Psychiatric Care of the Medical Patient Barry S.

Fogel, Donna B. Greenberg, 2015-05-28 The third edition of Psychiatric Care of the Medical Patient brings a classic reference text into the twenty first century It combines critical scholarship with the voice of expert clinicians who work at the interface of psychiatry with medical specialties It is meant to be read for pleasure as well as consulted as a reference The editors have worked with the authors to bring a consistent perspective to the book one that sees the medical psychiatrist as an agent for

bringing a more comprehensive perspective to medical care Even seasoned and knowledgeable practitioners will find much that is new to them in this book The volume covers topics in depth that other books in the field may not cover at all such as the use of herbal and nutritional therapies for medical psychiatric symptoms and syndromes and the choice of questionnaires to supplement history taking It looks at old topics in a new way The chapter on the physical examination applies psychometric considerations to the Babinski sign describes the method and application of quantitative bedside olfactory testing and discusses smartphone apps to improve the sensitivity of the examination Psychiatric Care of the Medical Patient 3rd Edition provides concepts and information to facilitate the dialogue between psychiatrists and general medical specialists minimizing psychiatric jargon and speaking in the common language of caring and curious physicians Parkinson's Disease: An Interdisciplinary Guide to Management Fiona Lindop, Rob Skelly, 2021-11-17 Evidence shows that a multidisciplinary approach to Parkinson s care provides better patient outcomes and is more cost effective This new title provides a practical guide to this approach with the perspective of the person living with Parkinson s firmly at its core Written by experts in their field and firmly grounded in up to date evidence Parkinson s Disease A Multidisciplinary Guide to Management addresses multidisciplinary intervention through the various stages of disease rather than by discipline It covers all aspects of care from pharmacological management to non drug interventions that are helpful for Parkinson s symptoms This book is unique in its holistic approach to the patient and their family and will help all members of the team to implement a biopsychosocial model of health that puts the person with Parkinson s at the centre of care Clinician led content provides perspectives of different members of the interdisciplinary team including medics nurses physiotherapists occupational therapists and psychologists Includes practical advice and top tips enhance management of common problems Includes best practice for Parkinson s as well as Atypical Parkinsonian Syndromes Progressive Supranuclear Palsy Corticobasal Syndrome and Multiple System Atrophy Includes management of falls and bone health palliative care management of inpatients Provides practical advice on delivering services remotely by telephone or video *Long Term Clinical Care of Parkinson's Disease, Tokyo, April 1987* T. Nakanishi, 1988-01-01 Palliative Care in Neurology Raymond Voltz, Marianne de Visser, David Oliver, 2020-03-10 Over the last 50 years palliative care has usually been associated with cancer patients but more recently there has been increased discussion of the role of palliative care for neurological patients In the past years neurology has moved from being a purely diagnostic area to a very therapeutically active one A further step needs to be taken to modify the therapeutic activity from cure to care depending on the patient s disease trajectory Palliative care has been associated with care at the end of life whereas it may be appropriate earlier in the disease progression and will extend after death in the support of bereaved families The care of patients with neurological disease and their families will encompass the psychological spiritual and existential issues and neurologists and the teams in which they work should develop skills to consider all aspects of care in order to maximize the quality of life of all involved and enable patients to die
