyond metaphysics To illustrate the role of modality in other domains several small scale studies or Reflections are dispersed among these main chapters on modality in cosmology religion music literature and logic Readers will learn how a seemingly timeless and changeless cluster of modal concepts have undergone significant revisions and enjoy a rich developmental history Absorbing Perfections Moshe Idel,2008-10-01 In this wide ranging discussion of Kabbalah from the mystical trends of medieval Judaism to modern Hasidism one of the world s foremost scholars considers different visions of the nature of the sacred text and of the methods to interpret it Moshe Idel takes as a starting point the fact that the postbiblical Jewish world lost its geographical center with the destruction of the temple and so was left with a textual center the Holy Book Idel argues that a text oriented religion produced language centered forms of mysticism Against this background the author demonstrates how various Jewish mystics amplified the content of the Scriptures so as to include everything the world or God for example Thus the text becomes a major realm for contemplation and the interpretation of the text frequently becomes an encounter with the deepest realms of reality Idel delineates the particular hermeneutics belonging to Jewish mysticism investigates the progressive filling of the text with secrets and hidden levels of meaning and considers in detail the various interpretive strategies needed to decodify the arcane dimensions of the text **The Influence of Abraham Cohen de Herrera's Kabbalah on Spinoza's Metaphysics** Miquel Beltran,2016-06-21 In this book the author seeks to find historiographical and textual evidence that Abraham Cohen de Herrera s main kabbalistic work Puerta del Cielo influenced Spinoza s metaphysics as it is expounded in his later work the Ethica Many of the most important ontological topics maintained by the philosopher like the concept of the first cause as substance the procession of the infinite modes the subjective or metaphorical reality of the attributes and the two different understandings of God were anticipated in Herrera s mystical treatise Both shared a particular consideration of panentheism that entails acosmism This influence is proven through a comparative examination of the writings of both authors as well as a detailed research on previous Jewish philosophical thought Kabbalah and Consciousness and the Poetry of Allen Afterman Allen B. Afterman,2005 According to Rodger Kamenetz Allen Afterman s Kabbalah and Consciousness makes the major traditions of Jewish mysticism more clear and profoundly revealing than any other work on the subject Elie Wiesel says Poetry and mysticism are magnificently reconciled in Allen Afterman s book on Kabbalah s secret imagery and silent invocations Here also is Afterman s poetry described by Yehuda Amichai as an almost private religious poetry for our post religious age The book includes an important interview with the author The Cambridge Companion to Jewish Theology Steven Kepnes,2020-12-17 The Cambridge Companion to Jewish Theology offers an overview of Jewish theology an aspect of Judaism that is equal in importance to law and ethics Covering the period from

antiquity to the present the volume focuses on what Jews believe about God and also about the relation of God to humans and the world Parts I and II cover exciting new research in Jewish biblical and rabbinic theology medieval philosophy Kabbalah mysticism and liturgy Parts III and IV turn to modern theology with an exploration of works by leading figures such as Rabbi Abraham I Kook Franz Rosenzweig and Emmanuel Levinas as well as the relation of theology to issues such as feminism and the Holocaust and the relation of Judaism to other world religions In Part V the book explores how the insights of analytic philosophy have been integrated with Jewish theology
