Long Presidency France In The Mitterrand Years 1981 1995

Stanley R. Sloan

Long Presidency France In The Mitterrand Years 1981 1995:

François Mitterrand Ronald Tiersky, 2003 Tiersky examines the three major themes of Mitterrand's presidency: socialism, national reconciliation, and the reconstruction of Europe, and shows that on each count Mitterrand left a decisive mark. *Western Europe 2003* Europa Publications, 2002-11-30 This edition brings together analyses, statistics, and directory data on the countries and territories of Western Europe. **France 1815-2003: Modern History For Modern Languages** Martin Evans, 2014-02-04 Written in an accessible style and assuming no prior knowledge, the books in this series address the specific needs of students in language courses. *France 1815-2003* focuses on the main events in French political history, including major socio-economic themes when relevant. The book will be supplemented by a specialized website that will include links, interviews with key historians, and further documents. **The Long Presidency** Julius W. Friend, 1998-12-25 In this informed and balanced treatment of recent French history, Julius Friend analyzes the changes, successes, and failures in the long and checkered record of former French president François Mitterrand. Extensive interviews with French politicians and intellectuals complement Friend's original research. Mitterrand was in office for fourteen years longer than any other democratically elected president of France, but Friend asks us to consider the legacy of such a tenure. Elected in 1981 on a platform of radical reorganization of the French economy and society, Mitterrand was compelled to reverse policy within two years. Conventional austerity replaced socialist measures. His second term was spotted by scandal, and he was weakened by illness. The Mitterrand era ended with a conservative victory that confirmed an earlier Socialist parliamentary defeat. In 1997, Mitterrand's heirs who reject part of his legacy returned to power. **The Human Tradition in Modern France** K. Steven Vincent, Alison Klairmont-Lingo, 2000-10-01 *The Human Tradition in Modern France* gives a human perspective of the history of France from 1789 to the present, revealed in essays that highlight individuals and intriguing events that too often have been lost under labels and statistics. Students will gain an understanding of the humor and passion in French history from these new original essays by well-established scholars. This collection also relates the individuals, events, and controversies to current historiographical debates. *The Human Tradition in Modern France* is an excellent supplementary text for courses on French history and is also useful for courses in world history and Western Civilization. **France Since 1815** Martin Evans, Emmanuel Godin, 2014-01-21 Part of the *Modern History for Modern Languages Series*, *France since 1815* provides an accessible overview of the major socio-political changes in France during this period. Designed for area studies students studying French, it presents the historical context necessary for language students to understand the complexities of contemporary French society. Adopting a chronological approach, it surveys nearly two hundred years of French history with events covered including The French Revolution, The Bourbon Restoration, The Third Republic, Occupied France, The Fourth Republic, The Gaullist Revolution, and France after 2003. This revised edition includes new material that focuses on Chirac's second mandate, Iraq war, religion, suburbs, and the inability/impossibility of carrying on with reform, an assessment of the

controversial Sarkozy presidency and a final chapter covering the last ten years culminating in the results of the French presidential elections in 2012 Features include clear timelines of main events and suggested topics for discussion glossary inserts throughout of key terms and concepts the use of primary documents to re create and understand the past free access to a website <http://www.port.ac.uk/special/france1815to2003> containing a wealth of complementary material Drawing on the best scholarship particular emphasis has been given to the role of political memory the contribution of women and the impact of colonialism and post colonialism The relationship between France and her European partners is analysed in greater depth and there are new sections explicitly situating France and the French within a wider transnational global perspective

The Extreme Right in France James Shields, 2007-05-07 A comprehensive new historical study of the extreme right in France from the Vichy regime to the present day The Front National has for some years been France's third political party and the most significant extreme right force in Europe its leader Jean Marie Le Pen contested the second round of the 2002 presidential election with 5.5 million votes This wide ranging and authoritative book examines the resurgence of right wing extremism in France from a historical perspective tracing the political lineage of Le Pen and the FN through key figures and movements on the French extreme right since 1940 Part 1 devotes chapters to the Vichy regime the aftermath of the Occupation the Poujadist movement the Algerian War the Nouvelle Droite and extreme right ideology and activism in the 1960s and 1970s Part 2 analyzes the electoral rise of the FN its evolving programme and exploitation of salient issues the geography and sociology of its electorate its exercise of local power and its impact on national political culture in contemporary France The FN it is argued represents both the latest manifestation of a long tradition of right wing radicalism and a complex new phenomenon within the changing social and political dynamics of France today This is an essential book for all readers with an interest in French and European politics and modern history

De Gaulle's Legacy W. Nester, 2014-12-16 This book explores the following What is the art of power What is the art of French power How did Charles de Gaulle understand and assert power establishing the Fifth Republic and breaking centuries of political instability How well or poorly have his successors wielded the art of French power to define defend or enhance French interests

