

So if you care to find me/Look to the western sky/As someone told
me lately/Everyone deserves the chance to fly!/And if I'm flying
solo/At least I'm flying free/Tell those who'd ground me/Take a
message back from me/Tell them how I am defying gravity!/I'm flying
high defying gravity/And soon I'll match them in renown./And nobody
in all of Oz/No Wizard that there is or was/Is ever gonna bring me
down!/

Comande, 2024-10-02 Halley's Comet circles our sun on an average of every 74-79 years with many orbits being closer to 76 years Most people get a once in a lifetime chance to see it while there are the fortunate few who have the opportunity to experience seeing Halley's Comet twice in a lifetime In December of 2023 as Halley's Comet was approaching the far reaches of our solar system and its furthest distance from our sun after it last rounding it in 1986 Nick Comande discovered the notes he kept when tracking Halley's Comet during its 1985-86 visit He decided to share his observations and excitement from the 6 months he followed the comet during the different stages of its journey in what he now calls *My Comet Tales* **My Li'l Paradise** D. A. Koelbransen, 2010-10 A Dream Impossible! Brian S. Langton, 2006-01-09 After I had published my first book *A First Step Understanding Guillain Barré Syndrome* it occurred to me that the dream sequences described in that book

would make for an interesting read on their own as a collection of short but impossible stories Thus were sewn the seeds for this publication The postscripts that have been added are included to assist readers who have not read the earlier book and who therefore may not have a full understanding of the circumstances I found myself in During my seven month confinement in Intensive Care on a ventilator for breathing assistance diagnosed with severe acute chronic Guillain Barr Syndrome sometimes referred to in its abbreviated form as GBS I experienced many dreams and hallucinations some of which are described in the book The medications I was taking the inability to distinguish between night and day being thrust into an unfamiliar environment or something inherent in the disease itself may have been the cause Although these dreams are not necessarily in the sequence in which I dreamed them it is possible to connect them to certain events or phases of my illness Initially I was paralysed from my toes up to my eyebrows This did not appear to inhibit my mobility in some of the dreams though One moment I was in a wheelchair the next flying an F16 fighter jet even though I had never flown before other than as a fare paying passenger I found these episodes much more intense than the garden variety dream In fact most seemed so real that sometimes it was difficult if not impossible to separate them from reality Every effort has been made to keep the original story lines It must of course be understood there were a few although very few grey areas and only in those situations have I linked different parts of the story by the logical threads suggested by circumstances For the most part my recall of these dreams was total Except for my relatives the names used to identify characters are fictitious and used to enable the reader to follow the thread of the story In these sequences any similarity to any person living or deceased other than in the case of the exception noted is entirely coincidental and unintended I hope you enjoy your read The Author **A**

move there The Monsters have been brought to Earth and the last battle will be there The final battle begins at Roncesvalles in Northern Spain where he fought in 787 continues in Space and finally on the Tundra of Northern Canada **Looking for Blackfellas' Point** Mark McKenna,2002 Blackfella s Point lies on the Towamba River in south eastern New South Wales This work is a history for every Australian who is interested in the story of settler Australia s relations with indigenous people what happened between them and how they came to confront the truth about their past **The Lost Woods** H. William Rice,2014-04-21 A collection that follows the lives of two families who own land and hunt in rural South Carolina The Lost Woods is a collection of fifteen short stories most of them set in and around the fictional small town of Sledge South Carolina The events narrated in the stories begin in the 1930s and continue to the present day The stories aren t accounts of hunting methods or legends of trophy kills they are serious stories about hunting that are similar in style to William Faulkner s Go Down Moses The collection traces the evolution of two families the Whites and the Chapmans as well as the changes in hunting and land use of the past eighty years Some of these stories are narrated in third person others are told by a wide range of characters from grown men and women to children but only from one perspective that of the hunter As they walk the woods in search of turkeys deer or raccoons these characters seek something more than food They seek a lost connection to some part of themselves The title the lost woods is adapted from Cherokee myths and stories wherein people must return again and again to the woods to find animals that were lost Thereby we find not only food but who we are Through these stories Rice reminds us that hunting is inextricably entwined with identity As one of the oldest rituals that we as a species know it reflects both our nobility and our depravity Through it we return again and again to find the lost woods inside ourselves **A First Step - Understanding Guillain-Barre Syndrome** Brain S. Langton,2006-04-18 Part one of A First Step Understanding Guillain Barr Syndrome is a true blow by blow account of the Author s encounter as a healthy Canadian businessman with a rare and devastating disease Guillain Barr Syndrome G B S for short It describes his seven month long struggle for life in Intensive Care after receiving a grim prognosis and his subsequent dogged determination to overcome the effects of that disease The second part is devoted to short stories based on dreams and hallucinations experienced whilst he was in Intensive Care which in themselves reveal something of what a patient was going through They also serve to illustrate the narrow boundary between reality and the dream world and which whilst making for entertaining reading could possibly be the subject of further study Although the Author is a layperson in medical terms it is believed this book will be an important aid to medical professionals and care givers providing as it does new insights and a unique perspective on the effects not only of the disease Guillain Barr Syndrome but also of the handling and care of any long term intensive care patient and their subsequent rehabilitation For the curious it will answer many questions For G B S patients and their families it should provide inspirational reading The foreword to the book has been written by Dr Frank Warshawski MD FRCPC Director of Intensive Care Rockyview General Hospital Calgary In addition to that prestigious involvement the Author

has been fortunate in receiving permission to use other material authored by exceptionally well qualified medical professionals for which due credit is given in the Acknowledgements section of the book enabling him to produce not only an interesting publication but an informative and educational one In short a must read and deserving of a place on any medical bookshelf
