Both books posit that Jesus did not die in the Holy Land as the Bible says but rather later in France and that his body was buried there. Molay is surprised when he seemingly makes more sense of these books than the authors. He believes the books are correct; furthermore, he believes he can locate the final resting place of Jesus Christ. He organizes an expedition to southern France and once there uses his expertise as a mining engineer to locate a cave that contains two limestone ossuaries filled with bones. His friend and associate Dr. Ron Campbell determines that the hand bones show evidence of a crucifixion but are the bones really the last remnants of Jesus Christ? Soon Molay feels as if he and his team are in danger. The Vatican appears as do other sinister forces planning to thwart their efforts. If Molay's suspicions are true, the implications for the entire Christian faith are dramatic. There are those who would do anything to keep Molay's discovery a secret; his curiosity could get him killed.