Europe Today Ronald Tiersky, Erik Jones, 2007 This book offers a set of both country case studies and analysis of the European Union The contributors an authoritative group of Americans and Europeans explore the new Europe West and East using intertwining themes of domestic politics European integration and European security Each chapter provides a foundation of basic political information and explanation enhanced by distinctive and informed perspectives on current issues Now in its third edition it presents an up to date and thoughtful treatment on the war in Iraq debates over NATO's evolving role U S European relations enlargement issues and the challenges of terrorism in a European context All chapters have been thoroughly revised and completely new chapters have been added on France Great Britain Russia Central and Eastern Europe EU law and terrorism With its strong international emphasis and focus on Europe before and after Iraq this book

leads readers toward a coherent view of intra European conflicts Europe and the United States and Europe's international responsibilities

The Statesman's Yearbook 2007 B. Turner, 2017-02-07 The Statesman's Yearbook now in a new enlarged format contains profiles of every country in the world and includes 20% new content All print purchases now receive online access at no extra cost with a single user licence giving access to the full text online updated regularly and fully searchable For queries sybinfo palgrave com

Western Europe 2024-2025 Wayne C. Thompson, 2024-07-30 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is organized by individual chapters for each country expertly covering the region's geography people history political system constitution parliament parties political leaders and elections The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 42nd edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets

Ruling by Statute Sebastian M. Saiegh, 2011-04-25 What are the main factors that allow presidents and prime ministers to enact policy through acts of government that carry the force of law Or simply put when does a government actually govern The theory presented in this book provides a major advance in our understanding of statutory policy making Using a combination of an original analytical framework and statistical techniques as well as historical and contemporary case studies the book demonstrates that contrary to conventional wisdom variations in legislative passage rates are the consequences of differences in uncertainty not partisan support In particular it shows that a chief executive's legislative success depends on the predictability of legislators voting behavior and whether buying votes is a feasible option From a normative standpoint the book reveals that governability is best served when the opposition has realistic chances of occasionally defeating the executive in the legislative arena

Personal Diplomacy in the EU Roland Vogt, 2016-10-04 At a time when the economic troubles and bailouts of Greece and other European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957 British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU's system of top level decision making that privileges institutionalised summitry has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late

Capital Rules Rawi Abdelal, 2009-09-30 The rise of global financial markets in the

last decades of the twentieth century was premised on one fundamental idea that capital ought to flow across country borders with minimal restriction and regulation Freedom for capital movements became the new orthodoxy In an intellectual legal and political history of financial globalization Rawi Abdelal shows that this was not always the case Transactions routinely executed by bankers managers and investors during the 1990s trading foreign stocks and bonds borrowing in foreign currencies had been illegal in many countries only decades and sometimes just a year or two earlier How and why did the world shift from an orthodoxy of free capital movements in 1914 to an orthodoxy of capital controls in 1944 and then back again by 1994 How have such standards of appropriate behavior been codified and transmitted internationally Contrary to conventional accounts Abdelal argues that neither the U S Treasury nor Wall Street bankers have preferred or promoted multilateral liberal rules for global finance Instead European policy makers conceived and promoted the liberal rules that compose the international financial architecture Whereas U S policy makers have tended to embrace unilateral ad hoc globalization French and European policy makers have promoted a rule based managed globalization This contest over the character of globalization continues today

Defense of the West Stanley R. Sloan, 2020-09-11 Written in a lively and readable style by the world's leading authority on the North Atlantic Treaty Organization and US European relations *Defense of the West* is the history of a transatlantic security relationship that has endured for over seventy years This latest edition of a classic work looks at how developments inside NATO and European Union member states affect their ability to defend against external threats while preserving Western values in the era of Trump and Brexit Sloan frankly addresses the failures and shortcomings of Western institutions and member states But the book emphasizes the continuing importance of value based transatlantic security cooperation as a vital element of the defense and foreign policies of NATO and EU member states At a time of heightened tension and political turmoil at home and abroad Stan Sloan's lucid and far sighted analysis is more necessary than ever

Human Rights Brought Home Simon Halliday, Patrick Delbert Schmidt, 2004-08 This collection of essays written by a range of distinguished socio legal scholars explores human rights in domestic legal systems

Fear of a Yellow Vest Planet Peter Wilkin, 2021-06-29 The Yellow Vest Gilets Jaunes protests that started in November 2018 have rocked French political culture and led critics to denounce the movement as being a threat to democracy or worse Among other things the protestors were accused of being barbarians philistines racists anti Semites and reactionaries who would destroy both France and European civilization In fact this book argues that the protests must be understood as part of a wave of protests against the extension of the market into all areas of social life that have been taking place around the world since the 1980s While the Yellow Vest protests embrace a range of actors that cut across the French political spectrum the agenda that rapidly emerged from the movement in the shape of the People's Directive shows that it is a broadly progressive protest that has articulated radical ideas and practices with a view to transforming French political culture by means of direct democracy The end goal is to be a new social order which is environmentally sustainable and built around principles of social

justice In this respect its ideas and actions are a challenge to mainstream French political culture The Statesman's Yearbook 2005 B. Turner,2017-02-07 For one hundred and forty one years The Statesman s Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The 2005 edition is fully updated and contains more information than ever before A foldout colour section provides a political world map and flags for the one hundred and ninety two countries of the world In an endlessly changing world the annual publication of The Statesman s Yearbook gives you all of the information you need in one easily digestible single volume It will save hours of research and cross referencing between different sources and is an essential annual purchase
