poem at a time **Developmental Psychopathology, Volume 1** Dante Cicchetti, Donald J. Cohen, 2006-03-24

Developmental Psychopathology Second Edition contains in three volumes the most complete and current research on every aspect of developmental psychopathology. This seminal reference work features contributions from national and international expert researchers and clinicians who bring together an array of interdisciplinary work to ascertain how multiple levels of analysis may influence individual differences, the continuity or discontinuity of patterns, and the pathways by which the same developmental outcomes may be achieved. This volume addresses theoretical perspectives and methodological issues

including cross-cultural perspectives, developmental epidemiology, self-determination theory, and gender issues. Lateness and Longing George Baker, 2023-05-23 How a generation of women artists is transforming photography with analogue techniques. Beginning in the 1990s, a series of major artists imagined the expansion of photography, intensifying its ideas and effects while abandoning many of its former medium constraints. Simultaneous with this development in contemporary art, however, photography was moving toward total digitalization. Lateness and Longing presents the first account of a generation of artists focused on the work of Zoe Leonard, Tacita Dean, Sharon Lockhart, and Moyra Davey, who have collectively transformed the practice of photography using analogue technologies in a dissident way and radicalizing signifiers of older models of feminist art. All these artists have resisted the transition to the digital in their work. Instead, in what amounts to a series of feminist polemics, they return to earlier incomplete or unrealized moments in photography's history, gravitating toward the analogue basis of photographic mediums. Their work announces that photography has become not obsolete but late, opened up by the potentially critical forces of anachronism. Through a strategy of return and refusing to let go, the work of these artists proposes an afterlife and survival of the photographic in contemporary art, a formal lateness wherein photography finds its way forward through resistance to the contemporary itself. **Mixed-Media Self-Portraits** Cate
