Dancer, 2006 As his stories unfold Daniel Dancer reflects on spirituality indigenous knowledge quantum physics psychology and ecological principles Humor synchronicity delight and heartfelt struggle are all present in these tales The result is a breath of wholeness a gift for our apocalyptic times and for a culture that has forgotten its connection to nature The sacred magical role that art has held in everyday life since the dawn of humanity is often lost in modern society Dancer s timely work is a quest to revive this form of art weaving the

Lind, 2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today Reviving Our Indigenous Souls Cathie G. Stivers, 2018-01-26 Indigenous is neither a culture nor a people Its a way The indigenous way is the embodied ancient memory of how to be fully human and its encoded in your soul no matter who your ancestors are Hidden deep and dormant within your indigenous soul is your identity and your lifes purpose longing for you to remember them and put them into action *Reviving Our Indigenous Souls How to Practice the Ancient to Bring in the New* can help you do both as you learn the origin meaning and application of 31 common verbs that collectively capture what it means to be fully human visualize via illustrated appendices the interplay of the physical and spiritual aspects of your indigenous soul at work discover how ancient wisdom and timeless practices have already defined and shaped you and will forever do so follow the cues for reflection to discern the meaning that each chapter brings to your own life and engage in recommended practices to achieve success in reviving your own indigenous soul At this unprecedented time in planetary and cosmic history you are needed You are whole and sufficient gifted and powerful You are enough and you are called to go out into the world and be enough Let *Reviving Our Indigenous Souls* remind you of the former and guide you through the latter
