Conspiracy U Scott A. Shay, 2021-10-05 In Conspiracy U Shay presents a case study of his alma mater Northwestern University in order to challenge the proliferation of anti Zionist conspiracy theories championed on college campuses by both the far right and far left Shay tackles the thorny question of how otherwise brilliant minds willingly come to embrace and espouse such patent falsehoods He explains why Zionism the movement for Jewish national self determination has become the focal point for both far right and far left conspiracy theories His keen analysis reveals why Jews serve as the canary in the coal mine Conspiracy U delivers an urgent wake up call for everyone who cares about the future of civil society and is concerned that universities today are failing at teaching students how to strive for truth but rather guiding students to blindly trust theories driven by ideology The book provides a roadmap for reform based on universal moral and intellectual standards and offers a way out of the culture wars that are ripping America apart The Best Books for Academic Libraries: World history, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers Book Review Index, 2002 Every 3rd issue is a quarterly cumulation Choice, 2001 *Children's Books in Print*, 2007, 2006
